Acknowledgments

This collection of proposals is the result of a shared vision and a collaborative journey, guided by the input, dedication, and insights of countless individuals who hold Joun close to their hearts. It would not have been possible without the unwavering support and contributions of community members, experts, stakeholders, and local leaders, each of whom brought their unique perspectives to the table.

First and foremost, I extend my heartfelt gratitude to the residents of Joun, whose voices, ideas, and aspirations have been the foundation of this work. Your willingness to share your thoughts and dreams for our town has been invaluable in shaping proposals that truly reflect our community's spirit and goals. Your participation in discussions, surveys, and community gatherings has been a testament to your **commitment** to Joun's future.

Special thanks to all whose contributions were instrumental in refining our vision.

To the local leaders and stakeholders who championed this project, your support has been a vital source of encouragement. Your leadership and understanding of Joun's unique challenges and opportunities have given depth to these proposals, grounding them in both our town's history and its potential for growth.

Finally, I would like to thank everyone who worked behind the scenes—whether gathering data, conducting research, or organizing meetings—your efforts have been crucial in bringing this work to life.

Together, we have created a roadmap for Joun's future that honors our heritage and inspires a brighter tomorrow. I am truly grateful to each of you for your contributions, enthusiasm, and dedication to this endeavor.

With sincere appreciation,

Dr Antoine J. Burkush, PhD

الشكر والتقدير

هذه المجموعة من المقترحات هي نتيجة رؤية مشتركة ورحلة تعاونية ، تسترشد بمدخلات وتفاني ورؤى عدد لا يحصى من الأفراد الذين يحملون جون قريبا من قلوبهم. لم يكن ذلك ممكنا بدون الدعم والمساهمات الثابتة من أعضاء المجتمع والخبراء وأصحاب المصلحة والقادة المحليين ، الذين قدم كل منهم وجهات نظره الفريدة إلى الطاولة.

أولا وقبل كل شيء ، أعرب عن خالص امتناني لسكان جون، الذين كانت أصواتهم وأفكارهم وتطلعاتهم أساس هذا العمل. لقد كان استعدادك لمشاركة أفكارك وأحلامك لمدينتنا لا يقدر بثمن في تشكيل المقترحات التي تعكس حقا روح مجتمعنا وأهدافه. كانت مشاركتك في المناقشات والاستطلاعات والتجمعات المجتمعية شهادة على التزامك بمستقبل جون.

شكر خاص للذين كانت مساهماتهم مفيدة في صقل رؤيتنا.

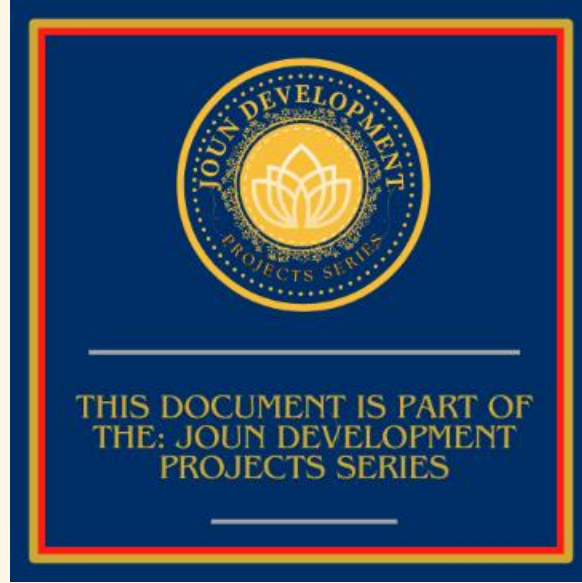

إلى القادة المحليين وأصحاب المصلحة الذين دافعوا عن هذا المشروع ، كان دعمكم مصدرا حيويا للتشجيع. لقد أعطت قيادتك وفهمك لتحديات وفرص جون الفريدة عمقا لهذه المقترحات ، مما جعلها راسخة في كل من تاريخ مدينتنا وإمكاناتها للنمو.

أخيرا ، أود أن أشكر كل من عمل وراء الكواليس - سواء في جمع البيانات أو إجراء البحوث أو تنظيم الاجتماعات - كانت جهودك حاسمة في إحياء هذا العمل.

معا ، أنشأنا خارطة طريق لمستقبل جون تكرم تراثنا وتلهم غدا أكثر إشراقا. أنا ممتن حقا لكل واحد منكم على مساهماتكم وحماسكم وتفانيكم في هذا المسعى.

مع خالص التقدير،

د. انطوان جان البرخش

رؤية واحدة، هوية واحدة، مجتمع واحد

Preface

In a world where rapid change is the new normal, the importance of strategic, sustainable, and community-centered development is paramount. Joun, with its rich cultural heritage, natural beauty, and resilient community, stands at a crossroads—one that presents both challenges and extraordinary opportunities. As we look toward Joun's future, it is essential that our plans honor the town's heritage, respond to today's needs, and set a course for future generations to thrive.

This series of proposals is the result of a deeply collaborative effort to envision Joun's path forward. Each plan reflects input from residents, local stakeholders, and community leaders, resulting in a shared vision that is both ambitious and respectful of our town's unique identity. These proposals encompass a comprehensive range of initiatives, from infrastructure and economic development to cultural preservation and environmental stewardship, with each component tailored to address Joun's specific strengths, challenges, and aspirations.

Our proposals emphasize a commitment to public infrastructure improvements, economic empowerment, environmental sustainability, and cultural continuity. From plans to enhance recreational facilities and community services to initiatives for sustainable tourism and green energy, each proposal aims to make Joun a model of progressive yet grounded development. The ultimate goal is to create a vibrant, inclusive, and resilient community—one that embodies the values, dreams, and talents of its people.

I extend my heartfelt gratitude to everyone who has contributed to this vision. Your dedication, ideas, and insight have been invaluable, illuminating the pathway to a future that aligns with Joun's core values while embracing growth and innovation. These proposals are an invitation to all residents of Joun to imagine, participate, and help build a community that harmonizes tradition with the possibilities of tomorrow.

As you review this collection, I encourage you to see not just plans, but a vision for what Joun can become. Let us move forward together, translating these ideas into action, and creating a brighter, thriving, and unified future for Joun.

With deep respect and optimism,

Dr Antoine J. Burkush, PhD

مقدمة

في عالم حيث التغيير السريع هو الوضع الطبيعي الجديد ، فإن أهمية التنمية الاستراتيجية والمستدامة التي تركز على المجتمع أمر بالغ الأهمية. تقف جون ، بتراتها الثقافية الغني وجمالها الطبيعي ومجتمعها المرن ، على مفترق طرق - مفترق طرق يمثل تحديات وفرصا غير عادية. بينما نتطلع إلى مستقبل جون ، من الضروري أن نكرم خططنا تراث المدينة ، وتستجيب لاحتياجات اليوم ، وتضع مسارا للأجيال القادمة لتزدهر.

هذه السلسلة من المقترحات هي نتيجة جهد تعاوني عميق لتصور مسار جون إلى الأمام. تعكس كل خطة مدخلات من السكان وأصحاب المصلحة المحليين وقادة المجتمع ، مما يؤدي إلى رؤية مشتركة طموحة وتحترم الهوية الفريدة لمدينتنا. تشمل هذه المقترحات مجموعة شاملة من المبادرات ، من البنية التحتية والتنمية الاقتصادية إلى الحفاظ على الثقافة والإشراف البيئي ، مع تصميم كل مكون لمعالجة نقاط القوة والتحديات والتطلعات المحددة لجون.

تؤكد مقترحاتنا على الالتزام بتحسين البنية التحتية العامة ، والتمكين الاقتصادي ، والاستدامة البيئية ، والاستمرارية الثقافية. من خطط تعزيز المرافق الترفيهية والخدمات المجتمعية إلى مبادرات السياحة المستدامة والطاقة الخضراء ، يهدف كل اقتراح إلى جعل جون نموذجا للتنمية التقدمية والمرتكزة. الهدف النهائي هو إنشاء مجتمع نابض بالحياة وشامل ومرن - مجتمع يجسد قيم وأحلام ومواهب شعبه.

وأعرب عن خالص امتناني لكل من ساهم في هذه الرؤية. لقد كان تفانيك وأفكارك ورؤيتك لا تقدر بثمن ، مما يضيء الطريق إلى مستقبل يتماشى مع القيم الأساسية لجون مع احتضان النمو والابتكار. هذه المقترحات هي دعوة لجميع سكان جون للتخيل والمشاركة والمساعدة في بناء مجتمع ينسق التقاليد مع إمكانيات الغد.

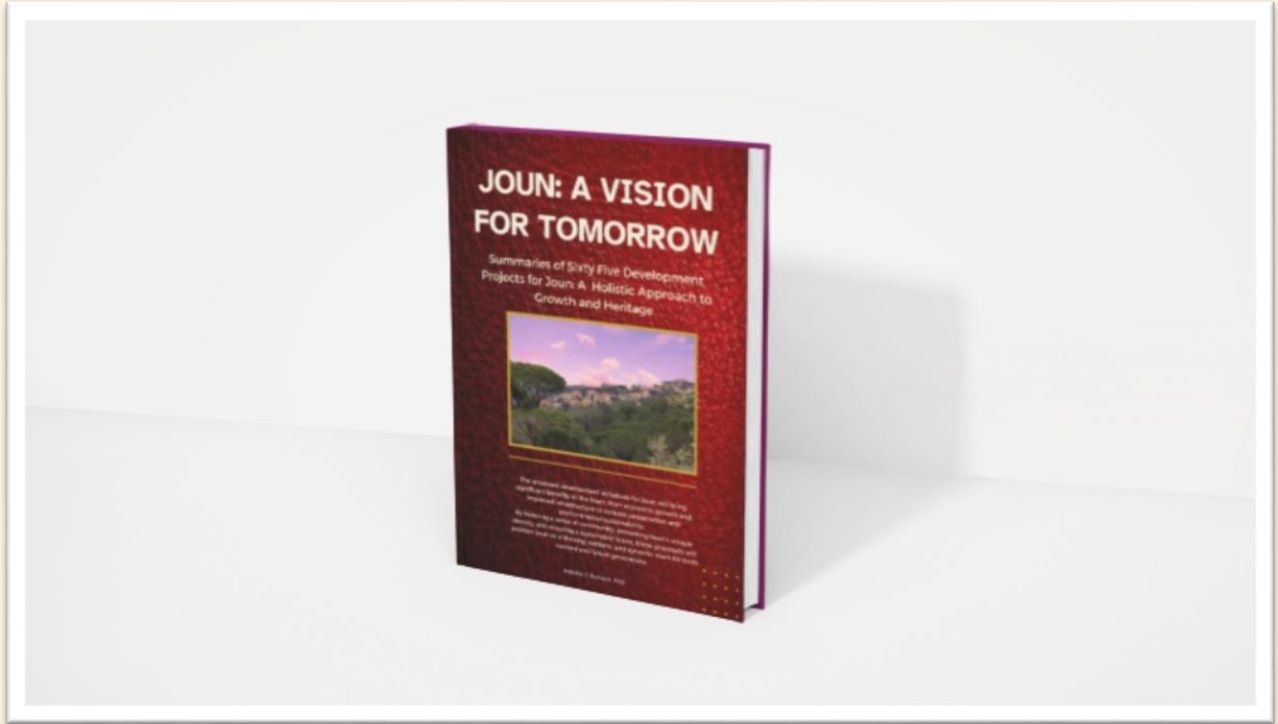

أثناء مراجعتك لهذه المجموعة ، أشجعك على رؤية ليس فقط الخطط ، ولكن رؤية لما يمكن أن يصبح عليه جون. دعونا نمضي قدما معا، ونترجم هذه الأفكار إلى أفعال، ونخلق مستقبلا أكثر إشراقا وازدهارا وموحدا لجون.

مع الاحترام العميق والتفاؤل،

د. انطوان جان البرخش

LIST OF PROJECTS PRODUCED

Book Summarizing All 70 Projects

LIST OF BOOKS PRODUCED

BELOW 70 BOOKS AVAILABLE UPON REQUEST

A. Economic Development

- **Small Business Support:** Propose programs that offer training, financial support, and resources to local entrepreneurs and small businesses. Consider creating a business incubator for startups.

اقتراح لإنشاء حديقة عامة ومنطقة نزهة فين جون

- مقترح لبناء مدرج خارجي في جون

اقتراح إنشاء مركز شباب في جون

THE SEAL OF THE TOWN OF JOUN

This seal represents the harmonious life in the town of Joun

In this picturesque town, where the church and mosque stand side by side, the spirit of unity and understanding prevails.

Here's the explanation of the symbols:

The Church: With its tall spire, the church represents the Christian community. At its pinnacle, a cross stands resolute, symbolizing faith and sacrifice.

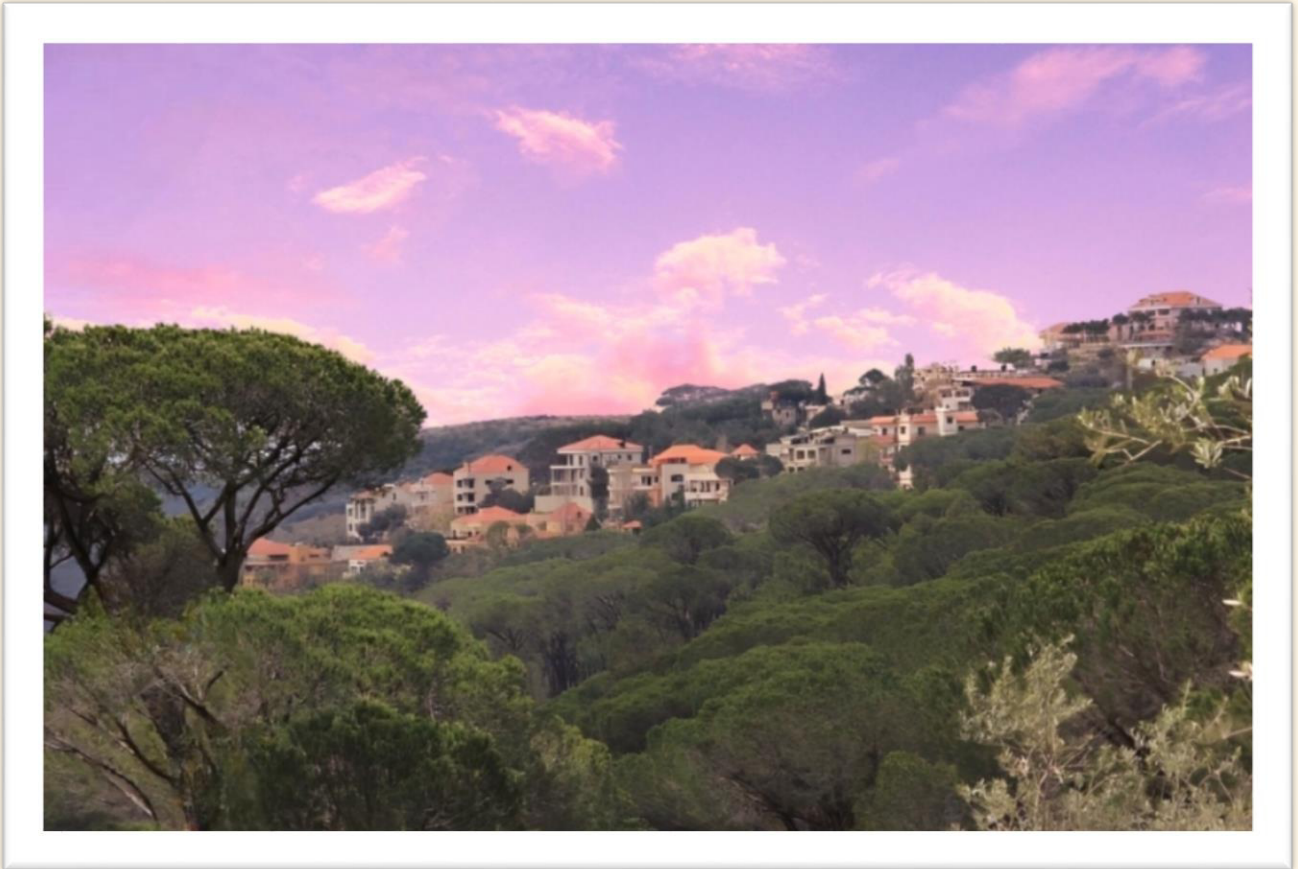

The Mosque: The elegant minarets of the mosque reach toward the sky. The crescent adorns its peak, signifying the Islamic faith and the passage of time.

Sunlight Breaking Through Clouds: Rays of sunlight pierce through the clouds, illuminating the town. This light represents hope, dispelling darkness and fostering understanding.

The Olive Tree and Pine Tree: These ancient trees stand side by side, their roots entwined. The olive tree symbolizes peace, while the pine tree represents resilience. Together, they thrive, nourished by the same soil.

Tranquility and Serenity: The air is filled with a gentle breeze, carrying whispers of acceptance and compassion. The town exudes serenity—a refuge from worldly strife.

As we continue to weave this tapestry of harmony, let us remember that unity transcends boundaries, and love knows no religion.

The Beautiful Town of Joun

THIS IS A NON PROFIT INITIATIVE

Disclaimer

The information contained in this "Who's Who" directory of Joun is for general informational purposes only. While every effort has been made to ensure the accuracy and completeness of the information provided, we make no representations or warranties of any kind, express or implied, about the reliability, suitability, or availability of the information, individuals, or services mentioned.

Inclusion Criteria: The individuals listed in this directory have been selected based on their notable contributions to the community, professional achievements, and cultural significance. Inclusion in this directory does not imply endorsement or validation of their actions or views.

Accuracy of Information: The information provided is based on publicly available sources and submissions from the individuals themselves. We do not guarantee the accuracy, completeness, or timeliness of the information. Readers are encouraged to verify any information before relying on it.

WHO IS WHO IN JOUN

We look forward to your contributions and participation to celebrating the incredible people who make Joun a wonderful place to live.

Thank you for being a part of what makes Joun special. Together, we can continue to build a bright future for our town.

Warm regards,

Signature

PREFACE

Welcome to the inaugural edition of the "Who's Who in Joun" directory. This publication is a celebration of the remarkable individuals who contribute to the vibrant tapestry of our town. From distinguished professionals and dedicated public servants to inspiring religious figures and community leaders, this directory aims to recognize and honor those who make Joun a unique and thriving community.

This directory is a personal initiative by Antoine Burkush, undertaken as a pro bono voluntary effort with no aim of personal gain whatsoever. In compiling this directory, we have sought to highlight the achievements and contributions of our fellow residents. Each entry is a testament to the hard work, dedication, and passion that drive our community forward. We hope this directory serves not only as a resource but also as an inspiration for future generations to continue building on the legacy of excellence in Joun.

We extend our heartfelt gratitude to all the individuals featured in this directory for their willingness to share their stories and achievements. Your contributions are the cornerstone of our community's success and spirit.

ACKNOWLEDGMENTS

This directory would not have been possible without the tireless efforts and dedication of **our committee members**. We would like to extend our deepest appreciation to:

- [Name], for their exceptional leadership and vision in guiding this project.
- [Name], for their meticulous research and commitment to accuracy.
- [Name], for their creative input and design expertise.
- [Name], for their invaluable support in coordinating interviews and gathering information.
- [Name], for their unwavering dedication to ensuring the success of this publication.

We also wish to thank all the residents of Joun who contributed their time and stories to this directory. Your participation has been invaluable in capturing the essence of our community.

Lastly, we are grateful to our sponsors and supporters whose generosity has made this project possible. Your belief in the importance of recognizing and celebrating our community's achievements is deeply appreciated.

Thank you all for your contributions and support. Together, we have created a lasting tribute to the people who make Joun a wonderful place to live and work.

PART ONE

INTRODUCING THE DIRECTORY

INTRODUCING THE DIRECTORY

WHAT IS A WHO'S WHO DIRECTORY AND HOW DOES IT DIFFER FROM A REGULAR TOWN DIRECTORY?

A "Who's Who" directory is distinct from other town directories in several key ways:

- 1. Focus on Notability:** A "Who's Who" directory highlights notable individuals within a community, such as professionals, community leaders, artists, and other influential figures. It emphasizes their achievements, contributions, and roles in society.
- 2. Detailed Biographies:** Entries in a "Who's Who" directory typically include detailed biographies, covering personal background, education, career milestones, and significant accomplishments. This provides a comprehensive view of each individual's life and work.
- 3. Recognition and Prestige:** Being included in a "Who's Who" directory is often seen as a mark of recognition and prestige. It acknowledges the individual's impact and importance within the community.
- 4. Categorization by Field:** These directories often categorize individuals by their field of expertise or area of influence, making it easier to find notable figures in specific sectors such as business, arts, education, or public service.
- 5. Historical and Cultural Context:** A "Who's Who" directory can also provide historical and cultural context, highlighting the contributions of individuals to the community's heritage and development.
- 6. Privacy and Legal Considerations:** Given the detailed personal information included, "Who's Who" directories often have strict privacy disclaimers and legal considerations to protect the individuals featured.

In contrast, other town directories might focus more broadly on listing residents, businesses, and services without the same level of detail or emphasis on individual achievements.

ADMINISTRATION GUIDELINES

1- General steps

- 1. Form a Committee:** Include local historians, community leaders, and representatives from various sectors like education, business, and religion.
- 2. Set Objectives:** Define what makes someone notable in your community. This could include contributions to local governance, entrepreneurship, technology, or community service.
- 3. Regular Meetings:** Schedule regular meetings to review nominations and discuss new candidates.
- 4. Research and Verification:** Ensure that all information about the individuals is accurate and up-to-date.
- 5. Publication:** Decide on the format of your directory, whether it will be a printed book, a website, or both.

2- Procedures

To ensure a fair and comprehensive selection process for our town's "Who's Who" directory, it's important to establish clear procedures. Here are some steps to follow:

1. Define Selection Criteria

- Achievements: Professional accomplishments, awards, and recognitions.
- Community Impact: Contributions to the community, volunteer work, and leadership roles.
- Reputation: Public recognition and respect within the community.

2. Form a Selection Committee

- Diverse Representation: Include members from various sectors such as education, business, arts, and community organizations.
- Roles and Responsibilities: Assign roles like chairperson, secretary, and members to ensure organized operations.

3. Develop a Nomination Process

- Public Nominations: Allow community members to nominate individuals through forms, online submissions, or public announcements.
- Committee Nominations: Committee members can also propose candidates based on their knowledge and research.

4. Screen and Shortlist Candidates

- Initial Screening: Review all nominations to ensure they meet the basic criteria.
- Shortlisting: Narrow down the list to a manageable number of candidates for detailed evaluation.

5. Evaluate Candidates

- Detailed Review: Assess each candidate against the selection criteria. Consider forming subcommittees for different categories to streamline the process.

- Interviews: Conduct interviews with shortlisted candidates or gather additional information through references and community feedback.

6. Make Final Selections

- Decision-Making Process: Use a structured approach such as voting or consensus to make final selections.

- Documentation: Keep detailed records of the evaluation process and decisions made.

7. Compile and Publish the Directory

- Compilation: Organize the selected names and their profiles into a cohesive directory.

- Publication: Decide on the format (print, digital, or both) and arrange for its publication.

- Promotion: Promote the directory through local media, community events, and social media to ensure it reaches a wide audience.

8. Review and Update

- Feedback: Gather feedback from the community and committee members to improve future editions.

- Regular Updates: Plan for regular updates to the directory to include new notable individuals and keep the information current.

By following these steps, we can create a fair and effective selection process for our "Who's Who" directory.

3- Gathering nominations for Joun "Who's Who" directory

Gathering nominations for Joun "Who's Who" directory can be an engaging community effort. Here are some effective strategies:

- 1. Public Announcements:** Use local media, social media, and community bulletin boards to announce the nomination process. Clearly state the criteria for nominations and the deadline.
- 2. Online Forms:** Create an easy-to-use online nomination form. Platforms like Google Forms or SurveyMonkey can be helpful. Share the link widely.
- 3. Community Meetings:** Host town hall meetings or community gatherings where people can nominate individuals in person. This also provides an opportunity for discussion and engagement.
- 4. Partnerships:** Collaborate with local organizations, schools, and businesses to spread the word and gather nominations. They can help reach a broader audience.
- 5. Direct Outreach:** Contact community leaders, religious figures, and other influential individuals directly to ask for their nominations and recommendations.
- 6. Nomination Boxes:** Place physical nomination boxes in public places like libraries, community centers, and municipal buildings where people can drop off their nominations.
- 7. Social Media Campaigns:** Use social media platforms to run campaigns encouraging people to nominate notable individuals. You can use hashtags, create posts, and even run ads to reach more people.
- 8. Follow-Up:** Ensure you follow up with nominators to confirm receipt of their nominations and provide updates on the selection process.

4- Creating an online nomination form

Here's a step-by-step guide:

1. Go to Google Forms: Visit [Google Forms] (<https://forms.google.com>) and sign in with your Google account.

2. Create a New Form: Click on the "Blank" form to start a new form.

3. Title and Description:

- Title: "Joun 'Who's Who' Nominations"

- Description: "Please use this form to nominate notable individuals from Joun. We are looking for professionals, community leaders, and religious figures who have made significant contributions to our town."

4. Add Questions:

- Name of Nominee: Short answer

- Nominee's Profession/Role: Short answer

- Nominee's Contributions: Paragraph

- Contact Information of Nominee: Short answer

- Your Name: Short answer

- Your Contact Information: Short answer

- Why do you think this person should be included in the 'Who's Who' directory?

Paragraph

5. Customize the Form:

- Click on the palette icon to customize the theme and colors.

- Add your town's logo or any relevant images if you have them.

6. Settings:

- Click on the gear icon to access settings.

- Under "General," you can choose whether to collect email addresses and limit responses to one per person.

- Under "Presentation," you can add a confirmation message like "Thank you for your nomination! We will review it and get back to you soon."

7. Share the Form:

- Click on the "Send" button.

- You can share the form via email, link, or embed it on your website.

Here's a preview of how our form might look:

Joun 'Who's Who' Nominations

Please use this form to nominate notable individuals from Joun. We are looking for professionals, community leaders, and religious figures who have made significant contributions to our town.

1. Name of Nominee: [Short answer]

2. Nominee's Profession/Role: [Short answer]

3. Nominee's Contributions: [Paragraph]

4. Contact Information of Nominee: [Short answer]

5. Your Name: [Short answer]

6. Your Contact Information: [Short answer]

7. Why do you think this person should be included in the 'Who's Who' directory?
[Paragraph]

5- Analyzing the nominations for our "Who's Who" directory

Analyzing the nominations for our "Who's Who" directory involves a few key steps to ensure you select the most deserving individuals. Here's a structured approach:

1. Data Collection:

- Compile Responses: Collect all the responses from your online form. Google Forms automatically organizes them into a spreadsheet, which makes it easier to analyze.

2. Initial Review:

- Screen for Completeness: Ensure all nominations are complete and contain the necessary information.

- Filter Out Duplicates: Identify and merge duplicate nominations for the same individual.

3. Categorization:

- Group by Category: Categorize nominees based on their profession, role, or contributions (e.g., community leaders, professionals, religious figures).

- Assign Scores: Develop a scoring system based on predefined criteria such as impact, contribution, and community involvement.

4. Evaluation Criteria:

- Impact: Assess the significance of the nominee's contributions to the community.

- Leadership: Evaluate their leadership roles and influence within the community.

- Recognition: Consider any awards, recognitions, or public acknowledgments they have received.

- Community Involvement: Look at their involvement in community activities and initiatives.

5. Committee Review:

- Form a Review Panel: Assemble a diverse panel of committee members to review and discuss the nominations.

- Deliberation: Hold meetings to discuss each nominee, using the scoring system to guide the discussion.

- Consensus: Aim for a consensus on the most notable individuals, but be prepared to vote if necessary.

6. Final Selection:

- Shortlist: Create a shortlist of the top candidates based on the committee's evaluation.

- Verification: Verify the information provided in the nominations through additional research or direct contact with the nominees.

7. Documentation:

- Prepare Profiles: Write detailed profiles for each selected individual, highlighting their contributions and achievements.

- Feedback: Provide feedback to nominators and nominees about the selection process and outcomes.

8. Publication:

- Design and Format: Decide on the format of the directory (print, online, or both) and design it accordingly.

- Launch Event: Consider hosting an event to launch the directory and celebrate the notable individuals.

6- Creating comprehensive and engaging profiles for each nominee

Creating comprehensive and engaging profiles for each nominee is crucial for our "Who's Who" directory. Here's a detailed outline of what to include in each profile:

1. Basic Information:

- Full Name: The nominee's full name.
- Photo: A professional or high-quality photo of the nominee.

2. Professional Background:

- Current Position/Role: The nominee's current job title or role in the community.
- Career Highlights: Key milestones and achievements in their professional career.

3. Contributions to the Community:

- Major Contributions: Specific projects, initiatives, or actions the nominee has undertaken that have positively impacted the community.
- Awards and Recognitions: Any awards, honors, or recognitions the nominee has received for their work.

4. Personal Background:

- Education: Educational background, including degrees and institutions attended.
- Personal Story: A brief narrative about the nominee's journey, challenges they've overcome, and what motivates them.

5. Community Involvement:

- Volunteer Work: Details of any volunteer work or community service the nominee is involved in.
- Memberships: Membership in local organizations, clubs, or committees.

6. Quotes and Testimonials:

- Personal Quotes: Quotes from the nominee about their work, philosophy, or vision for the community.

- Testimonials: Short testimonials from colleagues, community members, or other notable individuals about the nominee's impact.

7. Contact Information:

- Public Contact Info: If appropriate, include contact information such as an email address or social media handles for further engagement.

8. Additional Information:

- Hobbies and Interests: Personal interests or hobbies that give a more rounded view of the nominee.

- Future Goals: Any future projects or goals the nominee is working towards.

Here's a sample profile layout:

Name: Dr. Jane Doe

Photo: [Jane Doe] (link-to-photo)

- MD, Harvard Medical School
- MPH, Johns Hopkins University

Personal Story:

Dr. Jane Doe grew up in Joun and has always been passionate about improving healthcare in her hometown. Despite numerous challenges, she pursued her education and returned to Joun to make a difference.

Community Involvement:

- Volunteer at the Joun Free Clinic.
- Member of the Joun Health Advisory Board.

Quotes:

"I believe that healthcare is a fundamental right, and I am committed to ensuring that everyone in Joun has access to quality medical services."

Testimonials:

"Dr. Doe's dedication to our community is unparalleled. Her initiatives have saved countless lives." - John Smith, Mayor of Joun

Contact Information:

- Email: janedoe@example.com
- LinkedIn: [linkedin.com/in/janedoe](https://www.linkedin.com/in/janedoe)

Hobbies and Interests:

- Gardening
- Reading historical novels

Future Goals:

- Expand the Joun Community Health Initiative to neighboring towns.

7- Formatting Joun "Who's Who" directory

Formatting our "Who's Who" directory effectively will make it more engaging and easier to navigate. Here are some formatting options to consider:

Print Format

1. Book Layout:

- Cover Page: Include the title, a subtitle, and an image representing Joun.
- Table of Contents: List all the sections and profiles for easy navigation.
- Sections: Divide the directory into sections based on categories (e.g., professionals, community leaders, religious figures).
- Profile Pages: Each profile should have a consistent layout with headings, subheadings, and images.
- Index: An alphabetical index of all the individuals included.

2. Magazine Style:

- Feature Articles: Include in-depth articles on some of the most notable individuals.
- Interviews: Add interview sections with quotes and personal stories.
- Visuals: Use high-quality images, infographics, and sidebars for additional information.

Digital Format

1. Website:

- Homepage: A welcoming page with an introduction to the directory and a search function.
- Navigation Menu: Easy-to-use menu to navigate between different sections and profiles.
- Profile Pages: Interactive profiles with expandable sections for more details.

- Search and Filter: Advanced search and filter options to find individuals by name, category, or contribution.

- Multimedia: Incorporate videos, audio clips, and photo galleries.

2. PDF/E-book:

- Interactive Table of Contents: Clickable links to different sections and profiles.

- Hyperlinks: Links to external websites, social media profiles, or additional resources.

- Embedded Media: Include embedded videos or audio clips within the profiles.

- Annotations: Allow readers to add their own notes or bookmarks.

Hybrid Format

1. Print and Digital Combination:

- QR Codes: Include QR codes in the print version that link to the digital profiles or additional content.

- Augmented Reality: Use AR to bring profiles to life with videos or interactive elements when viewed through a smartphone app.

Design Elements

1. Typography:

- Use a clean, readable font for the main text.

- Differentiate headings and subheadings with bold or larger fonts.

2. Color Scheme:

- Choose a color scheme that reflects the identity of Joun.

- Use consistent colors for headings, backgrounds, and highlights.

3. Images and Graphics:

- High-quality images of the nominees.

- Infographics to represent data or achievements visually.

4. Layout:

- Consistent layout for each profile.
- Use columns, grids, and whitespace effectively to make the content easy to read.

Accessibility

1. Print:

- Ensure the text size is readable.
- Use high-contrast colors for better visibility.

2. Digital:

- Make the website mobile-friendly.
- Include alt text for images and transcripts for videos.

8- Selection criteria

Selecting individuals for a "Who's Who" directory typically involves several key criteria:

- 1. Achievements and Contributions:** Individuals are often chosen based on their significant achievements and contributions in their respective fields. This could include professional accomplishments, community service, or notable projects.
- 2. Leadership and Influence:** Those who hold leadership positions or have a substantial influence within their community or industry are prime candidates. This includes business leaders, community organizers, and thought leaders.
- 3. Recognition and Awards:** Individuals who have received awards, honors, or other forms of recognition for their work are often included. This serves as an external validation of their impact and success.
- 4. Expertise and Experience:** A high level of expertise and extensive experience in a particular field can be a deciding factor. This ensures that the directory features individuals who are well-respected and knowledgeable.
- 5. Public Profile:** Those with a strong public profile, whether through media presence, publications, or public speaking engagements, are often considered. This helps ensure that the directory includes well-known and influential figures.
- 6. Community Impact:** Contributions to the local community, such as involvement in local initiatives, charities, or cultural activities, are important. This highlights individuals who are making a difference at the grassroots level.
- 7. Diversity and Representation:** Ensuring a diverse and representative selection of individuals from various backgrounds, professions, and demographics is crucial. This provides a comprehensive view of the community's talent and achievements.
- 8. Historical and Cultural Significance:** Including individuals who have played a significant role in the historical and cultural development of the community adds depth and context to the directory.

9- Welcome to Joun's "Who's Who" Directory!

A "Who's Who" directory is a reference publication that contains concise biographical information about prominent individuals in a particular field, country, or community.

These directories aim to profile notable people who have made significant contributions to society, providing details such as their career achievements, education, awards, and other relevant personal information. (Source: Wikipedia)

We are delighted to present this comprehensive guide to the remarkable individuals who make our town a vibrant and thriving community. This directory is designed to celebrate the diverse talents, contributions, and stories of our residents, from local leaders and business owners to artists, educators, and volunteers.

In these pages, you will find profiles of people who have shaped our town's character and continue to drive its progress. Whether you are a long-time resident or a newcomer, we hope this directory will help you connect with your neighbors, discover new opportunities, and feel a deeper sense of belonging in our community.

Notable Historical Figures

Our town has a rich history, and many individuals have left an indelible mark on our community. In this section, we honor those who have significantly contributed to our town's heritage and development. From pioneering entrepreneurs and influential politicians to renowned artists and scholars, these historical figures have helped shape the identity and legacy of Joun.

Early Emigrants

The story of Joun would not be complete without acknowledging the early emigrants who laid the foundation of our community. These brave individuals and families left their homelands in search of new opportunities and played a crucial role in the town's development. Their resilience, hard work, and cultural contributions have enriched our town's heritage and continue to inspire future generations.

Young Achievers

We are also proud to highlight the accomplishments of our town's young achievers. These talented and ambitious individuals are making significant strides in various fields, including academics, sports, arts, and community service. Their dedication and innovation are a testament to the bright future of Joun. In this section, you will find inspiring stories of young residents who are already making a difference and setting an example for future generations.

Local Artists and Musicians

Our town is home to a vibrant arts scene, enriched by the creativity and passion of local artists and musicians. This section showcases the diverse talents of painters, sculptors, photographers, singers, instrumentalists, and bands who contribute to our cultural landscape. Their work not only entertains and inspires but also brings our community together through shared experiences and artistic expression.

PhD Holders and Medical Doctors

We are fortunate to have a number of highly educated and skilled professionals in our community. This section is dedicated to the PhD holders and medical doctors, Nursing Professionals, Pharmacists, and dentists who contribute to the intellectual and physical well-being of our town. Their expertise in various fields, from scientific research to healthcare, plays a crucial role in advancing knowledge and improving the quality of life for all residents.

Judges and Lawyers

Our town's legal professionals play a vital role in upholding justice and ensuring the rule of law. This section highlights the distinguished judges and lawyers who have made significant contributions to our legal system and community. Their dedication to fairness, integrity, and public service is an inspiration to us all.

Mayors and Municipal Council Members

Leadership at the municipal level is essential for the growth and development of our town. In this section, we recognize the mayors and municipal council members who

have worked tirelessly to improve our community. Their vision, commitment, and efforts in governance have helped shape [Joun] into the thriving place it is today.

Media Professionals and Journalists

Our town is proud to be home to talented media professionals and journalists who keep us informed and connected. This section honors those who work in print, broadcast, and digital media, providing valuable news coverage, insightful commentary, and engaging stories. Their dedication to truth and transparency plays a crucial role in fostering an informed and engaged community.

Business Owners and Executives

The entrepreneurial spirit and leadership of our business owners and executives are vital to the economic health and growth of our town. This section celebrates the innovative and hardworking individuals who run local businesses, lead corporations, and drive economic development. Their contributions create jobs, support local initiatives, and enhance the quality of life for all residents.

Philanthropists

Generosity and community spirit are hallmarks of Joun. In this section, we honor the philanthropists whose charitable efforts and donations have made a significant impact on our town. Their commitment to giving back and supporting various causes helps build a stronger, more compassionate community.

Engineers

Engineers are the backbone of our town's infrastructure and technological advancements. This section is dedicated to the engineers who design, build, and maintain the systems and structures that keep our community running smoothly. Their expertise in fields such as civil, mechanical, electrical, and software engineering plays a crucial role in our town's development and innovation.

Public Sector Officials and Executives

Public sector officials and executives play a critical role in the administration and governance of our town. This section recognizes the dedicated individuals who work in various government departments and agencies, ensuring the efficient delivery of public services and the implementation of policies that benefit our community. Their commitment to public service and leadership helps maintain the well-being and progress of Joun.

Singers, Composers, and Musicians

Our town is enriched by the talents of singers, composers, and musicians who bring joy and inspiration through their music. This section celebrates the individuals who create and perform music, contributing to our cultural vibrancy and community spirit. Their artistic expressions resonate with audiences and foster a shared sense of identity and pride.

Actors and Performers

The performing arts are a vital part of our town's cultural landscape. This section honors the actors and performers who captivate audiences with their talent and dedication. Whether on stage or screen, their performances bring stories to life and provide entertainment and reflection for our community.

Authors

Our town is home to many gifted authors whose writings enlighten, entertain, and provoke thought. This section highlights the literary contributions of novelists, poets, essayists, and other writers who enrich our cultural heritage with their words. Their works inspire readers and contribute to the intellectual and creative fabric of our community.

Painters and Visual Artists

Visual art is a powerful medium for expression and connection. This section showcases the painters and visual artists whose creativity and vision add beauty and meaning to our town. Their artworks, whether displayed in galleries or public spaces, inspire and engage residents and visitors alike.

Photographers

Photographers capture the essence of our town through their lenses, preserving moments and telling stories with their images. This section honors the photographers who document our community's life, landscapes, and events. Their work provides a visual record of our town's history and everyday experiences.

Community Volunteers

Community volunteers are the heart and soul of our town, dedicating their time and energy to make a positive impact. This section celebrates the selfless individuals who contribute to various causes, from organizing local events to supporting charitable organizations. Their efforts strengthen our community and foster a spirit of cooperation and kindness.

Startup Entrepreneurs

Innovation and entrepreneurship are driving forces in our town's growth. This section highlights the startup entrepreneurs who are launching new ventures and bringing fresh ideas to the market. Their creativity, determination, and risk-taking contribute to the economic vitality and dynamism of Joun.

Special Category: Religious Personalities from Joun

Religious leaders and personalities play a significant role in the spiritual and moral fabric of our town. This section honors the clergy, Imams, spiritual guides, and religious scholars who provide guidance and support for the community.

Highlighting the contributions of clergy, spiritual guides, and religious scholars can greatly enhance community spirit and provide inspiration to many.

To make this section comprehensive, it should ideally include:

1. **Biographies:** Brief biographies of each personality, detailing their background, education, and journey in their religious roles.
2. **Contributions:** Specific contributions they have made to the community, such as charitable work, educational initiatives, or spiritual guidance.

4. Photographs: Including photographs can make the section more personal and relatable.

مرحبًا بكم في دليل "من هو" الخاص بجون

هو منشور مرجعي يحتوي على معلومات موجزة عن السيرة الذاتية للأفراد البارزين في مجال أو "Who's Who" دليل بلد أو مجتمع معين.

تهدف هذه الأدلة إلى تقديم لمحة عن الأشخاص البارزين الذين قدموا إسهامات كبيرة للمجتمع، مع تقديم تفاصيل مثل إنجازاتهم المهنية وتعليمهم وجوائزهم وغيرها من المعلومات الشخصية ذات الصلة. (المصدر: ويكيبيديا)

يسعدنا أن نقدم هذا الدليل الشامل للأفراد البارزين الذين يجعلون من بلدتنا مجتمعًا حيويًا ومزدهرًا. صُمم هذا الدليل للاحتفاء بالمواهب والمساهمات والقصص المتنوعة لسكاننا، من القادة المحليين وأصحاب الأعمال إلى الفنانين والمعلمين والمتطوعين.

ستجد في هذه الصفحات لمحات عن الأشخاص الذين ساهموا في تشكيل شخصية بلدتنا ويواصلون دفع عجلة تقدمها. وسواء كنت مقبلاً منذ فترة طويلة أو وافداً جديداً، نأمل أن يساعدك هذا الدليل على التواصل مع جيرانك واكتشاف فرص جديدة والشعور بالانتماء إلى مجتمعنا.

شخصيات تاريخية بارزة

تتمتع بلدتنا بتاريخ عريق، وقد ترك العديد من الأفراد بصمة لا تُمحى في مجتمعنا. في هذا القسم، نكرم في هذا القسم أولئك الذين ساهموا بشكل كبير في تراث بلدتنا وتطورها. من رواد الأعمال الرواد والسياسيين المؤثرين إلى الفنانين والعلماء المشهورين، ساعدت هذه الشخصيات التاريخية في تشكيل هوية وإرث جون.

المهاجرون الأوائل

لن تكتمل قصة جون دون الاعتراف بالمهاجرين الأوائل الذين أسسوا مجتمعنا. فقد غادر هؤلاء الأفراد والعائلات الشجعان أوطانهم بحثاً عن فرص جديدة ولعبوا دوراً حاسماً في تنمية بلدتنا. لقد أثرى صمودهم وعملهم الدؤوب ومساهماتهم الثقافية تراث بلدتنا ولا يزالون مصدر إلهام للأجيال القادمة.

المنجزون الشباب

نحن فخورون أيضاً بتسليط الضوء على إنجازات شباب بلدتنا من أصحاب الإنجازات. فهؤلاء الأفراد الموهوبون والطموحون يخطون خطوات كبيرة في مختلف المجالات، بما في ذلك المجال الأكاديمي والرياضة والفنون وخدمة المجتمع. إن تفانيهم وابتكاراتهم هي شهادة على المستقبل المشرق لجون. ستجد في هذا القسم قصصاً ملهمة لشباب من سكان بلدتنا الذين يصنعون بالفعل فرقاً ويشكلون قدوة للأجيال القادمة.

الفنانون والموسيقيون المحليون

تعد بلدتنا موطناً لمشهد فني نابض بالحياة يثريه إبداع وشغف الفنانين والموسيقيين المحليين. يعرض هذا القسم المواهب المتنوعة للرسمين والنحاتين والمصورين والمغنين والعازفين والفرق الموسيقية الذين يساهمون في المشهد الثقافي في مدينتنا. لا تقتصر أعمالهم على الترفيه والإلهام فحسب، بل تجمع مجتمعنا معاً من خلال التجارب المشتركة والتعبير الفني.

حملة الدكتوراه والأطباء

نحن محظوظون بوجود عدد من المهنيين ذوي التعليم العالي والمهارات العالية في مجتمعنا. هذا القسم مخصص لحاملي شهادة الدكتوراه والأطباء وأخصائيي التمريض والصيدلة وأطباء الأسنان الذين يساهمون في الرفاهية الفكرية والجسدية في بلدتنا. وتلعب خبراتهم في مختلف المجالات، من البحث العلمي إلى الرعاية الصحية، دوراً حاسماً في تطوير المعرفة وتحسين جودة الحياة لجميع السكان.

القضاة والمحامون

يؤدي المهنيون القانونيون في بلدتنا دوراً حيوياً في دعم العدالة وضمان سيادة القانون. يسلط هذا القسم الضوء على القضاة والمحامين المتميزين الذين قدموا إسهامات كبيرة لنظامنا القانوني ومجتمعنا. إن تفانيهم في الالتزام بالعدالة والنزاهة والخدمة العامة مصدر إلهام لنا جميعاً.

رؤساء البلديات وأعضاء المجالس البلدية

القيادة على مستوى البلديات ضرورية لنمو بلدتنا وتطورها. في هذا القسم، نكرم في هذا القسم رؤساء البلديات وأعضاء المجالس البلدية الذين عملوا بلا كلل لتحسين مجتمعنا. لقد ساعدت رؤيتهم والتزامهم وجهودهم في الحوكمة في تشكيل جون لتصبح المكان المزدهر الذي هي عليه اليوم.

الإعلاميون والصحفيون

تفتخر بلدتنا بأنها موطن للإعلاميين والصحفيين الموهوبين الذين يبقوننا على اطلاع دائم وتواصل دائم. يكرم هذا القسم أولئك الذين يعملون في وسائل الإعلام المطبوعة والإذاعية والرقمية ويقدمون تغطية إخبارية قيمة وتعليقات ثاقبة وقصصاً جذابة. إن تفانيهم في التزامهم بالحقيقة والشفافية يلعب دوراً حاسماً في تعزيز مجتمع مستنير ومتفاعل.

أصحاب الأعمال والمدراء التنفيذيون

تُعد روح المبادرة والقيادة التي يتحلى بها أصحاب الأعمال والمديرين التنفيذيين في مدينتنا أمراً حيوياً للصحة الاقتصادية والنمو في بلدتنا. يحتفي هذا القسم بالأفراد المبتكرين والمجتهدين الذين يديرون الأعمال التجارية المحلية والشركات الرائدة. ودفع عجلة التنمية الاقتصادية. تخلق مساهماتهم فرص عمل وتدعم المبادرات المحلية وتعزز جودة الحياة لجميع السكان.

المحسنون

الكرم وروح المجتمع من السمات المميزة لجون. في هذا القسم، نكرم في هذا القسم المحسنين الذين كان لجهودهم وتبرعاتهم الخيرية أثر كبير على بلدتنا. إن التزامهم بالعطاء ودعم مختلف القضايا يساعد في بناء مجتمع أقوى وأكثر تعاطفاً.

المهندسون

المهندسون هم العمود الفقري للبنية التحتية والتقدم التكنولوجي في بلدتنا. هذا القسم مخصص للمهندسين الذين يقومون بتصميم وبناء وصيانة الأنظمة والهياكل التي تحافظ على سير مجتمعنا بسلاسة. وتلعب خبراتهم في مجالات مثل الهندسة المدنية والميكانيكية والكهربائية وهندسة البرمجيات دوراً حاسماً في تطوير بلدتنا وابتكاراتها.

المسؤولون والتنفيذيون في القطاع العام

يلعب مسؤولو القطاع العام والمديرون التنفيذيون دوراً حاسماً في إدارة بلدتنا وحوكمتها. يكرم هذا القسم الأفراد المتفانين الذين يعملون في مختلف الإدارات والوكالات الحكومية لضمان تقديم الخدمات العامة بكفاءة وتنفيذ السياسات التي تعود بالنفع على مجتمعنا. ويساعد التزامهم بالخدمة العامة والقيادة في الحفاظ على رفاهية وتقديم جون.

المطربون والملحنون والموسيقيون

تغنتي بلدتنا بمواهب المطربين والملحنين والموسيقيين الذين يجلبون البهجة والإلهام من خلال موسيقاهم. يحتفي هذا القسم بالأفراد الذين يبدعون ويؤدون الموسيقى، ويساهمون في حيويتنا الثقافية وروح المجتمع. إن تعبيراتهم الفنية تلقى صدى لدى الجماهير وتعزز الشعور المشترك بالهوية والفخر.

الممثلون والمؤدون

تعد الفنون الأدائية جزءاً حيوياً من المشهد الثقافي لبلدتنا. يكرم هذا القسم الممثلين وفناني الأداء الذين يأسرون الجماهير بموهبتهم وتفانيهم. وسواء على خشبة المسرح أو على الشاشة، فإن عروضهم تبعث الحياة في القاصص وتوفر الترفيه والتأمل لمجتمعنا.

المؤلفون

تعد جون موطناً للعديد من المؤلفين الموهوبين الذين تنير كتاباتهم وتسلي وتثير الفكر. يسلط هذا القسم الضوء على الإسهامات الأدبية للروائيين والشعراء وكتاب المقالات وغيرهم من الكتاب الذين يثرون تراثنا الثقافي بكلماتهم. تلهم أعمالهم القراء وتساهم في النسيج الفكري والإبداعي لمجتمعنا.

الرسامون والفنانون التشكيليون

الفن التشكيلي وسيلة قوية للتعبير والتواصل. يعرض هذا القسم أعمال الرسامين والفنانين التشكيليين الذين يضيفون بإبداعهم ورؤيتهم جمالاً ومعنى لجون. وتلهم أعمالهم الفنية، سواء كانت معروضة في صالات العرض أو في الأماكن العامة، السكان والزوار على حد سواء.

المصورون

يلتقط المصورون الفوتوغرافيون جوهر بلدتنا من خلال عدساتهم، ويحفظون اللحظات ويروون القصص من خلال صورهم. يكرم هذا القسم المصورين الذين يوثقون حياة مجتمعنا ومناظره الطبيعية وأحداثه. وتوفر أعمالهم سجلاً مرئياً لتاريخ جون وتجاربنا اليومية.

متطوعو المجتمع

متطوعو المجتمع هم قلب بلدتنا وروحها، حيث يكرسون وقتهم وطاقاتهم لإحداث تأثير إيجابي. يحتفي هذا القسم بالأفراد غير الأنانيين الذين يساهمون في مختلف القضايا، من تنظيم الفعاليات المحلية إلى دعم المنظمات الخيرية. فجهودهم تقوي مجتمعنا وتعزز روح التعاون والعطف.

رواد الأعمال الناشئة

الابتكار وريادة الأعمال هما القوتان الدافعتان لنمو بلدتنا. يسلم هذا القسم الضوء على رواد الأعمال المبتدئين الذين يطلقون مشاريع جديدة ويقدمون أفكاراً جديدة للسوق. ويساهم إبداعهم وتصميمهم وإقدامهم على المخاطرة في تعزيز الحيوية والديناميكية الاقتصادية في جون.

فئة خاصة: شخصيات دينية من بلدتنا

يلعب الزعماء والشخصيات الدينية دوراً هاماً في النسيج الروحي والأخلاقي لبلدتنا. يكرم هذا القسم رجال الدين والأئمة والمرشدين الروحيين وعلماء الدين الذين يقدمون التوجيه والدعم للمجتمع من شأن تسليط الضوء على مساهمات رجال الدين والمرشدين الروحيين وعلماء الدين أن يعزز روح المجتمع ويوفر الإلهام للكثيرين.

:لجعل هذا القسم شاملاً، ينبغي أن يتضمن بشكل مثالي ما يلي:

1. **السير الذاتية:** سير ذاتية موجزة عن كل شخصية، مع تفصيل خلفيتها وتعليمها ومسيرتها في أدوارها الدينية.
2. **المساهمات:** المساهمات المحددة التي قدموها للمجتمع، مثل العمل الخيري أو المبادرات التعليمية أو الإرشاد الروحي.
3. **الصور الفوتوغرافية:** يمكن أن يؤدي تضمين الصور الفوتوغرافية إلى جعل القسم أكثر خصوصية وارتباطاً.
4. **التطلع إلى مساهماتكم ومشاركاتكم للاحتفاء بالأشخاص الرائعين الذين يجعلون من جون مكاناً رائعاً للعيش فيه.**

10- Why are Startups important for Joun?

Encouraging startups in a town can have numerous benefits, fostering economic growth and community development. Here are some key reasons why it's important:

- 1. Economic Growth:** Startups drive economic growth by creating new jobs and attracting investment. They often bring innovative products and services to the market, which can stimulate local economies³.
- 2. Job Creation:** Startups are significant job creators. They provide employment opportunities for local residents, which can reduce unemployment rates and improve the overall standard of living⁵.
- 3. Innovation:** Startups are typically at the forefront of innovation. They introduce new technologies and business models, which can lead to increased productivity and competitiveness in the local economy³.
- 4. Community Revitalization:** Startups can breathe new life into communities by revitalizing vacant spaces and attracting foot traffic to local businesses. This can lead to the development of vibrant, dynamic neighborhoods⁴.
- 5. Attracting Talent:** A thriving startup ecosystem can attract skilled professionals and entrepreneurs to the area. This influx of talent can further drive innovation and economic growth³.
- 6. Diverse Economy:** Encouraging startups helps diversify the local economy, making it more resilient to economic downturns. A diverse economy is less dependent on a single industry and can better withstand economic shocks².
- 7. Cultural Enrichment:** Startups often contribute to the cultural and social fabric of a community. They can introduce new ideas, foster creativity, and create a sense of community among residents³.
- 8. Sustainability:** Many startups focus on sustainable practices and social responsibility. Supporting these businesses can lead to more environmentally friendly and socially conscious economic development¹.

How to encourage startups

1. Create a Supportive Ecosystem:

- Mentorship Programs: Connect aspiring entrepreneurs with experienced mentors who can provide guidance and support.
- Networking Events: Host regular events where entrepreneurs can meet, share ideas, and collaborate¹.

2. Access to Funding:

- Local Investment Funds: Establish local funds or angel investor networks to provide seed funding for startups.
- Grants and Competitions: Offer grants or organize startup competitions with cash prizes to encourage innovation².

3. Infrastructure and Resources:

- Co-working Spaces: Develop affordable co-working spaces where startups can work and collaborate.
- Incubators and Accelerators: Set up programs that provide startups with resources, mentorship, and funding to accelerate their growth¹.

4. Education and Training:

- Workshops and Seminars: Offer training sessions on essential business skills such as marketing, finance, and technology.
- Partnerships with Universities: Collaborate with local educational institutions to provide entrepreneurship courses and research opportunities¹.

5. Community Engagement:

- Public Events: Organize events like hackathons, pitch nights, and innovation fairs to engage the community and showcase local startups.
- Local Media: Promote startups through local media channels to raise awareness and support².

6. Policy and Regulation:

- Business-Friendly Policies: Advocate for policies that reduce bureaucratic hurdles and make it easier to start and run a business.
- Tax Incentives: Offer tax breaks or incentives for startups to encourage investment and growth¹.

7. Collaboration and Partnerships:

- Industry Partnerships: Foster partnerships between startups and established businesses to create opportunities for collaboration and growth.
- Government Support: Work with local government to provide support and resources for startups².

8. Focus on Sustainability:

- Green Initiatives: Encourage startups that focus on sustainability and environmental responsibility.

- Social Impact: Support startups that aim to address social issues and contribute to the community¹.

Implementing these strategies can help create a vibrant startup ecosystem in our town, fostering innovation, economic growth, and community development.

11- What are some examples of notable Startups in Lebanon?

1. Kitopi: A tech-powered food company co-founded by Lebanese CEO Mohamad Ballout. It operates cloud kitchens across the Middle East and has raised significant funding³.

2. Quipup: An on-demand delivery platform led by Bassel El Koussa. It connects restaurants, retailers, and e-commerce businesses with couriers³.

3. Sarwa: An online investment and personal finance platform founded by Mark Chawan, Nadine Mezher, and Jad Sayegh. It provides access to investment professionals and has a growing user base³.

4. Toters: A quick commerce delivery platform co-founded by Nael Halwani and Tamim Khalfa. It connects customers with retailers for fast deliveries³.

5. L'Atelier du Miel: A boutique brand dedicated to the production and sale of natural honey and honey products, founded by Marc-Antoine and Ralph Bou Nassif, and Rabih Trabolsi¹.

6. Zoomaal: A leading crowdfunding platform in the Middle East, founded by Abdallah Absi. It has funded numerous creative and innovative projects¹.

7. NAR: A startup focused on integrating drones in various industries, particularly for detecting gas and oil leaks¹.

8. Kamkalima: A platform creating digital Arabic content for K-12 children, founded by Siroun Shamigian and Nisrine Makkouk¹.

9. Moodfit: An online interior design platform founded by Ghassan Abi Fadel, Tarek el Jaroudi, and Mohamad Sabouneh¹.

PART TWO

LISTING BY CATEGORY

LISTED IN ALPHABETICAL ORDER

The Categories: Twenty Seven Categories

- 1- ACTORS الممثلين
- 2- AUTHORS, POETS الكتاب والشعراء
- 3- BUSNISS (Owners/Executives) رجال أعمال ومدراء وتنفيذيين
- 4- DENTISTS طباء الأسنان
- 5- EDUCATORS تربويون معلمون الأساتذة
- 6- EMIGRANTS لمهاجرون الاوائل
- 7- ENGINEERS المهندسون
- 8- JUDGES قضاء
- 9- LAWYERS محامون
- 10- MAYORS رؤساء بلدية
- 11- MEDIA PROFESSIONALS (Journalism, TV, Radio, Other) إعلاميون صحفيون
- 12- MEDICAL DOCTORS أطباء
- 13- MILITARY عسكريون
- 14- MUNICIPAL COUNCIL MEMBERS أعضاء مجالس بلدية
- 15- MUKHTARS مختاتير
- 16- NURSING تمريض
- 17- PAINTERS الرسامون
- 18- PHARMACISTS صيادلة

- FOUAD Y. KHORIATY
- SAMI AL KHOURY
- MITRI L. LTAIF
- YOUSSEF G. MAROUN

15- MUNICIPALITY COUNCIL MEMBERS

HISTORICAL NOTE: PAST MUNICIPALITY COUNCIL MEMBERS

Early Town Commission members:

- Greek Catholic: Gorges Chami, Mitri Msawbaa, Assaad Khoriaty, Mikhail Nabaa, Youssef Gibran Khoury.
- Shiite: Hossein Chamseddine, Hossein Saleh.
- Maronite: Ibrahim Youness, Youssef Estphan
- Protestant: Youssef Koussa

Their tasks were to take care of the land of Joun and regulate the environment and day-to-day work, such as agricultural life and water and also to supervise the local security.

In 1898, the commission had its own logo, and each member had his own stamp. And the members used it to sign official statements.

In 1903, the Ottoman Empire put a law that required electing the municipality members instead of recruiting them; And since then, Joun had its elected officials who took care of local matters as well as supervised the relationship with the national authority.

EMILE NABAA, Lawyer, Université Saint Joseph, Former President of the Municipal Council of Joun

Experience

Blackhawk Partners, Inc.
 President & CEO
 April 2010 - Present (14 years 6 months)
 New York, New York, United States

Blackhawk Partners, Inc. is a private "family office" in the business of originating, structuring & acting as equity investor in strategic corporate investments worldwide. The Firm works aggressively – through various holding company structures – with experienced operators seeking to partner with it for traditional buyouts, recapitalizations and growth and acquisition capital financing.

Blackhawk Partners provides funding for tougher transactions that fail to qualify for the traditional bank financing. Depending on each specific business' need, the Firm has solutions that work with rates and terms that make sense for any business looking for scalable financing.

Funding is available for: Large Construction Projects, Corporate Expansion Loans, Large Alternative Energy Projects, Real Estate Development Projects and for large developments in: Agro-industry, Water Production, Ports and Airports, Fossil Fuels, Energy Projects (such as wind, solar, hydro), Mining, Telecommunications, Hotels, Office Complex, Large Real Estate Projects and much more.

Financial Policy Council

Founder & Chairman

March 2009 - Present (15 years 7 months)

New York, New York, United States

The mission of the Financial Policy Council Inc. ("FPC") is to formulate and promote sound public policy based on the principles of free enterprise and wealth creation as envisioned by the ideals of the American Founding Fathers.

The Council is a public policy-oriented organization which seeks to educate and inform the public about economic and fiscal matters. Its goal is to ensure that America retains an economic and regulatory system conducive to economic growth and wealth creation, and is not derailed by poorly formulated and reactive economic, fiscal and tax policy.

TerraNova Capital Partners

5- CAMILLE SAMIR ABOUFADEL

Engineer: Civil Engineer, Business Executive

Caltrans HQ Maintenance Office of Traffic Guidance and Safety, Caltrans, San Diego, California, United States

https://www.linkedin.com/in/camille-aboufadel-b517a861?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

Camille AbouFadel

Profession: Senior Transportation Engineer

Biography:

Camille Aboufadel is a dedicated Senior Transportation Engineer at Caltrans, the California Department of Transportation. With a strong background in civil engineering and transportation planning, Aboufadel has contributed significantly to various infrastructure projects aimed at improving transportation systems in California.

Career Highlights:

- Caltrans: As a Senior Transportation Engineer, Aboufadel has been involved in numerous projects that enhance the safety and efficiency of California's transportation network. His expertise in traffic control and infrastructure development has been instrumental in the successful implementation of several key initiatives³.

Awards and Recognitions:

While specific awards and recognitions for Aboufadel are not publicly documented, his role at Caltrans underscores his commitment to public service and infrastructure

development.

Philanthropic Efforts:

Details about AbouFadel's philanthropic efforts are not readily available. However, his work in public transportation engineering reflects a dedication to improving community infrastructure and public safety.

Legacy:

Camille AbouFadel's contributions to transportation engineering have had a lasting impact on California's infrastructure. His work continues to support the development of safer and more efficient transportation systems.

Personal Life:

Information about AbouFadel's personal life, including his early years and family, is not widely documented. His professional achievements, however, highlight his dedication and expertise in the field of transportation engineering.

Branch Chief, Traffic Design

2006 - June 2017 (11 years)

Greater San Diego Area

TRAFFIC DESIGN, BRANCH CHIEF (DIVISION OF ENGINEERING)

* Provide guidance and knowledge on all phases of transportation engineering, including transportation process and methods, system planning, evaluation of alternatives and designs, project management concepts, factors which influence the impact of transportation facilities, the community and the

Page 1 of 4

economy, and principles and techniques of personnel management and supervision.

- * Provide direct professional support on the most difficult technical issues to Project and Design Managers, Environmental Branch Chiefs, and district management on issues related to transportation engineering and how best to address conflicts within the framework of the Department's mission, vision and goals.

- * Develop and administer task orders for On-Call transportation engineering consultant services.

- * Track consultant delivery, review invoices and task order for compliance.

District Traffic Manager, Traffic Operations

1998 - 2006 (8 years)

- * Reviewed and approved all Traffic Management Plans and specifications for implementations by Local Agencies, Design, Construction, Maintenance and Permit Offices.

- * Reviewed weekly road construction plans and determined the individual and cumulative impact and, as necessary, approved modifications to planned schedules.

- * Provided leadership and direction and guided the staff towards the successful completion of assignments related to the project.

- * Coordinated delivery of individual projects with the Project Manager and Project Development Team to ensure successful program delivery and to meet program fund targets.

- * Provided day to day analysis and monitored the progress of various projects, programs and support activities.

- * Planned, organized and directed the work of others, analyzed situations accurately and developed an effective course of action.

Associate Engineer - Traffic Special Studies (Traffic Operations Division)

1993 - 1998 (5 years)

- * Performed traffic engineering studies using transportation facility design principles and the dynamics of moving vehicles, methods, materials, tools, and equipment used in construction and maintenance of transportation facilities.

- * Reviewed designs, plans and specifications of projects; analyzed situations and prepared reports and correspondence.

- * Analyzed roadway capacities and factors affecting capacity using different methods of evaluating delay and effects of delay on movement of motorists and goods.

Permit Supervisor (Maintenance Division)

1990 - 1993 (3 years)

San Francisco Bay Area

- * Responsible for overseeing statewide policy and procedure of encroachment permit activities within the state highway system.
- * Reviewed and issued permits for use of the right of way for non-vehicular activities such as highway improvement construction, utility work, commercial filming, and special events.

Civil Construction Corporation

Operations Manager

1985 - 1990 (5 years)

Monrovia, Liberia

- * Organized the strategic planning for Design-Build Road Projects.
- * Created measurements to determine if the strategic plan is met during all phases of construction.
- * Developed project schedules from conception to completion, including development of project estimates.
- * Responsible for successful completion of project including, safety, purchasing, scheduling, financial reporting, quality and document control.
- * Supervised operations, engaged in the bidding process, and interfaced with clients and various industry associates.
- * In cooperation with Executive Team, reviewed, assessed and initiated action to maintain project completion schedule, tracked budget, and contracted changes.

Bechtel Power Corporation

5 years

Structural Field Engineer

1983 - 1985 (2 years)

PROJECT: DIABLO CANYON NUCLEAR POWER PLANT

- * Worked as a field structural steel engineer implementing structural modifications between the plant and the San Francisco Home office.
- * Prepared modification packages, provided construction support, and interfaced with the client as necessary.
- * Observed and ensured construction practices as required for compliance of construction operations/execution with federal, state, and local codes, industry standards, company procedures, and contractual requirements.

* Gathered all approved required documents and information to support the successful completion of relevant construction activities.

* Achieved successful completion of assigned projects, on time and within budget.

Structural Design Engineer

1980 - 1983 (3 years)

PROJECT: SUSQUEHANNA NUCLEAR POWER PLANT (PENNSYLVANIA)

* Designed power plant steel structures for seismic reliability and coordinated all design work with the Pennsylvania field office.

* Work involved design modification of power plant structures; preparation of engineering change packages.

* Prepared proposals, meetings with clients, coordinated work with other disciplines, prepared and monitored schedules, budgets and staffing plans.

* Dealt with all the nuclear industry structural issues/requirements and the Nuclear Regulatory Commission (NRC) standards, guidelines and regulations.

حسن علاء الدين المعروف بشوشو

إعداد: جوزف أبي ضاهر

المقدمة: عرف المسرح الكوميدي بلبنان عدد من الفنانين اللامعين اللّي شاركو بخلق نهضة مسرحيه مميزه. ولكن الاسم البقي بأذهان كل الناس، وكان حضوره مختلف، بالحركه والصوت والغناء هوي الفنان حسن علاء الدين، أو شوشو اللقب اللّي خطف وهج الاسم الحقيقي وصار رمز من الرموز الفنيه اللبنانيه.

بـ 26 شباط سنة 1939 ولد حسن علاء الدين وبعد 8 سنوات توفي ببو خضر.

- **شوشو صغيراً:** تعلّم حسن من الحياة أشياء كثيره، وربما أكثر ما بتقدر المدرسه تعلمو. كان شديد الطموح والعناد، ميّال لتقليد كل الأشخاص اليبشوفن بحياتو اليوميه.

حب أفلام الفكاهه وبالأخص أفلام شارلي شابلي ولوريل و هاردي، وتأثر بالكوميديا العربيه وأعجب ببشاره واكيم، واسماعيل يس.

- من صورته الأولى: موهبة حسن علاء الدين ظهرت بالحي اللبي عاش فيه... كان يجمع رفاقه وبأرض مهجوره حد البيت يقدمو اسكتشات تمثيلية مختلفه، ويطلب من الجمهور بدل الدخول لمشاهدة العرض.
- محمد شامل: مرّه دعي الفنان محمد شامل البيخبر بحديث صحافي بداية معرفتو بحسن علاء الدين بيقول: بعد غياب الفنان محمد مرعي دُعيت لحضور حفله... تمنّعت بالبدايه، ولكن بسبب الحاح زوجتي رحت وكانت الصاله عباره عن بستان كبير، والخشبه بدائيه مكوّنه من عدة حجاره ورقع قماش وستائر بسيطه.
- من أولى أعمال شوشو: بيضيف محمد شامل: لمّن وصلنا رحبو فينا الشباب، ووضعولنا كرسيين لأتو المقاعد كانت خشبيه، وضيّقونا مرطبات، وبعد دقائق بلّش العرض. شفت شبّ طلع على المسرح وهوي عم يرجف، وزقلو الجمهور كثير. سألت عتو قالو حسن علاء الدين. وباليوم الثاني زارني هالشّب وطلب منّي إتّي اشركو ببرامجي الفنيّه، وكان من الطبيعي إتّي أرفض بالبدايه لأنّي ما كنت عم خطط لأعمال مستقبلية. وبعد ملاحقه حسن لشامل، أرسلو إلى المخرج محمّد كريم الكان عم بيسجّل برنامج إذاعي. وبعد ما انتظر حسن مدّة 12 ساعه كامله استقبلو محمد كريم وأعطاه أول دور إذاعي وهوي عباره عن قرع الباب على الميكروفون.
- شوشو في التلفزيون: بعد ثلاث سنوات، وتحديداً بالستينات، بلّش التعاون بين حسن علاء الدين ومحمد شامل، ببرنامج تلفزيوني مخصّص للأطفال كتبو شامل وأعطى دور البطولة فيه لحسن بعد ما أطلق عليه لقب شوشو وغنّى أولى أغنياتو: حبّ اللولو سنيناتي - بنصفهن بدياتي - لونن أبيض مثل الثلج - شوفوهن يا رفاقتي.
- شوشو مع الأطفال: نجح شوشو بالتلفزيون، وقدر يكون صديق لكل الأطفال قدّمن عدد كبير من الأغاني. اختارو محمد شامل مرّه ثانيه لبطولة برنامج «يا مدير»، واستمر النجاح وكتبت معظم الصحف: إتو غالبية المشاهدين اللبنانيين بيتجمّعوا مساء كل سبت أمام الشاشه الزغيره لمشاهدة الممثل اللبي قدر يفوت على كل البيوت بعبارة «كيفك يا شخص؟».
- من مسلسلاته: إضافة الى برنامج «يا مدير» قدّم شوشو بالتلفزيون حلقات فكاهيه، ومسلسل «المشوار الطويل» الى جانب الممثل محمود الميليجي، «شارع العز».
- شوشو في السينما: من النجاح التلفزيوني انتقل الى السينما ودخل شوشو بأول مغامره كان عنوانا «شوشو والمليون» وأعطت هالمغامره نجاح غير متوقّع وكان الفيلم أوّل فيلم عربي بينعرض بإحدى صالات الحمرا.
- بعد هالفيلم مثل شوشو خمس أفلام هيبي: يا سلام ع الحب، مغامرات السعاده، سلام بعد الموت، زمان يا حب، وسيدتي الجميلة مع الممثلة نيللي.
- النقاد العرب اللبي شافو أفلام شوشو كتبو: «لو توفر لهالفنان امكانات سينمائية رفيعة المستوى، أو لو قدر يوصل الى عاصمة السينما لكان أشهر ممثل كوميدي بهالعصر».

ما انقطع شوشو خلال هالمرحله عن التعامل مع الفنان محمد شامل الى ان أحب بنتو فاطمه، وأمّام معارضه من الأب والأم خطفا وتزوجا، وترك التلفزيون ورجع يتابع عملو بالبنك كموظف إداري، إضافة

الى تقديم بعض الاسكتشات الهزليه بالملاهي الليليه، ويحصد النجاح من الناس والمتاعب من الأمن العام
الكان يستدعيه ويستجوبو بسبب انتقاداتو السياسيه والاجتماعيه.

في المسرح الوطني: ما اقتنع شوشو بحاله اللي انقضت عليه، اتطلع للأبعد، وبإحدى المرّات دخل على
مدير صالة دنيا وشهرزاد وطلب مئو يستأجر صالة شهرزاد مقابل ستين بالميه لصاحب الصاله وأربعين
بالميه لشوشو وتحويلا من سينما للأفلام الى مسرح وطني دائم.

وهيك صار وبلّش المسرح الوطني مع شوشو وصديقو الكاتب وجيه رضوان والمخرج نزار ميقاتي.

نزار ميقاتي: كان نزار ميقاتي ترك طرابلس بمنصف الخمسينات بعد ما مارس التعليم فتره إضافه الى
تقديمو مسرحيتين بمدرسة الفرير - طرابلس.

شوشو بك في صوفر: أوّل عمل اختارو ميقاتي لشوشو كان تعريب مسرحيه أجنبيه وصار عنوانا «شوشو
بك في صوفر» وتقرّر حفل الافتتاح ب 11 تشرين الأول سنة 1965 وكانت الفرقة مؤلفه إضافه الى
شوشو من عوني المصري، علي دياب، محسن سمراني، ابراهيم مرعشلي، سمير شمس، ناديا حمدي،
جيزال نصر، عادل سابا، وزياذ مكوك.

شخصيات تهنيء شوشو: بعد تقديم العمل الأول انتظر الشاعر جورج شحاده خروج شوشو من وراء
الكواليس تيهنيءه ويقولو: «انت ممثل كوميدي عالمي»، وعرض عليه ياخذو الى باريس يعلمو الفرنسيه
وتنطلق شهرتو عالمياً، ولكن شوشو رفض واستمر بتقديم عملو الاول مدة 6 اشهر كامله.

مخائيل نعيمة حضر العمل الاول وكتب: «بشكرن لأنكن أحتولي ليله عظيمه مثل هالليله».

شخصيات في مسرح شوشو: استقطب مسرح شوشو عشرات الالاف من اللبنانيين، واعتبرو المسرح
الشعبي الأول في لبنان، وأيضاً مسرح المثقفين.

وبخلال عشر سنوات قدّم شوشو حوالي 20 مسرحيه معظما من البولفار الفرنسي إضافه الى أعمال سياسيه
كانت تجمع الفكاهة الى النقد الراقى، وحولها اجتمع عدد كبير من رجال السياسه والمجتمع، والكل اشادو
بقدره شوشو وبشخصيتو الخاصه.

شارك شوشو بكتابة واخراج هالأعمال الناجحه:

وجيه رضوان، نزار ميقاتي، فارس يواكيم، محمد كريمة، محمد شامل، وروجيه عسّاف.

صور من مسرحيات شوشو: من أعمال شوشو المسرحيه منذكر: مريض بالوهم، شوشو عريس، الدكتور
شوشو، الأستاذ شوشو، شوشو والقطة، حيط الجيران، شوشو والعصافير، الحق عالطليان، حب تحت
الصفير، اللعب ع الحبلين، كفيار وعدس، فرقت نمره، جوه وبرّه، وصلت للتسعه وتسعين، و «أخ يا بلدنا»
اللي قدّمها سنة 1973 وهي مترجمه الى العربيه، وقام بالترجمه فارس يواكيم واخرجها روجيه
عسّاف، وكتب اغنيّتها الشهيره الشاعر ميشال طعمه. ولكن الاسطوانه تصادرت من الأسواق واعتبرت
مخالفة للقوانين... والمصادره تمت بعدما كل الناس كانت حفظت الأغنيه ورددتها.

الى جانب المسرح السياسي والاجتماعي قدّم شوشو مسرحيتين للأطفال، ونالو نجاح كبير، وسجل اسطوانتين الأولى بعنوان «ألف باء» والثانية بعنوان «انكغا أبا أبا».

بحديث إذاعي يقول شوشو: «مسرح الطفل هوّ ي المسرح الأصعب، وعند ما يكون بصدد تقديم مسرحيه للأطفال برجف وبخاف، وببصيني الرعب، بيكون وزني قبل المسرحيه 49 كيلو، وبعدا ببصير 44». الأطفال حبّوه، قلّده، وغلّو معو وغلّو أغانيه.

إضافة الى نشاط شوشو المسرحي والسينمائي والتلفزيوني قدّم بالاذاعه اللبنانيه اسكتشات فكاهيه، وبرنامجين الأول بعنوان: «شوشو بوند»، والثاني «خلي بالك من شوشو»...

الوسام: مع سعيد عقل و شهادة اليونيسف: ونال سنة 1968 وسام الاستحقاق اللبناني وبعد 3 سنوات منحو الشاعر سعيد عقل جايزتو الشهرية، وسنة 1973 حاز على شهادة شرف من منظمة اليونيسف العالمية.

ويوم الأحد 2 تشرين الثاني 1975، تسكّر كتاب الحياة، وانضاف اسم على دفتر الذكريات، وبعد ست سنوات على غيابو صدر اول عمل تكريمي لشوشو وكان كتاب جمع سيرة حياتو ومحطات مهمه من مسيرتو الفنيه كتبو صديقو الدكتور فاروق الجمال تحت عنوان «شوشو... آخ يا بلدنا»، وأعاد ابنو خضر تنفيذ بعض أعمالو احياء لذكراه وعرضت شاشات التلفزيون اعمالو الباقيه بذاكرة الناس صوره حلوه من زمن ما بيتكرر.

8- Dr CHARBEL SALEM ASSAAD, PhD

Business Executive, Engineer: Renewable Energy

Systems Optimization @DTU, Île-de-France, France

PhD / Renewable Energy Engineer

https://www.linkedin.com/in/charbel-a-eng?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

Dr. Charbel Assaad

Profession: PhD Student, Department of Wind and Energy Systems

Biography:

Dr. Charbel Assaad is a dedicated researcher and PhD student at the Technical University of Denmark (DTU), specializing in wind and energy systems. His work focuses on system engineering and optimization within the Wind Energy Systems Division¹².

Career Highlights:

- Research Focus: Dr. Assaad's research aims to enhance the design and operation of renewable hybrid power plants. He has contributed to projects that optimize the sizing and operational strategies of hybrid wind power plants².

- Publications: He has co-authored several research papers, including "HyDesign: A Tool For Design and Operation of Renewable Hybrid Renewable Plants" and "Enabling Efficient Sizing of Hybrid Power Plants: A Surrogate-Based Approach to Energy Management System Modeling"²³.

Awards and Recognitions:

While specific awards and recognitions for Dr. Assaad are not publicly documented, his involvement in significant research projects and publications highlights his expertise and contributions to the field of wind energy systems.

Philanthropic Efforts:

Details about Dr. Assaad's philanthropic efforts are not readily available. However, his commitment to advancing renewable energy technologies reflects a dedication to sustainability and environmental conservation.

Legacy:

Dr. Charbel Assaad's contributions to wind and energy systems research have the potential to significantly impact the renewable energy sector. His innovative work continues to support the development of more efficient and sustainable energy solutions.

Personal Life:

Information about Dr. Assaad's personal life, including his early years and family, is not widely documented. His professional achievements, however, highlight his dedication and expertise in the field of wind and energy systems.

Charbel Assaad

Ph.D. Renewable Energy Systems Optimization @DTU
Courbevoie, Île-de-France, France

Summary

An experienced R&D engineer whose ambition is to make energy more accessible, affordable, and cleaner for the world. I am a passionate learner who believes that renewables and hybrid power plants are two of the most suitable vehicles to fulfil this ambition.

Experience

TotalEnergies

Renewable Energy Engineer

November 2020 - August 2021 (10 months)

France

-

- Optimize Operation of Hybrid systems for gas stations (Solar + Battery + GenSet + Grid)

- Goal: minimize heavy fuel consumption of GenSet and extend batterie' lifetime.

- GenSet modelling, financial metrics, temperature models for battery and inverters.

- ,

- Study of snow removal solutions on PV power plants

- Designed an experimental procedure for testing various snow removal solutions

- Techno-economic analysis, and reporting.

-

- Studied outdoor inspection technics for PV plants and service providers

- Extensive Bibliography research & knowledge consolidation from experts.

-

- Designed and programmed a Data Acquisition System to evaluate the reliability of pyranometers.

-
- Designed a monitoring system to evaluate impact of PV modules on plant growth
- Benchmarking of sensors, Dataloggers and other structural devices.

-
- Knowledge consolidation within the group and Design of a Roadmap.
- Animated monthly workshops with various teams (business and researchers).

Animated digital workshops in 2020 and 2021 for the World Day for Safety

- Safety is the most important value at TotalEnergies.
- Over 200 participants.

TotalEnergies

1 year 5 months

Solar R&D Engineer (Work-Study Program)

September 2019 - September 2020 (1 year 1 month)

Région de Paris, France

:

- Assessed the reliability of new modules on the market
 - Conducted Failure Analysis on operating modules with defects
 - Responsible for a laboratory equipment: Potential Induced Degradation
- Designed and Conducted trainings, Elaborated a SOP, Evaluated associated Risks.

:

- Developed a high-level tool for decision-making for solar trackers on the market

Solar Cell R&D Engineer

May 2019 - September 2019 (5 months)

Région de Paris, France

Develop a Boron Silicate Glass (BSG) layers deposited by PECVD for creation of B-doped layer using an innovative process different from the mainstream diffusion approach.

- Elaborated a DOE and developed a process for optimization of solar cell with low thermal budget.
- Analysed & synthesized theses and scientific publications,
- Managed weekly reports and meetings with different teams.

IPM

Assistant engineer product design

July 2018 - August 2018 (2 months)

Lebanon

Main task: Design 3D metallic parts, using SolidWorks, for IPM's in-house machines.

Education

Sup Galilée

Engineer's degree, Energy, Renewable energies, Energy Efficiency · (September 2017 - September 2020)

Sup Galilée

Bachelor's degree, Engineering · (2015 - 2017)

École française internationale de Djeddah

High School Diploma, Baccalauréat Scientifique, Physical Sciences · (2000 - 2015)

9- ANTOINE BADRI

Educator, Philosophy

Experience:

He taught French and Arabic philosophy, Arab science in 5 schools

He worked as teacher for the following schools

- 1- Collège Protestant Français
- 2- Collège des Frères Maristes Champville
- 3- Collège Louise Wegmann
- 4- Antonine Sisters School zahle
- 5- Collège des Sœurs des Saints Cœurs - Zahlé
- 6- Collège des Dominicaines de Notre Dame de la Délivrante Araya
- 7 - Madame aoun school furn el chebak

He also served in the United nations and taught in the democratic Republic of Congo in Africa, known before as Republic of Zaire in the 70s

Education:

Graduated from the Lebanese University

He studied in Saint Paul and Peter Monastery in Harissa

10- WALID BOULOS BADRI

Business Executive / Engineer: Senior Architect

TDL at Erga Group, Lebanon

https://www.linkedin.com/in/walid-badri-b49b745b?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

Walid Badri is a prominent architect based in Lebanon. He currently serves as the Senior Architect and Team Design Leader at Erga Group². Walid holds a degree in Architecture from the Académie Libanaise des Beaux Arts (ALBA) and has extensive experience in architectural design, construction, and project management². His role at Erga Group involves leading design teams and overseeing various architectural projects².

Walid Badri

Profession: Senior Architect and Team Design Leader

Biography:

Walid Badri is a distinguished architect based in Lebanon, currently serving as a Senior Architect and Team Design Leader at Erga Group. With a robust background in architectural design and construction, Badri has contributed significantly to various high-profile projects.

Career Highlights:

- Erga Group: As a Senior Architect and Team Design Leader at Erga Group, Badri has been instrumental in leading design teams and overseeing the development of innovative architectural projects. His expertise in architectural design and construction management has been pivotal in the successful execution of numerous projects¹².

- **Education:** Badri holds a degree in Architecture from the Académie Libanaise des Beaux Arts, where he developed a strong foundation in architectural principles and practices².

Awards and Recognitions:

While specific awards and recognitions for Badri are not publicly documented, his leadership role at Erga Group underscores his expertise and contributions to the field of architecture.

Philanthropic Efforts:

Details about Badri's philanthropic efforts are not readily available. However, his commitment to architectural excellence and community development reflects a dedication to improving the built environment.

Legacy:

Walid Badri's contributions to architecture have had a lasting impact on the industry. His work continues to inspire and influence new generations of architects and designers.

Personal Life:

Information about Badri's personal life, including his early years and family, is not widely documented. His professional achievements, however, highlight his dedication and expertise in the field of architecture.

Youssef Badri

General Manager at Self employed
United Arab Emirates

Summary

My experience is 24 years in the field of composite manufacturing , mainly manufacturing fibreglass products like pipes by filament winding , vertical and horizontal tanks by handlay up or filament winding , profiles by pultrusion process , SMC tanks by hot press technology , etc...

my goal is to develop new applications in civil construction for composite material in order to solve many issues like corrosion , heavy weight and high cost of installation .

Since 2020 , I focused on developing our innovative solutions for our international clients that looked for new material to solve the problems they face in their project.

to name few of our new products :

1- Marine Intake tower structure developed in light fiberglass material reducing the weight from 800 tons of concrete similar structure to 40 tons .

2- Pedestrian bridge of 12 m span developed in fiberglass truss reducing the weight from 10 tons of steel smiliar structure to 2 tons

3- Fire rated doors certified to UL standard and approved by UAE civil defence

4- Modular CIP cylindrical storage tanks of large capacities > 300 m3 that can be assembled easily at site and shipped inside containers.

Experience

Al mustaqbal fiberglass industry
General manager
July 2013 - Present (11 years 2 months)
sharjah

Al mustaqbal is the manufacturing arm of leadergrate , it is Located in Emirates industrial city in Sharjah on 60,000 ft2 land , the factory produces all type of GRP chemical dosing tanks & scrubbers , GRP luggage spiral chutes , GRP Weir channels , GRP self supporting covers , GRP molded grating , GRP caged ladders and handrail and finally GRP aquaculture products .

In 2016 , the company started new lines of production :

Line 1 - GRP molded grating (capacity 5000 m2 per month)

line 2 - GRP oil water separator . (class 1 & 2)

moreover , the company is focusing on specialised products such as

- 1- GRP manual dampers
- 2- GRP sea water intake grill
- 3- GRP louvers
- 4- GRP cladding

LEADERGRATE LLC

Director

December 2007 - August 2019 (11 years 9 months)

Dubai Investment Park # 1

Leadergrate LLC , a trading co. was established to provide solution to clients suffering from corrosion of traditional material like steel , alum , wood , etc..

The company has more than 85 professionals working in UAE with main office in Dubai investment park .

We design , supply and erect fiberglass products like :

1- GRP Service Platforms : for Municipalities waste water plants , District cooling plants , Power & desalination plants, Oil & Gas projects (onshore & offshore) , chemical plants , Alum smelters factories .

2- GRP Manhole Covers : for water parks , resorts on island or sea side , Villas projects , landscaping projects.

3- GRP Fencing : for substations .

4- GRP louvers : for District cooling plants , substations .

5- GRP cable trays : District cooling plants , Waste water plant , Power plant , Desalination plant , tunnels , metros .

6- GRP cat ladders : for infrastructure projects (irrigation & waste water pipeline , manhole chambers , concrete tanks,

7- GRP Sectional water tank : for residential and commercial projects like schools , hospital , villas , towers , malls and for industrial project like RO plants .

8- GRP studs , nut and washers

LEADERTECH LLC

Managing Partner

July 2005 - July 2007 (2 years 1 month)

Dubai

started the marketing in UAE of LG HI TANK manufactured in south korea , and got many prestigious projects

EXTRACO

GRP Division Manager

October 1999 - January 2005 (5 years 4 months)

Sharjah

manufacturer of Fibreglass products like : chemical tanks , scrubbers , oil underground tanks , pipes & fittings , manhole liners, grating , ladders , handrail ,SMC Sectional water tanks etc...

"عيناى... تلك الفرس" باكورة صباح بربر شمس الدين

تحلّق جمع من الشخصيات الثقافية والاجتماعية والفكرية في قصر الأونيسكو، حول صباح بربر شمس الدين، في احتفال توقيع باكورتها الشعرية "عيناى... تلك الفرس"، برعاية وزير الثقافة غطاس خوري ممثلاً بمستشاره عيسى زيدان، وحضور النائب ميشال موسى والنائب السابق حسين يتيم والوزيرين السابقين الياس حنا وإبراهيم شمس الدين، وممثلة وزير الدولة لشؤون المرأة الخبيرة الدولية في شؤون المرأة رندة يسير، والمسؤول عن الشؤون السياسية في السفارة الأندونيسية نور محمد سالم واللواء إبراهيم بصبوص.

النشيد الوطني، وقدمت الاعلامية سناء ضو للإحتفال، فتحدث الشاعر محمد علي شمس الدين والنائب السابق يتيم، ثم القى ممثل صاحب الرعاية كلمة حيا فيها صاحبة الدعوة "التي تخصصت في مجال الاعمال والتسويق، لكنها اهتمت بالشعر اهتماما خاصا وبالكتابات الشعرية، حتى اعطت صورة مميزة عن المرأة اللبنانية المتعلمة والمتقفة والموهوبة".

وفي الختام، القت الشاعرة بربر شمس الدين كلمة قالت فيها: "عيناى تلك الفرس، هي أولى مجموعة شعرية لي، أودعتها صدق أحاسيسي، وخيالي المسكون بحب الجمال، علّ كلماتي تستطيع أن تنقلكم على جناح فراشة ملونة إلى عوالم من كلمة ونغم. أمل أن تلقى تجربتي الأولى إعجابكم ودعمكم، لأبجر أعرق في ذاتي علّني أستخرج منها المحار، وأمهاث اللؤلؤ".

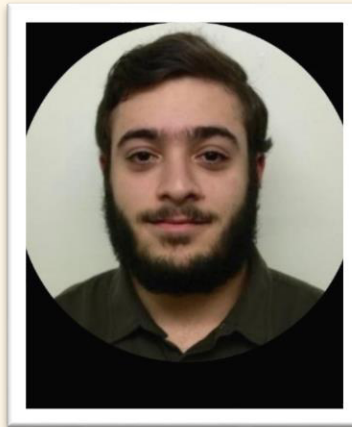

14- DANIEL JACQUES BORCOCHE

Engineer: Electrical Engineer, MSc.

Allegro MicroSystems, Boston, USA

Master of Science in Electrical Engineering

https://www.linkedin.com/in/danielborcoche?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

Daniel Borcoche is an electrical engineer associated with Allegro MicroSystems in Boston. He has also been recognized for his academic work, such as presenting his Honors Capstone Project at UMass Lowell².

Allegro MicroSystems is a global leader in semiconductor technology, specializing in sensor and power integrated circuits (ICs) and photonics.

They focus on developing innovative solutions for motion control and energy-efficient systems, which are crucial for applications in automotive, industrial, and other markets¹².

Key Areas of Focus:

1. Automotive: Allegro's products are integral to vehicle powertrains, safety systems, and advanced driver-assistance systems (ADAS).
2. Clean Energy: They provide solutions that enhance power conversion efficiency and reliability in harsh environments.
3. Automation: Their technologies improve thermal efficiency and equipment safety, speeding up automation across various industries¹².

Innovations:

- XtremeSense™ TMR Technology: This technology offers unprecedented performance in magnetic sensing.
- GaN FET Isolated Gate Driver: Enhances flexibility, simplifies system design, and maximizes efficiency¹.

Global Impact:

Allegro ships over one billion units annually to support more than 10,000 customers worldwide, including over 50 automotive OEMs. Their products are found in vehicles, data centers, and automated factories².

AT&T Bell Labs and Alcatel-Lucent have a rich history in the telecommunications industry:

AT&T Bell Labs

-Founded: Originally part of AT&T, Bell Labs was established in 1925.

-Contributions: Known for groundbreaking research and innovations, including the development of the transistor, laser, and information theory.

-Nobel Prizes: Bell Labs' researchers have been awarded nine Nobel Prizes for their contributions to science and technology³⁴.

Lucent Technologies

-Formation: Created in 1996 from the divestiture of AT&T Technologies, which included Bell Labs¹.

-Focus: Specialized in telecommunications equipment and networking hardware.

-Merger: Merged with Alcatel SA of France in 2006 to form Alcatel-Lucent¹².

Alcatel-Lucent

-Formation: Resulted from the merger of Alcatel and Lucent Technologies in 2006².

-Innovations: Focused on fixed, mobile, and converged networking hardware, IP technologies, software, and services.

-Acquisition: Acquired by Nokia in 2016, with Bell Labs continuing as an independent subsidiary under Nokia²³.

These companies have played pivotal roles in advancing telecommunications technology and have left a lasting legacy in the industry.

Bell Labs has a remarkable history of innovation, with several of its scientists being awarded Nobel Prizes for their groundbreaking work. Here are some of the notable Nobel Prize winners from Bell Labs:

1. 1937 - Clinton J. Davisson: Awarded the Nobel Prize in Physics for the discovery of the diffraction of electrons by crystals, which demonstrated the wave nature of matter².
2. 1956 - John Bardeen, Walter H. Brattain, and William Shockley: Received the Nobel Prize in Physics for their research on semiconductors and the invention of the transistor, a fundamental component of modern electronics³⁴.
3. 1977 - Philip W. Anderson: Shared the Nobel Prize in Physics for his theoretical insights into the electronic structure of magnetic and disordered systems¹.
4. 1978 - Arno A. Penzias and Robert W. Wilson: Awarded the Nobel Prize in Physics for the discovery of cosmic microwave background radiation, providing strong evidence for the Big Bang theory¹.
5. 1997 - Steven Chu: Shared the Nobel Prize in Physics for the development of methods to cool and trap atoms with laser light¹.
6. 1998 - Horst L. Störmer, Daniel C. Tsui, and Robert B. Laughlin: Received the Nobel Prize in Physics for the discovery and explanation of the fractional quantum Hall effect¹.

7. 2009 - Willard S. Boyle and George E. Smith: Awarded the Nobel Prize in Physics for the invention of the charge-coupled device (CCD), which revolutionized imaging technology¹.

8. 2014 - Eric Betzig: Shared the Nobel Prize in Chemistry for the development of super-resolved fluorescence microscopy, allowing for the imaging of molecules within living cells¹.

9. 2018 - Arthur Ashkin: Received the Nobel Prize in Physics for the creation of optical tweezers and their application to biological systems¹.

10. 2023 - Louis Brus: Awarded the Nobel Prize in Chemistry for the discovery and development of quantum dots, nanoparticles whose properties are determined by their size¹.

These achievements highlight Bell Labs' significant contributions to science and technology over the years.

Mayor of the town of Joun

Link: <https://a5r5br.net/article/4622688>

A Tribute to Joun's Hardworking Mayor

In every community, there are individuals whose dedication and tireless efforts make a significant difference. Joun mayor is one such individual. With a vision for a better future and a commitment to serving the people, our mayor has worked relentlessly to improve our town.

From early morning meetings to late-night community events, the mayor's schedule is packed with activities aimed at enhancing the quality of life for all residents. Whether it's overseeing infrastructure projects, advocating for local businesses, or addressing the concerns of citizens, the mayor's presence is felt in every corner of our town.

Under the mayor's leadership, we've seen remarkable progress. The mayor's ability to bring people together and foster a sense of community is truly inspiring.

But beyond the achievements and accolades, it's the mayor's genuine care for the people that stands out the most. Always approachable and willing to listen, the mayor embodies the spirit of public service. It's this unwavering dedication that makes our mayor not just a leader, but a true champion for our town.

17- MAHA G. BORCOSHE ASSAAD

Nursing: Head Nurse

https://www.linkedin.com/in/maha-borcoshe-7806aa11?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

<http://www.helpcenter.med.sa/>

“ The Help Center is a private, non-profit center that aims to serve, care for, and elevate people with intellectual disabilities from birth to adulthood. We are looking for the means and ways in which our children can be fully integrated into society and given their place in it and get proper opportunities in life.

The image shows a LinkedIn profile card for Maha Borcoshe. It is divided into two main sections: a dark blue sidebar on the left and a white main area on the right. The sidebar contains the word 'Contact' and a LinkedIn profile URL. The main area contains the name 'Maha Borcoshe', her current role 'Head Nurse at Help center' in 'Saudi Arabia', and a section for 'Experience' listing her role as 'Head Nurse' at 'Help center' from 'September 1996 - Present (28 years)'. There is a horizontal line below the experience section.

21- Dr ANTOINE JEAN BURKUSH, PhD

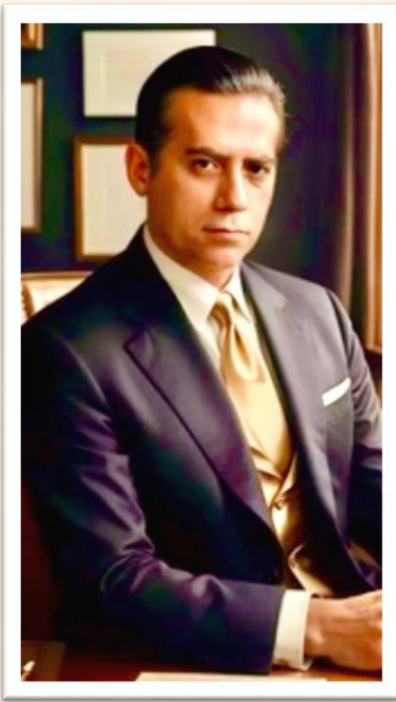

PhD Holder: Business Executive, Consultant, Advisor to Governments

Government Transformation Strategies; Economic Development; Strategy & Policy

PhD / International Development

https://www.linkedin.com/in/drantoineburkush?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

FOR PROFILE and DETAILS OF ACHIEVEMENTS PLEASE REFER TO APPENDIX AT THE END OF THIS DOCUMENT

Dr. Antoine Burkush is a corporate director specializing in strategy and new ventures.

He is currently a senior analyst at MAJD Consultants, based in Saudi Arabia.

Dr. Burkush has extensive experience in international development and public management, with over 42 years of professional experience³.

He holds a doctorate in International Development - Public Management³.

Dr. Antoine Burkush has an impressive background in international development, with a PhD from the Nelson Rockefeller College of Public Affairs and Policy at the State University of New York at Albany.

His career spans over 42 years, integrating experience in both the business and government sectors across the

USA, Europe, and Saudi Arabia.

Key Highlights:

- **Languages:** Fluent in English, French, and Arabic.
- **Public Sector Experience:**
 - Worked with King Abdullah University of Science and Technology (KAUST) on knowledge economy strategies.

- Contributed to the King Abdullah Public Education Development Project (TATWEER).
- Served at the Institute of Public Administration in Riyadh.
- **Private Sector Experience:**
 - Held senior positions in Saudi Research and Marketing Group and Al Khaleejiah Advertising and PR Co.
 - Worked in a major consultancy in Europe and as a faculty member at SUNY Albany in the USA.

Core Strengths:

- **International Development & Economic Development:** Strategic planning, public policy, government transformation, Vision 2030, sustainable development, and capacity building.
- **Business & Management:** Corporate strategies, marketing communications, project management, and organizational development.
- **Research & Education:** Media and marketing research, SPSS, teaching, and training.

Dr. Antoine Burkush has been involved in several notable projects throughout his career:

Public Sector Projects:

1. King Abdullah University of Science and Technology (KAUST):
 - Assisted the Vice President for Economic Development in developing knowledge economy strategies for Saudi Arabia.
2. King Abdullah Public Education Development Project (TATWEER):
 - Contributed to the reform and development of public education in Saudi Arabia.
3. Institute of Public Administration, Riyadh:
 - Worked on various initiatives aimed at enhancing public sector capacity and efficiency.

Private Sector Projects:

1. Saudi Research and Marketing Group:

- Held senior corporate positions, contributing to strategic corporate development and marketing communications.
2. Al Khaleejiah Advertising and PR Co.:
 - Managed key projects in advertising and public relations, enhancing the company's market presence.
 3. Consultancy in Communication and Marketing Group, Europe:
 - Worked on major consultancy projects, providing strategic advice and solutions in communication and marketing.

Academic Contributions:

- State University of New York at Albany:
 - Served as a faculty member, engaging in teaching and research activities.

Dr. Burkush's diverse project portfolio highlights his expertise in strategic planning, economic development, and public policy, making significant contributions to both the public and private sectors.

Dr. Antoine Burkush played a significant role in developing knowledge economy strategies, particularly during his tenure at King Abdullah University of Science and Technology (KAUST). Here are some key contributions:

Key Contributions:

1. Strategic Planning:
 - Developed comprehensive strategies to foster a knowledge-based economy in Saudi Arabia, aligning with the country's Vision 2030 goals.
2. Innovation Ecosystem:
 - Promoted the creation of an innovation ecosystem by supporting research and development initiatives, encouraging collaboration between academia, industry, and government.
3. Capacity Building:
 - Implemented programs to enhance the skills and capabilities of the workforce, focusing on education and training in science, technology, engineering, and mathematics (STEM) fields.
4. Public-Private Partnerships (PPPs):

- Facilitated partnerships between public institutions and private enterprises to drive economic growth and innovation.

5. Policy Development:

- Assisted in formulating policies that support the growth of a knowledge economy, including intellectual property rights, research funding, and technology transfer.

Dr. Burkush's efforts have been instrumental in advancing Saudi Arabia's transition towards a knowledge-based economy, fostering sustainable development and economic diversification.

Dr. Antoine Burkush has proposed several key initiatives to foster innovation, particularly during his work with King Abdullah University of Science and Technology (KAUST). Here are some specific initiatives:

Key Innovation Initiatives:

1. Research and Development (R&D) Hubs:

- Established R&D hubs to promote collaboration between universities, research institutions, and the private sector, focusing on cutting-edge technologies and scientific advancements.

2. Innovation Incubators and Accelerators:

- Created incubators and accelerators to support startups and entrepreneurs, providing them with resources, mentorship, and funding to develop innovative solutions.

3. Public-Private Partnerships (PPPs):

- Facilitated PPPs to leverage the strengths of both sectors in driving innovation, particularly in areas like renewable energy, biotechnology, and information technology.

4. Knowledge Transfer Programs:

- Implemented programs to transfer knowledge and technology from academic institutions to industry, ensuring that research findings are effectively utilized in practical applications.

5. Capacity Building and Training:

- Developed training programs to enhance the skills of the workforce in emerging fields such as artificial intelligence, data science, and cybersecurity.

6. Policy Advocacy:

- Advocated for policies that support innovation, including intellectual property rights, research funding, and incentives for R&D activities.

These initiatives have significantly contributed to building a robust innovation ecosystem, fostering economic growth, and positioning Saudi Arabia as a leader in the knowledge economy.

22- JEAN C. BORKHOUCHE

Public Sector Official: Ministry of PTT

(Later called Ministry of Telecommunications)

Biography

1. **Early Life and Career:** Born on 1914, in Joun, Al Chouf District, he came from a notable Joun family. He joined the telecommunications “Park” during the French mandate era and later became the first Lebanese to fill higher positions.
2. **PTT Management:** He was appointed Chef De Service / General Manager of the Lebanese PTT during a period of crisis. His tenure is noted for authoring, developing and introducing significant reforms projects. He focused on building modern state institutions and promoting social equity.
3. **Inventions Pioneer:** Pre patented innovations in telecommunications He was a pioneering Lebanese expert in electrical and electronics research, and had four pre patented inventions in the Telecom technology.
4. **Approach:** His well-known approach, emphasized strong state institutions, social justice, and economic development. This approach influenced subsequent PTT heads and Directors.
5. **Legacy:** He is remembered for his efforts to build and maintain a strong and effective PTT during his tenure. His contributions to Lebanon's Telecommunications sector's development and governance continue to be recognized.
6. **Educator:** Above all he was a “persistent giver”. He was also a committed educator who taught telecom at the Arts et Metiers as well as taught many people on a voluntary basis in his own house, many of them turned out to become well known specialists in the Telecom field in Lebanon.

7. **Regional Initiatives:** Arab Union for Telecommunication - Union Arabe de Télécommunications

He is among the founding members of the Arab Telecommunications Organization (Part of the Arab League) and representative of the country of Lebanon in the Conferences.

منظمة عربية متخصصة Arab Telecommunications Union للاتحاد العربي للمواصلات السلكية واللاسلكية
 أنشئت بموجب قرار مجلس جامعة الدول العربية 1196 - 1953/9/9، وبأشرف أعماله بدءاً من عام 1957

General Characteristics of his leadership

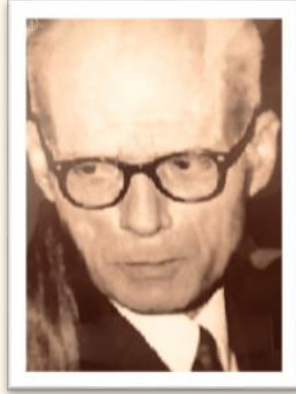

Jean Borkhoche was one of the ideal public sector officials in Lebanon (as others from his hometown) who embodies several key characteristics that contributed to his effective and ethical governance. Here are some of his important traits:

1. **Integrity and Ethics:** He adhered to high ethical standards, and demonstrated throughout the years of his tenure honesty, transparency, and accountability in all his actions.
2. **Commitment to Public Service:** Jean Borkhoche had a strong sense of duty and his dedication to serving the public interest was crucial. This included prioritizing the needs of the ministry of PTT or Telecommunications and well-being of the staff over personal gain.
3. **Leadership and Vision:** As an effective public sector official he possessed strong leadership skills and a clear vision for the future. He inspired and motivated his teams and communities to achieve common goals.

His leadership was marked by a focus on strict anti-corruption measures, and a strong emphasis on education and infrastructure.

In addition, his leadership was instrumental in dismantling administrative issues and fostering productivity among his employees and staff. His commitment to justice, equality, and forgiveness set a powerful example of moral leadership.

4. **Evidence-Based Decision Making:** Utilizing data to inform his decisions ensured that his policies and actions were effective and efficient.
5. **Empathy and Compassion:** His leadership style also featured understanding and addressing the needs and concerns of the community of his hometown Joun. This empathy and compassion fostered trust and strengthened respect.
6. **Impact:** These qualities helped him navigate the complexities of governance and deliver positive outcomes for his communities. His contributions have had a significant and lasting impact on various fields, including telecommunications

In summary, Jean Borkhoche was a distinguished Public Service authority who mastered deep telecommunications science and technology and demonstrated various qualities such as integrity, vision, empathy, and the ability to inspire people. His contributions have had lasting impacts on Lebanon and beyond.

Yasmina Chami

Innovative Interior Designer & Entrepreneur | Elevating Hospitality & Multi-Residential Experiences
 Mississauga, Ontario, Canada

Summary

As a skilled Interior Designer with years of experience and a keen eye for detail, I excel in arranging spaces and adding intricate touches. My track record of success spans various design projects, where I've demonstrated the ability to adapt quickly to fast-paced environments and innovate continuously. I'm deeply passionate about creating functional designs that incorporate features for everyone.

Beyond my design expertise, I possess a knack for entrepreneurship, always eager to take on challenges and push boundaries. I value collaboration and prioritize building strong relationships with clients and partners alike. My fluency in Arabic and English allows me to communicate effectively across diverse cultural backgrounds.

Currently, I am seeking a role in a creative and supportive atmosphere where I can further enhance my design skills and contribute to meaningful projects. I thrive in environments that foster innovation and encourage exploration of new ideas.

Experience

Larco Hospitality
 Junior Interior Designer
 August 2023 - Present (1 year 1 month)
 Toronto, Ontario, Canada

✓ Hospitality Interior Design: Executed designs for various hotel branches, including 15 locations across Canada and the United States. Part of the company's portfolio included brands such as the Fairmont, W Hotel, Sheraton, Hilton, Eaton Center and Rogers Center Marriotts', and JW Marriott in Las Vegas.

✓ Lead Interior Designer at Sheraton Toronto Airport: Designed the full renovation of various spaces including the lobby, meeting rooms, private

Page 1 of 4

workspaces, club lounge, and guest suite. Managed all aspects from material selection to FF&E, encompassing demolition, construction, and detailed planning (reflected ceiling, finish, furniture, elevations, sections, and millwork).

- ✓ Streamlined Design Process: Facilitated efficient communication between the design team and contractors, minimizing back-and-forth exchanges. This included handling tender addendums, responding to RFIs, and issuing site instructions.
- ✓ Presentation Board Creation: Leveraged Pinterest to curate visual inspiration using InDesign for mood boards and presentations.
- ✓ Custom Designs and Furniture Selection: Developed custom wardrobes, lighting fixtures and furniture pieces, balancing bespoke elements with cost-effective solutions, such as the baseball bat-themed console table for the Marriott Hotel at the Rogers Centre.
- ✓ Budget Management: Successfully reprogrammed rooms and arranged furniture within tight budget constraints, utilizing online resources and negotiation skills.
- ✓ Artwork Hanging Specifications: Determined and communicated precise hanging heights for all artwork installations.
- ✓ Value-Added Skills: Hands-on visual learner with a knack for bringing design concepts to life.
- ✓ Accomplishments: Received accolades for furniture designs, with creations selected for production and specified finishes implemented. Additionally, leveraged a minor in furniture design to personally design and fabricate pieces.

David Small Designs

Junior Interior Designer / Technician

February 2023 - July 2023 (6 months)

Oakville, Ontario, Canada

- ✓ Proficient in Sketchup for creating and modelling renderings, with a knack for transforming concepts into tangible 3D models.
- ✓ Utilized AutoCAD for precise technical drawings and revisions, including layouts for furniture, materials, and electrical plans.
- ✓ Orchestrated in-person presentations by setting up island displays with material selections and curated personalized sample baskets for clients.
- ✓ Independently sourced products and materials for project documents, including appliances, fixtures, lighting, paint, wallpaper, and stone.

RH

Design Assistant

January 2022 - February 2023 (1 year 2 months)

North York, Ontario, Canada

- ✓ Offered innovative design support across all project phases, from conceptual consultations to final deliveries, for projects ranging from \$50k to \$400k.
- ✓ Utilize AutoCAD, Photoshop, Illustrator, and InDesign daily to produce high-quality base plans, elevations, presentations, and delivery guides for colleagues and clients.
- ✓ Produced brand-appropriate presentations that communicated design concepts, space planning and product selections.

Ginger's

Boutique Sales Associate

January 2021 - December 2021 (1 year)

North York, Ontario, Canada

- ✓ Drove significant sales growth at Gingers Boutique by leveraging extensive product knowledge and strong customer service skills.
- ✓ Spearheaded the development of new marketing materials and business strategies to attract and retain both trade and retail clients.
- ✓ Created comprehensive Product E-Spec Packages and Booklets for the Kitchen and Bath Departments, enhancing product visibility and client engagement.

Ali Budd Interiors

Internship

November 2018 - February 2019 (4 months)

North York, Ontario, Canada

- ✓ Utilized keen visual discernment by selecting samples, fabrics, and materials to complete a mood board for projects based on the extensive sample library.
- ✓ Sourced fabrics, wallpaper, flooring, and other materials for projects, coordinating with suppliers to ensure timely delivery.

Square One Shopping Centre

Sales Associate

2013 - 2019 (6 years)

Mississauga, Ontario, Canada

- ✓ Exceeded sales targets consistently
- ✓ Collaborated effectively with various teams in fast-paced environments
- ✓ Demonstrated exceptional interpersonal skills and provided excellent customer service to drive retention

Employment History:

- ✓ ALEX AND ANI
- ✓ SEPHORA
- ✓ THE HUDSONS BAY
- ✓ BCBG MAX AZRIA
- ✓ LUSH COSMETICS

Dr. Ali H. Chamseddine is a renowned Lebanese physicist known for his significant contributions to particle physics, general relativity, and mathematical physics.

Born on February 20, 1953, in Joun, Lebanon, he has had an illustrious academic and research career¹².

Education and Career

- Education: Dr. Chamseddine received his BSc in Physics from the Lebanese University in 1973. He then pursued graduate studies at Imperial College London, where he earned a Diploma in Physics in 1974 and a PhD in Theoretical Physics in 1976 under the supervision of Nobel laureate Abdus Salam¹².

- Academic Positions: He has held various academic positions, including at the American University of Beirut (AUB), CERN, Northeastern University, ETH Zurich, and the University of Zurich¹².

Scientific Achievements

- Supersymmetry and Supergravity: Dr. Shamseddine's PhD thesis laid the foundation for his work in supersymmetry and supergravity. He is known for formulating N=1 Supergravity using the fiber bundle formulation¹².

- Noncommutative Geometry: He has made pioneering contributions in noncommutative geometry and gravity, working on the unification of all fundamental forces in nature¹².

- **Awards:** Dr. Chamseddine has received numerous awards, including the Alexander von Humboldt Research Prize (2001), the TWAS Physics Prize (2009), and the G. Bude Medal from the College de France (2007) ¹².

Current Roles

- Professor: He is currently a professor at the American University of Beirut and the Institut des Hautes Études Scientifiques (IHÉS) in France¹².

Dr. Chamseddine's work has had a profound impact on the field of theoretical physics, and he continues to be a leading figure in his areas of expertise.

34- Dr ALI CHAMSEDDINE, MD

Medical Doctor, Oncologist

Dr. Ali Chamseddine is a distinguished medical oncologist. He completed his MD degree from the University of Rouen of Medicine and Pharmacy in Rouen, France, in 2012. He further specialized in clinical oncology with a diploma from the University of Paris XI School of Medicine in 2013¹.

He is currently associated with the American University of Beirut Medical Center (AUBMC), where he specializes in hematology and medical oncology². Dr. Chamseddine is known for his expertise in treating various types of cancer and is actively involved in both clinical practice and research².

Dr. Ali Chamseddine is a highly regarded medical oncologist with extensive experience in the field. Here are some key details about his career:

- Education and Training: Dr. Chamseddine completed his MD degree from the University of Rouen of Medicine and Pharmacy in Rouen, France, in 2012. He pursued further specialization in clinical oncology and earned several diplomas from prestigious institutions in France, including the University of Paris XI and the University of Paris VI²³.

- Professional Experience: He has over 12 years of experience in medical oncology and has worked in various renowned institutions. He completed a post-doctoral fellowship at the MD Anderson Cancer Center in Houston, Texas, USA, where he worked in the division of Cancer Medicine, Leukemia Department³.

- **Current Position:** Dr. Chamseddine is currently practicing at the Saudi German Hospital in Dubai, UAE. He is known for his expertise in treating various types of cancer, including gastrointestinal stromal tumors, lung cancer, and small-cell carcinoma³.

- **Research and Publications:** He has been involved in extensive clinical research and has published multiple research papers and journals. He is also a member of several professional organizations, including the European Society of Medical Oncology (ESMO) and the American Society of Clinical Oncology (ASCO)³.

Dr. Chamseddine's contributions to the field of oncology

Dr. Ali Chamseddine has made significant contributions to the field of oncology. Here are some of his notable achievements:

1. **Clinical Research:** Dr. Chamseddine has been involved in extensive clinical research, particularly in the treatment of gastrointestinal stromal tumors, lung cancer, and small-cell carcinoma. His research has led to advancements in treatment protocols and improved patient outcomes³.

2. **Publications:** He has published numerous research papers in prestigious medical journals, contributing valuable knowledge to the field of oncology. His work is widely cited by peers and has influenced clinical practices³.

3. **Professional Affiliations:** Dr. Chamseddine is a member of several professional organizations, including the European Society of Medical Oncology (ESMO) and the American Society of Clinical Oncology (ASCO). These affiliations highlight his commitment to staying at the forefront of oncology research and practice³.

4. **Leadership Roles:** Throughout his career, Dr. Chamseddine has held various leadership positions in medical institutions, where he has been instrumental in driving forward oncology departments and mentoring young oncologists³.

5. **Patient Care:** Known for his compassionate approach, Dr. Chamseddine has been recognized for his dedication to patient care. He is highly regarded by his patients for his empathetic and personalized treatment plans³.

Dr. Chamseddine's contributions to oncology make him a distinguished figure in the medical community and a valuable addition to your 'Who's Who' directory for Joun.

Dr. Ali Chamseddine has an impressive educational background in the field of oncology:

1. MD Degree: He earned his medical degree from the University of Rouen of Medicine and Pharmacy in Rouen, France, in 2012¹.
2. Specialization in Clinical Oncology: Dr. Chamseddine pursued further specialization in clinical oncology, obtaining several diplomas from prestigious institutions in France, including the University of Paris XI and the University of Paris VI¹.
3. Post-Doctoral Fellowship: He completed a post-doctoral fellowship at the MD Anderson Cancer Center in Houston, Texas, USA, where he worked in the division of Cancer Medicine, Leukemia Department¹.

Dr. Chamseddine's extensive education and training have equipped him with a robust foundation in oncology, enabling him to make significant contributions to the field.

35- ALI IBRAHIM CHAMSEDDINE

Engineer: Civil Engineer

Dr. Ali Ibrahim Chamseddine is a distinguished civil engineer with a robust academic and professional background. Here are some key details about his education and career:

Educational Background

1. Bachelor of Engineering in Mechanical Engineering: American University of Beirut, Lebanon (February 2007 – June 2011). He graduated with high distinction and was on the Dean's Honor List¹.
2. Master of Engineering in Mechanical Engineering: American University of Beirut, Lebanon (September 2011 – October 2013). His thesis focused on modeling neonatal oxygenation¹.
3. Doctor of Philosophy in Mechanical Engineering: McGill University, Montreal, Canada (September 2014 – December 2018). His thesis on computational design optimization in cancer nanotherapy received the 2018 Best PhD Thesis Award from GERAD¹.

Professional Experience

- Postdoctoral Research Fellow: H. Lee Moffitt Cancer Center & Research Institute, Tampa, FL, USA (January 2019 – March 2020). He worked on developing machine-learning models for cancer treatment optimization¹.

- Instructor in Radiation Oncology: Massachusetts General Hospital and Harvard Medical School, Boston, MA, USA (since November 2022). His research focuses on computer simulation and nanoparticle optimization²³.

Dr. Chamseddine's interdisciplinary expertise in engineering and oncology, combined with his significant research contributions, make him a notable figure in his field.

Dr. Ali Ibrahim Chamseddine has made significant contributions to the field of civil engineering and beyond. Here are some of his notable achievements:

1. Best PhD Thesis Award: Dr. Chamseddine received the 2018 Best PhD Thesis Award from GERAD for his work on computational design optimization in cancer nanotherapy¹.

2. Postdoctoral Research: He developed machine-learning models for cancer treatment optimization during his postdoctoral fellowship at the H. Lee Moffitt Cancer Center & Research Institute in Tampa, FL, USA¹.

3. Academic Contributions: As an Instructor in Radiation Oncology at Massachusetts General Hospital and Harvard Medical School, Dr. Chamseddine has been involved in cutting-edge research focusing on computer simulation and nanoparticle optimization²³.

4. Publications and Research: Dr. Chamseddine has published numerous research papers in prestigious journals, contributing valuable knowledge to both the fields of mechanical engineering and oncology¹.

5. Professional Recognition: His interdisciplinary expertise and innovative research have earned him recognition in the academic and medical communities¹.

Dr. Chamseddine's achievements highlight his dedication to advancing both engineering and medical sciences, making him a distinguished figure in his field.

36- Dr ABBAS AFIF CHAMSEDDINE, MD

Medical Doctor, Radiology

Clinical Professor of Radiology - Faculty of Medicine, Saint George University of Beirut.

37- JUSTICE Dr AFIF CHAMSEDDINE, PhD

Judge

Judge Afif Chamseddine

Profession: Judge

Biography:

Judge Afif Chamseddine is a distinguished figure in the Lebanese judiciary, known for his significant contributions to the legal field. He has served as a judge at the Special Tribunal for Lebanon (STL), where he has been involved in several high-profile cases¹³.

Career Highlights:

- Special Tribunal for Lebanon: Judge Chamseddine has played a crucial role in the STL, participating in key decisions and appeals. His work at the tribunal has been instrumental in addressing complex legal issues and ensuring justice in cases related to the tribunal's mandate¹³.
- Notable Cases: He has been involved in significant cases, including the Ayyash et al. case, where he contributed to the deliberations and decisions of the Appeals Chamber¹³.

Awards and Recognitions:

While specific awards and recognitions for Judge Chamseddine are not publicly documented, his role at the STL underscores his expertise and contributions to international justice.

Philanthropic Efforts:

Details about Judge Chamseddine's philanthropic efforts are not readily available. However, his commitment to justice and the rule of law reflects a dedication to upholding human rights and legal integrity.

Legacy:

Judge Afif Chamseddine's contributions to the legal field, particularly through his work at the Special Tribunal for Lebanon, have had a lasting impact on international justice. His decisions and legal insights continue to influence the field.

Personal Life:

Information about Judge Chamseddine's personal life, including his early years and family, is not widely documented. His professional achievements, however, highlight his dedication and expertise in the field of law.

القاضي عفيف عباس شمس الدين

ولد القاضي عفيف عبّاس شمس الدين في بلدة جون في قضاء الشوف في جبل لبنان عام 1940، من أسرة متجذرة في العلوم والمعارف الدينية ورفدت العالم العربي والإسلامي بمشايخ كبار تركوا أطيّب الأثر في رحلتهم الدنيوية. والده عباس شمس الدين وأمّه نرجس أسعد، أنجبا أربعة صبيان وخمس بنات هم بالإضافة إليه: عاطف (مواليد 1947) ومحمّد (مواليد 1959)، وأحمد (مواليد 1961)، وتحمل العائلة القيد الرقم 12 في بلدة جون المختلطة سكّانياً بين مسلمين ومسيحيين. تابع عفيف شمس الدين دروسه الابتدائية والمتوسطة في مدارس بلدته ومدينة صيدا المجاورة. ودخل دار المعلمين في مقرّها الكائن في محلّة بئر حسن في بيروت، حيث تتلمذ على يد كلّ من: فؤاد افرام البستاني، الشاعر سعيد عقل، الشاعر جوزيف نجيم، وارتبط بزمانة وصداقة استمرّت في حقل القضاء مع من صار مثله قاضياً ومنهم: بشارة متى، جميل بيرم، رشيد حطيط، غسان أبو علوان، جرجي حيدر وعبد الغني الحجّار. وخلال الدراسة، أصدر مع القاضي متى مجلّة «الخطايا» الأدبية الانتقادية، وتولّى سكرتارية التحرير فيها. وبعد تخرّجه من دار المعلمين عام 1958، مارس مهنة التدريس لمُدّة خمس سنوات، كان خلالها يواظب على درس الحقوق في الجامعة اللبنانية حتى دخل إلى الوظيفة الرسمية في 2 نيسان من عام 1959، وانتسب إلى معهد الدروس القضائية عام 1962، فأمضى فيه ثلاث سنوات توجّها بالتخرّج، ليعيّن في 8 أيلول عام 1965 قاضياً أصيلاً في ملاك القضاء العدلي. وشغل «الرئيس» شمس الدين على مدى 46 عاماً المناصب القضائية التالية: ÷ قاض منفرد في حاصبيا عام 1966. ÷ قاض منفرد في جديدة المتن. ÷ قاضي تحقيق في البقاع. ÷ رئيس الغرفة الثانية لدى محكمة الدرجة الأولى في جبل لبنان عام 1972. ÷ رئيس الغرفة الثانية عشرة لدى محكمة الاستئناف في بيروت عام 1992. ÷ رئيس محكمة المطبوعات بين العامين 1992 و1997. ÷ رئيس الغرفة الثالثة لدى محكمة التمييز الجزائية بين العامين 1997 و2008. ÷ رئيس مجلس إدارة صندوق تعاضد القضاة 16 عاماً متواصلاً، أيّ من عام 1992، ولغاية تقاعده يوم الثلاثاء الواقع فيه الأوّل

من شهر تموز من عام 2008. وبسبب نجاحه في تطوير هذا الصندوق، عيّنته وزارة العدل مستشاراً قانونياً وإدارياً في مجلس إدارة صندوق التعاضد المذكور للاستفادة من خدماته وخبراته. أمضى شمس الدين تسع سنوات في عضوية مجلس القضاء الأعلى، وأبرزها عندما انتخبه رؤساء ومستشارو محاكم التمييز ممثلاً عنهم في هذا المجلس في أول انتخابات تجرى في محاكم التمييز في تاريخ القضاء، وذلك في 7 تشرين الأول عام 2002، حيث فاز مع القاضي غسان أبو علوان. وعيّن عضواً في المجلس العدلي، وهو أعلى هيئة قضائية في لبنان، لمدة أحد عشر عاماً، وعضواً في الهيئة العامة لمحكمة التمييز، وعضواً أصيلاً في المجلس الأعلى لمحاكمة الرؤساء والوزراء، وأقسم اليمين القانونية أمام الهيئة العامة لمجلس النواب في جلسة عقدت في 7 تشرين الأول عام 2003. أصدر شمس الدين خلال ترؤسه محكمة التمييز وعضويته في المجلس العدلي عدداً من الأحكام المبرمة التي تقضي بالإعدام، كما أنه نظر في عدد من الملفات الهامة المطروحة أمام «العدلي»، مثل ملفّ الأحداث الأمنية التي وقعت في جرد الضنية بين الجيش اللبناني وجماعات من الإسلاميين، وملفّ محاولة إسلاميين خطف سياح أجانب في طرابلس لإكراه السلطة القضائية على الإفراج عن الموقوفين في «ملفّ الضنية»، وملفّ المجزرة التي ارتكبتها أحمد منصور في مقرّ صندوق تعويضات أفراد الهيئة التعليمية في المدارس الخاصة في محلّة الأونيسكو في بيروت. أصدر شمس الدين، خلال ترؤسه محكمة التمييز، مع المستشارين القاضيين محمّد مكة وجرجي في 27 كانون الأول عام 2002. انتصر (MTV) «حيدر، الحكم الشهير في قضية تلفزيون» أم.تي.في. في إبان ترؤسه محكمة المطبوعات، لحرية «السفير» التي عُطّلت لمدة أسبوع كامل، ولكنها لم تحتجب عن قرّائها فصدرت باسم «بيروت المساء» عام 1993، وقرّر في حكمه الشهير الذي أصدره مع القاضيين المستشارين أسامة العجوز وإلياس ناصيف في 16 شباط عام 1994، تبرئة «السفير» ووقف التعقبات بحقها لعدم توافر عناصر الجنحتين المدعى بهما. تزوّج شمس الدين من السيّدة فائزة توفيق عيد ورزقا بأربعة أولاد، صبين وبننتين، وهم: المحامي حسام (1964)، الدكتور عباس (1966) الذي اختير مرّتين

أفضل طبيب أشعة وجراحة الأشعة في الولايات المتحدة وذلك في العامين 2003 و 2007، والقاضية عادة (1967) التي دخلت إلى القضاء في 17 أيلول 2003، والقاضية مريام (1973) التي دخلت إلى القضاء في 21 آذار 2000. ولتمتين علاقته بالقانون وتوسيع آفاقه العلمية، حاز شمس الدين عام 1980 على شهادة دكتوراه في القانون، وزاول مهنة التدريس الجامعي، فعلم في معهد الدروس القضائية، وكلية الحقوق في الجامعة اللبنانية، والجامعة الإسلامية بين العامين 1980 و 2008. يشهد للقاضي شمس الدين خلال عمله القضائي، بالمناقبية والعطاء والمكانة اللائقة والكفاءة والصبر والتنقيب المستمر والإنتاج الغزير، وهو ما تدلّ عليه أحكامه وقراراته، ومثابرته على تلقّف ما تسطرّه المحاكم من قرارات واجتهادات وأحكام، ووضعها في خدمة الأجيال للاستفادة منها بما يعود عليها بالخير والمنفعة العامة

رحيل الدكتور عز الدين شمس الدين

24-03-2015 | 00:03

غيب الموت نهاية الأسبوع الماضي في الولايات المتحدة الأميركية المستشار السابق لرئيس البنك الدولي لشؤون الشرق الأوسط الدكتور عز الدين شمس الدين عن عمر يناهز 86 سنة (هو من بلدة جون الشوف وشقيق الفنان نصري شمس الدين).

كان شمس الدين قد هاجر الى الولايات المتحدة الأميركية في عام 1949 بعد إتمام دراسته في مدرسة المقاصد في صيدا، وأنهى دراسته الجامعية في جامعة نورث كارولينا حيث حاز على شهادة الدكتوراه، في الاقتصاد والعلوم السياسية

مارس مهنة التعليم في جامعة نورث كارولينا حتى العام 1966 حين انتقل الى التدريس في جامعة بغداد. وفي سنة 1970 عيّن مستشاراً للصندوق الكويتي للتنمية الاقتصادية العربية حتى العام 1979. تاريخ عودته الى الولايات المتحدة الأميركية وعيّن مديراً لدى البنك الدولي في واشنطن وبعد تقاعده في العام 1995 عيّن مستشاراً لدى رئيس البنك الدولي لشؤون الشرق الأوسط حتى العام 2000.

كانت له مساهمات كبيرة في مشاريع الاعمار في لبنان. فقد رشحه الرئيس أمين الجميل في العام 1983 لتولي مهمات وزارة تتولى شؤون الاعمار، لكن الحسابات السياسية والطائفية اللبنانية حالت دون ذلك، وخلال الأعوام 1993 – 1995 عمل على تنسيق مساعدات البنك الدولي الى لبنان في مشاريع إعادة الإعمار إبان تولي الرئيس رفيق الحريري رئاسة الحكومة. كما عيّن الصندوق الكويتي مستشاراً للمشاريع التي قام بتنفيذها في لبنان خلال الأعوام 2002 2004

47- NASRI CHAMSEDDINE

Singer, Composer, and Actor

FOR DETAILS PLEASE SEE APPENDIX

Singer, Composer, and Actor: Nasri Chamseddine: A renowned Lebanese singer and actor^[1].

Nasri Chamseddine; 27 June 1927 – 18 March 1983) was a Lebanese singer^[1] and actor.^[2]

Biography

Chamseddine was born Nasreddine Moustapha Shamesedine in the village of Joun, in the southern part of the Chouf mountains to Shia family.

He became a teacher of the Arabic language first in the town of Chebaa and then the Al Jaafarih Schools - Tyr in Tyre. During that time he started performing concerts singing and playing

the *oud*. Chamseddine was first featured at the Baalbek International Festival in the early 1950s, where he also presented poems.

He became not only a specialist in singing Lebanese folklore, but also in singing in different Arabic dialects. His works included collaborations with composers and singers like Melhem Barakat, Zaki Nassif, the Rahbani brothers, Halim Al-Roumi, Sabah, Wadih Al Safi, and Philemon Wehbe.^[3]

Monthst prominently, performed with Fairuz from 1960 until little after the beginning of the Lebanese Civil War in 1978.^[1]

Chamseddine 's *Œuvre* consists of more than 500 songs.^[4] He held concerts in a large number of countries and won awards in Brazil, France, Jordan, Lebanon, Egypt, Kuwait, and Syria.^[3]

He suffered a heart attack shortly before a concert in Damascus in 1983. Chamseddine later collapsed and died on stage during the performance due to a cardiac arrest which followed the attack.^[1]

Here are some highlights about him:

Early Life and Career

- Birth: Nasri Chamseddine was born in Joun, Lebanon, and grew up in a culturally rich environment that influenced his artistic career.

- Music and Theatre: He became famous for his deep, resonant voice and his ability to perform a wide range of musical styles, from traditional Lebanese folk songs to modern compositions. He was also a prominent figure in Lebanese theatre, often collaborating with the Rahbani Brothers and Fairouz.

Achievements

- Iconic Performances: Nasri's performances in musicals and plays, such as "Petra" and "The Days of Fakhr El-Din," are still remembered and celebrated.

- Cultural Impact: His work helped to popularize Lebanese music and theatre, both locally and internationally. He is considered a cultural icon in Lebanon.

Legacy

- Influence: Nasri Shamseddine's contributions to the arts have left a lasting impact on Lebanese culture. His songs and performances continue to be cherished by new generations.

- Recognition: He received numerous awards and accolades throughout his career, recognizing his talent and dedication to the arts.

Actor

Actor and Voice Actor

A Lebanese actor and voice actor, who appeared in many works such as *Asking for Marriage* (1997) and *The Best Ras Beirut House* (2001). He died on 26 October 2022.

Date of Birth: 22 April 1955; Died on: 26 October 2022

Here's the updated profile for Ghassan Estephan, including details about his philanthropic efforts:

Ghassan Estephan

Profession: Actor and Voice Actor

Biography:

Ghassan Estephan was a celebrated Lebanese actor and voice actor, known for his remarkable contributions to both film and television. Born in Lebanon, Estephan's career spanned several decades, during which he became a beloved figure in the entertainment industry.

Career Highlights:

- **Film Roles:** Estephan starred in notable films such as *"Al Mashhad Al Akhir"* (2005), *"Charbel"* (2009), and *"A Última Estação"* (2012). His performances were widely acclaimed for their depth and emotional resonance.

- **Voice Acting:** Estephan was also a prominent voice actor, lending his voice to numerous characters in animated series and films. His distinctive voice brought many characters to life, endearing him to audiences of all ages.

Awards and Recognitions:

- **Best Actor Award:** Estephan received the Best Actor Award at the Lebanese Film Festival for his role in "Al Mashhad Al Akhir."
- **Lifetime Achievement Award:** In recognition of his extensive contributions to the arts, Estephan was honored with a Lifetime Achievement Award by the Lebanese Ministry of Culture.
- **Voice Acting Excellence:** Estephan was also recognized for his exceptional work in voice acting, receiving accolades from various animation studios and industry bodies.

Philanthropic Efforts:

Ghassan Estephan was deeply committed to giving back to his community. He supported various charitable organizations and initiatives, focusing on:

- **Education:** Estephan funded scholarships for underprivileged students, helping them pursue their dreams in the arts and other fields.
- **Healthcare:** He contributed to healthcare initiatives, particularly those aimed at providing medical assistance to children in need.
- **Cultural Preservation:** Estephan was passionate about preserving Lebanese culture and heritage. He supported projects that aimed to document and promote traditional Lebanese arts and crafts.

Legacy:

Ghassan Estephan's legacy in the Lebanese entertainment industry is profound. His work continues to inspire new generations of actors and voice actors. Estephan passed away on October 26, 2022, but his contributions to the arts and his philanthropic efforts remain cherished by fans and colleagues alike.

Personal Life:

Details about Estephan's personal life, including his early years and family, are less documented, but his professional achievements speak volumes about his dedication and talent.

الممثل غسان اسطفان في ذمة الله... والنقابة: غادرنا بهدوء وسكينة

توفّي الممثل والمخرج اللبّاني غسان اسطفان، وفق ما أعلنت نقابة الممثلين في لبنان.
ونعت النقابة الممثل الراحل في بيانٍ جاء فيه: "إنّ نقابة ممثلي المسرح والسينما والإذاعة والتلفزيون وجميع النقابات الفنية في لبنان، بمزيد من الألم والأسى، تتعزى الزميل الممثل والمخرج وعضو مجلس الإدارة السابق المرحوم غسان اسطفان".
وأوضح بيان النقابة أنّ "الفنان الخلق والنجم المبدع في الزمن الجميل غادرنا بهدوء وسكينة. لروحه الرحمة و السلام. لتكون نفسه بالسما. ستبقى خالدًا في ضمائرنا وفي الوجدان".

81 - NICHOLAS HADDAD

صحفي وعالم وشاعر نقولا حداد Author, Poet, Journalist

نقولا حداد

نقولا حداد (1878-1954م) [3] هو صحفي وعالم وشاعر، درس الصيدلة في «الكلية البروتستانتية السورية» (الجامعة الأميركية في بيروت فيما بعد) ثم هاجر من بعد إلى مصر واستقر بها. عمل في الصحافة فحرّر في جريدة الأهرام وغيرها. [4] سافر إلى نيويورك عام 1907 واشترك مع فرح أنطوان في إصدار الجامعة. عاد إلى القاهرة واشترك مع زوجته روز أنطوان حداد في إصدار مجلة السيدات والرجال التي ظلت تصدر اثني عشر عاماً. رأس تحرير المقتطف (1949-1950)، وله طائفة كبيرة من المؤلفات أبرزها «علم الاجتماع» و«هندسة الكون بحسب ناموس النسبية». له مجموعة كبيرة من الروايات والمسرحيات بين المؤلفة والمترجمة. عمل على ترويج أفكاره من خلال مطبوعتي المقتطف والهلال اللتان تأسستا على التوالي عامي 1876 و1892م. وقد وصف نقولا حداد بأنه «من طلائع [6] النهضة العربية». [5]

مسيرته

ولد عام 1878م في قرية «جون» بلبنان، [7] تلقى تعليمه الابتدائي في مدرسة صيدا الأمريكية، حيث درس مبادئ العلوم والتاريخ والهندسة واللغة العربية نحوًا وصرفًا، ثم علّم نفسه اللغة الإنجليزية، [8] ثم [8]. درس الصيدلة ونال شهادتها 1902 م، وبعدها تفرّغ لدراسة نظرية النسبية

عمل مدرسًا في المدارس الأمريكية القروية بريف لبنان، ثم في مدارس «صيدا»، وعمل بعدها محررًا في جريدة «الرائد المصري» بالقاهرة مدة ثلاث سنوات، ثم محررًا في عدد من الصحف المصرية، كالأهرام [7]. «والمحرسة». أنشأ جريدة المحبة المدرسية في «صيدا»، وجريدة الحكمة المدرسية في «بيروت

سافر حداد إلى الولايات المتحدة الأمريكية برفقة «فرح أنطون» لإصدار جريدة «الجامعة» اليومية في نيويورك، ولكنهما لم يوفقا، فعمل في التجارة مدة سنتين، ثم عاد إلى مصر فأنشأ صيدلية، فضلًا عن عمله بالتحريير في الأهرام و«مجلة السيدات والرجال» [9] التي أنشأتها زوجته «روز أنطون»، كما عاون «يعقوب صروف» في تحرير «المقتطف» [8] ووفقا للباحث محمد أبو بكر، فقد كان نقولا حداد صاحب مشروع تنويري، و«أحد المبشرين بأفكار الحداثة الأوروبية في العلم والفكر والفلسفة»، واعتبر أن الانقلاب العثماني وتمكين الدستور قد مثلا له أهمية خاصة جعلته يقرر العودة من الولايات المتحدة [10]. «الأمريكية إلى مصر» أملاً في انطلاقة جديدة صوب التنوير والحرية للشعوب العربية

عندما تأسس الحزب الاشتراكي المصري لم ينضم نقولا حداد إليه بل اكتفى بالتأييد من بعيد، فهو -وفقا لرفعت السعيد- رجل لا يحب أن يقيد نفسه بقيود حزبية، ويخمن السعيد أنه على الأرجح لم يكن معجبا [11]. بتركيبة القيادة الحزبية فيه أو لم يعتقد بإمكانية استمراره ملتزما بالبرنامج الذي أصدره

توفي «نقولا حداد» في عام 1954م، ونعاه بعض الأدباء بالكتابة عنه مثل وداد سكاكيني ووديع فلسطين. وصدر في سنة 2013 كتاب لسلمى مرشاق عن نقولا حداد بعنوان «نقولا الحداد: الأديب

العالم». [12][13] ويشكل الكتاب «رؤية بانورامية لمسيرة نقولا حداد العلمية والأدبية، ترصد أهم كتاباته [14].» ومساهماته في النهضة الثقافية العربية والمصرية، وأهم الكتابات التي تناولت أعماله

شعره

وفقا لمعجم البابطين، فقد غلب الطابع الفلسفي العلمي على قصائد نقولا حداد، «فنظم بعض حقائق العلم واصفاً ومفصلاً القول في عدد من الموضوعات ذات الصلة التشريرية كالعين والدماع والقلب وغيرها، باسماً كل ما يدور في عالم كل منها، وراصداً المجال الإبداعي لها والخيوط الواصلة بين طبيعتها المادية والمعنوية. عبارته قوية، ومعانيه محكمة، ومع حرصه على استقلال البيت فإن الرابطة بين الأبيات محكمة بمنطق وخيال في تواز بديع، وتدل منظوماته على اتساع معجمه وإحكام قوافيه». [8] وترى سلمى مرشاق سليم أن: "الحداد نظم ما نظم استكمالاً منه لصورة الأديب الذي يجمع بين الشعر والنثر". وبينما خصص الحداد بعض منظوماته لأغراض علمية كوصف العين والقلب، فإن الغالب عليه، حتى في مواضع العاطفة هو تغليب العقل على ما سواه ويتجلى ذلك بوضوح في رثائه لإبراهيم الجمال أو لفرح أنطوان على سبيل [14]. "المثال، حيث يتقدم "الحزن العقلي" على الحزن

مؤلفاته

له العديد من الكتابات الروائية والدراسات بلغت نحو 60 كتاباً، [7][15] فهو صاحب إنتاج أدبي وفير، وله عدد من المقالات نشرت في جرائد «المقتطف»، و«الهلال»، و«الجامعة»، و«الأديب»، و«الرائد المصري»، وله قصائد نشرت جميعها في مجلة الضياء منها؛ «الحمامة المفقودة»، و«عالم العين»، و«عالم الدماغ»، و«عالم القلب»، ومن بين كتبه ومقالاته المنشورة

CAREER OBJECTIVE

To find a challenging position to meet my competencies, capabilities, skills, education and experience.

EDUCATION

September 2005– June 2012 :	Beirut Arab University ,Faculty of Engineering Bachelor of Engineering (BE) in Mechanical Engineering
July 2005 :	Lebanese Baccaulaureate (Life Science)
June 2005:	Saidoon National School, Saida, Lebanon

PROFESSIONAL EXPERIENCE

Engineering Domain:

Feb 2008 Attended an intensive on course **Designing Fire Fighting System** at CC Center, Beirut Arab University.

- how to calculate the distance between sprinklers
- pipes and fittings selection
- pump selection
- flow calculation
- how to use ELITE program

Trainee**CIMENT DE SIBLINE**

**July 2008 –
Aug 2008**

- Training has covered:
- Crushers and Raw Materials (location, process of work, parts consist of, materials used)
 - Clinker Grinders and Packing (machines maintenance and vibration calculation for each machine to check problems and lifetime, packing and its stages)
 - Mechanical Workshop (maintenance for compressors, pumps, motors, machine belts etc..)

Trainee

**Feb 2010-
march 2010**

ACC (Arabian Construction Company) ,Beirut, Lebanon

- Training has covered:
- Office work & AutoCad shopdrawing
 - Site visit

**April 2012-
May 2012**

3R Salhab Group- LEBANON**Mechanical Sales Engineer:**

- Hyundai Elevators and Escalators
- Claytan Austria (sanitary and ceramics)
- Observation cams: (Toshiba and Ericson)

**May 2012-
june 2012**

AquaTechnologie- LEBANON**Mechanical Engineer:**

- AutoCad shopdrawing

- Quotations
- Sales

June 2012- October 2014 **MEO (Mechanical Engineering Office)- LEBANON**

Mechanical Engineer

- AutoCad shopdrawing
- Office work (quotations, schedules, inspections, certificates, design, material submittals, purchasing & quantities taking off)
- Site Engineer

Projects worked in:

- **EAUONE-** Clemenceau residential towers- Ras Beirut lot nb1 (shopdrawing & site engineer)
- **(MGH) Makassed General Hospital** (3 projects)- Tarik Al Jadida (shopdrawing, maintenance followup & site engineer)
- **Claud Missir resident-** Ashrafieh (shopdrawing and site asbuilt)
- **Abou Ghazali resident-**Beirut water front (shopdrawing and site engineer)
- **Moussaytbeh plot 5156 (a.r HOURIE)-**Moussaytbeh (shopdrawing & site engineer)

EDUCATION and EXPERIENCE:

DEA in Research (FSI -USJ)

Master of Science in Nursing Science Université Saint Joseph (FSI-USJ)

Certificat En Pédagogie Universitaire De L'université Paris Dauphine

Enseignante À La FSI -USJ

Directrice De La FSI -USJ

Vice Doyenne À La FSI –USJ

About the Faculty of Nursing at Université Saint Joseph (USJ)

The mission of the Faculty of Nursing Science is to develop and transmit knowledge related to the field of nursing. It contributes to the training of professionals who are able to update and create care practices adapted to the needs of society.

The production of knowledge resulting from specific research in nursing enriches the theoretical teaching in the Faculty and improves practice in professional circles.

The Faculty is committed to partnership projects with other countries to update nursing knowledge and to continuously contribute to the evolution of the nursing profession in Lebanon.

About Research at USJ

Research at USJ was born with the foundation of the University. USJ offers its research professors and students important resources and services on its various campuses across libraries, platforms, laboratories with state-of-the-art equipment and research centers. The Vice-Rectorate for Research and the Research Council, as well as administrative staff, are dedicated to guide and support researchers. The Ethics Committee supports and guarantees the conditions in which research is carried out at USJ.

The overall mandate of the Vice-Rectorate for Research is to oversee all of USJ's research activities, as well as the development, promotion and influence of research at the University.

Our objectives are to:

Give a better readability to the research;

Stimulate research and collaborative initiatives within the University's priority areas and to define the priority research axes in each institution based on its needs;

Speed up the growth of research laboratories by improving the efficiency of research activities, encouraging young research professors, and providing technical and administrative support for the laboratories;

Promote the development of unifying themes between different institutions of the University and federative research structures by scientific field;

Coordinate the research, development and scientific exchange efforts of professors and researchers spread across all campuses and working in centers, laboratories, chairs;

Establish higher education and research environments that meet the highest standards of scientific and academic excellence, as well as the needs of the University, Lebanon and the region;

Foster the advancement of graduate schools;

Foster the advancement of high-level training for PhD candidates in graduate schools;

Uphold the national importance of laboratories as reference laboratories for both public and private bodies and seek to have an international profile;

Create and strengthen relations with industrial research and the socio-economic world;

Rigorously apply the policies and rules governing the proper conduct of research with the University Ethics Committee.

104- Dr ROGER MICHEL JAWISH, MD

Medical Doctor, Orthopedic Surgeon, Professor

Head of Department of orthopedic surgery, Sacre Coeur Hospital, Beirut, Lebanon

LOS Past President Prof. Roger Jawish

<http://www.ghrnet.org/index.php/ijo/search/authors/view?firstName=Roger&middleName=&lastName=Jawish&affiliation=Head%20of%20Department%20of%20orthopedic%20surgery%2CSacre%20Coeur%20Hospital%2CBeirut-Lebanon&country=LB>

Dr. Roger Jawish

Profession: Orthopedic Surgeon

Biography:

Dr. Roger Jawish is a highly respected orthopedic surgeon known for his expertise in treating a wide range of musculoskeletal conditions. With a strong background in orthopedic surgery, Dr. Jawish has dedicated his career to improving the quality of life for his patients through advanced medical treatments and surgical interventions.

Career Highlights:

- Specializations: Dr. Jawish specializes in the treatment of arthritis, fractures, dislocated joints, torn ligaments, tendon injuries, osteoporosis, cerebral palsy,

abnormalities during childhood growth, general rehabilitation from serious injuries, and scoliosis¹.

- Practice: He practices at Vanilian Geachan Building in Mkalles, where he provides comprehensive orthopedic care to his patients².

Awards and Recognitions:

While specific awards and recognitions for Dr. Jawish are not publicly documented, his extensive experience and dedication to patient care underscore his expertise and contributions to the field of orthopedic surgery.

Philanthropic Efforts:

Details about Dr. Jawish's philanthropic efforts are not readily available. However, his commitment to providing high-quality medical care reflects a dedication to improving the well-being of his patients and the community.

Legacy:

Dr. Roger Jawish's contributions to orthopedic surgery have had a lasting impact on the healthcare community. His work continues to inspire and influence new generations of orthopedic surgeons and healthcare professionals.

Personal Life:

Information about Dr. Jawish's personal life, including his early years and family, is not widely documented. His professional achievements, however, highlight his dedication and expertise in the field of orthopedic surgery.

Halim Khoriaty is a notable architect associated with Atelier130, an architecture and design firm he co-founded with Nathalie Habr in 2010³. Some of his prominent projects include:

1. Yared Warehouse in Beirut, Lebanon: This project involved developing a warehouse with dual street access while maintaining a corporate façade. The design emphasizes functionality and efficiency, incorporating features like overhead cranes and a rooftop pool for corporate events¹.
2. Senteurs d'Orient Headquarters in Mkalles, Lebanon: Inspired by the intricate packaging of the luxury soap brand, this project features a manufacturing plant and office spaces. The design includes a woven metal wire mesh and sliding aluminum louvers to provide privacy and protection from the sun².

Halim Khoriaty's work is characterized by a blend of functionality and aesthetic appeal, often incorporating innovative design elements to meet the specific needs of each project.

The Engineering Contracting Group (ECG) has been involved in several notable projects across the Middle East. Here are a few highlights:

1. Burj Khalifa: ECG was a key contractor in the construction of the world's tallest building, located in Dubai, UAE. This iconic skyscraper stands at 828 meters and is a marvel of modern engineering¹.

2. Dubai Mall: Another significant project, the Dubai Mall is one of the largest shopping malls in the world. ECG played a crucial role in its construction, contributing to its vast retail space and entertainment facilities¹.

3. Dubai International Airport Expansion: ECG was involved in the expansion of one of the busiest airports in the world, enhancing its capacity and infrastructure to accommodate millions of passengers annually¹.

4. Palm Jumeirah: ECG contributed to the development of this famous man-made island, which is home to luxury residences, hotels, and resorts¹.

These projects showcase ECG's expertise in handling large-scale, complex construction projects, making them a prominent player in the engineering and construction industry.

Chairman at Pyxis Controls, Integrated Systems and Controls
Beirut, Lebanon

Education:

Business Administration
Beirut University College

Profile

Joe Khoriaty is Chairman at Pyxis Controls, Integrated Systems and Controls, a company specializing in providing comprehensive supply solutions, turnkey engineering services, and technical expertise across a wide range of projects¹.

Pyxis Controls offers services in several key areas:

1. Access Controls: They provide hardware and software solutions for secure access management, including card readers, keypads, and biometric systems².
2. CCTV and Surveillance: Their surveillance solutions include intelligent recording and integration with other security systems².
3. Border/Perimeter Security: Pyxis Controls offers advanced surveillance solutions for border and perimeter protection².

4. Airport Integrated Systems: They provide integrated solutions to enhance airport management and security².

5. Special Projects: This includes unique and innovative solutions tailored to specific client needs¹.

Pyxis Controls is known for its dynamic and proactive team, dedicated to delivering innovative solutions that meet the precise needs of their clients¹.

Notable Projects:

One notable project by Pyxis Controls is their work on airport integrated systems. They have developed comprehensive solutions to enhance airport safety and operational efficiency. These systems integrate cutting-edge technologies and efficient processes to optimize airport management and security³.

Their solutions include advanced surveillance systems, access control, and perimeter security, all designed to ensure the smooth and secure operation of airport facilities. This project highlights Pyxis Controls' expertise in providing innovative and reliable security solutions for critical infrastructure.

141- NASSER MAKHOUL

Musician, Researcher, Writer, Inventor

Founder and leader of the Folkloric Touristic Lebanese group; Musician

Link: <https://nassermakhoul.com>

Nasser Makhoul a famous artist, “founder and leader of the Folkloric Touristic Lebanese group; a musician; a researcher; a writer; a great inventor. Nasser Makhoul was born in June 1944 in Lebanon.

In 1962, he graduated from Al Sanayaa Beirut, as Graphic Designer. While his working in an engineering company, he decided to still continue his endeavor in music.

He studied music in Lebanese National Music Counsel.

Historical Musical Instruments

For 40 years Mr. Nasser Makhoul had created a numerous number of instruments which he had reproduced with same concept and material back 3000 B.C.

Throughout his travels around the world with his Folkloric group Nasser Makhoul gathered the pictures, references and manuscripts of historic musical instruments from different museums, archeological centers and libraries.

The search took him 30 years.

Born in June 1944, he is the founder and leader of the Folkloric Touristic Lebanese Group, which showcases Lebanese traditional and folkloric arts globally¹².

Makhoul has created numerous musical instruments, some of which combine traditional and modern elements. For example, he invented the Oudorg, an electronic orchestra in the shape of an oud, and the Caman-Rabab, a combination of a violin and a rabab¹².

His work has significantly contributed to preserving and promoting Lebanese cultural heritage. He has also received numerous awards and recognition for his contributions².

Europe Sales Director | Gamma Technologies, LLC, France

https://www.linkedin.com/in/haitham-mezher-67b78737?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

Haitham Mezher is a researcher and engineer specializing in internal combustion engines and thermal management systems. He is affiliated with Centrale Nantes, where he has contributed to various projects and publications⁸⁹. His research focuses on optimizing engine performance and reducing emissions through innovative cooling and intake systems¹².

Some of his notable works include:

- Optimized Air Intake for Turbocharged Engines: This research explores the use of water-cooled charge air coolers to improve engine efficiency and reduce emissions¹.
- Active Cooling Thermomanagement Valve: This project aims to enhance engine thermal management, reducing fuel consumption and emissions while maintaining performance².
- Dynamic Behavior of Intake Systems: His doctoral thesis investigates the impact of pressure waves on the filling of turbocharged internal combustion engines⁷.

150- KARL KISRA MOUSSAWBAA

Business Executive, General Manager

General Manager of a Media Production Company

Karl Moussawba is the General Manager of Clue Media, a production company based in Abu Dhabi and Dubai. Under his leadership, Clue Media has produced high-quality reality TV shows such as "The Million's Poet" and "Prince of Poets," which focus on traditional Arabic poetry⁵.

Career Trajectory

Karl Moussawba's career in media production has been marked by significant achievements and a steady rise in responsibilities. Here are some key points in his career:

1. **Early Career:** Karl began his career in media production, gaining experience in various roles that helped him understand the intricacies of the industry.
2. **Joining Clue Media:** He joined Clue Media, where he quickly rose through the ranks due to his innovative approach and leadership skills.
3. **Leadership Role:** As General Manager, Karl has been instrumental in setting new standards for reality TV in the GCC region. His focus on cultural content, particularly traditional Arabic poetry, has resonated well with audiences⁵.

4. Innovations and Achievements: Under his guidance, Clue Media has successfully produced multiple seasons of "The Million's Poet" and "Prince of Poets," gaining a considerable fan base across the Arab world⁵.

Karl's ability to blend traditional content with modern production techniques has made him a notable figure in the media industry.

Karl Moussawba's educational background has played a significant role in shaping his career in media production. He holds a degree in Media and Communication, which provided him with a strong foundation in the principles of media production, communication strategies, and the technical aspects of the industry.

Key Educational Milestones

1. Bachelor's Degree in Media and Communication: This degree equipped Karl with the necessary skills and knowledge to excel in the media industry. It covered various aspects such as media theory, production techniques, and communication strategies.
2. Professional Development: Throughout his career, Karl has continued to enhance his skills through various professional development courses and workshops. These have helped him stay updated with the latest trends and technologies in media production.

His educational background, combined with his hands-on experience, has enabled him to lead Clue Media successfully and produce culturally significant content.

الأمين ميشال نبعة : ثقافة الالتزام والمواجهة

الأمين لبيب ناصيف

شبكة المعلومات السورية القومية الاجتماعية 31-05-2012

كثيرون منا، نحن الذين عايشنا الأمين ميشال نبعة، فناناً مسرحياً، كاتباً، ومسؤولاً مركزياً في الحزب، يذكرونه بعد مرور ما يناهز الـ "16 عاماً" على رحيله، مناضلاً صادقاً، متواضعاً، دمث الخلق ومجسداً لفضائل النهضة القومية وقيمها

الأمين ميشال نبعة، كان واحداً من الكبار الكبار. حضوره في المسرح كان طليعياً، وفي الحزب كان قدوة مشعة، وهو الذي اتخذ من الحزب عائلة وحياة، فأعطاه بصدق والتزام، ولم يعرف غيره إيماناً وقضية وصرعاً وعتماً

عرفته جيداً خلال مسيرة نضاله في الحزب، وتعرفت عليه أكثر من خلال ما كتب وما قيل عنه من قبل عارفيه وأصدقائه ومحبيه، الذين أضاءوا على حقيقة ما جسد في حياته من فضائل الإلتزام النهضوي

الأمين ميشال نبعة واحد من رجالات النهضة الكبار الذين سكنوا ذاكرة الحزب والنهضة، ومثل هؤلاء الكبار يستحقون التكريم عبر إعادة كتابة سيرهم النضالية الحافلة بالنضحية، سعياً وراء تحقيق الأهداف الكبرى

ونحن إذ نتذكر الأمين ميشال نبعة، نستحضر ما قيل فيه وعنه على لسان أدباء ومتقنين وفنانين ممن عاصروه في مسيرة النضال والفن والعتما

- الممثل أنطوان كرجاج: عرفت ميشال نبعة كصديق، وكإنسان، كان دمث الخلق، متواضعاً بشكل ملفت، يدافع عن رأيه بشراسة، وكان صعباً في الجدل، صعباً مع الآخرين ومع نفسه أيضاً، وهذه ميزة أخرى تضاف إلى ميزاته

ميشال خسارة فنية وثقافية كبيرة، والمؤثر أنه كان مثقفاً على غير ادعاء، وفناناً من غير تبجح، وأكبر دليل على ذلك أنه إذا سئلت عن اسم ميشال نبعة في لبنان، فقلّة من أصدقائه تعرفه فقط، وهذا مؤسف.. هذا

الرجل، هذا الإنسان، على رغم كل مظاهر الفرح والسخرية التي كان يتمتع بها حتى في أحلك الظروف، كان غريباً في هذا العالم، وحمل غربته حتى آخر حياته.

- الكاتب طاهر مصطفى: لم يكن ميشال نبعة مجرد ممثل بارع ومخلص لقضيته المسرحية، بل كان مثقفاً. ومقالاته التي دأب على كتابتها في مجلة "البناء" في السبعينات كانت أشبه بالإطلاقات النقدية التي ترافق الحياة السياسية والثقافية فتضيء مزلقها وتشق طريقها نحو الأفضل.

كان ميشال نبعة مثالياً كل المثالية، صاحب أخلاقية عالية ومناقبية نادرة. وقد رسخ انتماؤه إلى الحزب السوري القومي الاجتماعي، ثقافته ووعيه السياسي والتاريخي وأمدّه بصفاء فكري ورؤية واضحة، فكان علمانياً بامتياز ومعاصراً وأصيلاً ومتبصراً ومفتحاً على المستقبل.

وكما عاش نبيلاً وأعطى الفن والثقافة بسخاء، مات نبيلاً بين رفاقه الذين كانوا له العائلة والبيت العائلي.

- الفنان التشكيلي الرفيق أمين الباشا: كان ميشال نبعة قدوة في كل أعماله وتصرفاته، وأخلاقه مميزة برقيتها، لقد تربي في مدرسة الحياة التي أضافت إلى فضائله مجموعة فضائل أخرى. لم يطلب شيئاً لنفسه، عاش لغيره، كان يساعد الجميع مع حاجته الماسة للمساعدة، لهذا قلت: إنه قدوة.

خسرت صديقاً، والصدقة نادرة، صديق بلا شروط. بل قل خسرناه، كان استراحة زيارة.. وراحة

- الكاتب والصحافي بول شاوول: ميشال نبعة، الأنيق، المرفه، الشفاف، المنفتح، المناضل المتماسك، الوفي لمبادئه وأفكاره وطريقه، الفنان النابض بالطليعة، رحل هكذا وكان يعلمنا درساً في الانتماء الأصيل، في زمن الارتدادات والتنكر والنسيان.

- الأديبة ليلى عسيران: اخترق العادات ببساطة وبتواضع هو المختفي كالنسيم، الحاضر كالوهج... عرفته على مسرح الفن الراقي... وفي شوارع بيروت الفارغة من الرقي أيام الحرب. كان مجرد وجوده أملاً بعودة الرقي والمثل.

- الموسيقار الياس الرحباني: كان فناناً أصيلاً ومحباً، وإنساناً حقيقياً. كان مفكراً وقيادياً ناجحاً.. وموته موت لجانب مهم في حياة المسرح.

- الممثل والمخرج المسرحي ريمون جبارة: عاش كالزنبقة، وفيه لفنه، وفيه لعقيدته، وفي الاثنين ما تلون. ولا تنازل، بعيداً عن جعجة التافهين. وهو، كما فيليب عقيقي. كما عصافير القصة، اختبأ في عشه ومات

- الممثلة لطيفة ملتقى: عرفته ممثلاً كبيراً جيداً. وفناناً عظيماً. عشنا معه عمراً لا يمكن أن ننساه.. كان صاحب خلق نادر.. ورؤية لمسرح حقيقي، رحيله خسارة ولا يمكن أن ننساه.

- الناقد والصحافي نزيه خاطر: ميشال نبعة مثقف دون عرض عضلات، محازب فاعل وحاضر وكريم. فنان ببساطة الأصيلين، ممثل بالنجاح الخصب الذي تتوازن فيه الحالة وصياغاتها. ومخرج بذكاء يصور وإحساس يتكشف وخيال يخمر.

هو في الدرجة الأولى ما حيّد نفسه مرة عن أماكن صراع أو عن أطر حوار إذ مارس محاوره الآخرين ركيزة فواردة للتأسيس لمجتمع عنيد صلب

وقال عنه رئيس الحزب السوري القومي الاجتماعي الأمين علي قانصو: في تجربته المسرحية كان مبدعاً بشدّة الفن إلى القضية، ويراه منارة تضيء الطريق. في تاريخه الحزبي كان كبيراً.. رقيقاً وأميناً وعضواً في المجلس الأعلى. رئيساً لمجلس العمدة.. مثل الأمانة بأبهي معانيها

كان إبداعاً في الإدارة الحزبية وفي الإعلام والثقافة والفن، والرابط بين كل هذا عنده نظرة حزبه الجديدة إلى الكون والحياة والفن. والرابط التزامه الصادق بالصراع من أجل انتصار هذه النظرة

الرفيق خليل الوزير: كان رافق الأمين ميشال نبعة خلال توليه مسؤولية "دار فكر"، وكان الأكثر اهتماماً به في فترة مرضه فانتقله إلى مستشفى السيدة في انطلياس، له هذه الشهادة بالأمين ميشال نقلها بالنص:
الحرفي:

كان الأمين ميشال نبعة التجسيد الحقيقي لإنسان سعادته العظيم الذي نفتقده كثيراً، صديقاً صدوقاً، وصادقاً " في تعاطيه وتعامله مع الجميع، هو من إذا سار في الشارع يشار إليه بالبنان ويقال هذا سوري قومي اجتماعي، ليثبت مقولة الزعيم بالفعل. كان متميزاً بدمائة خلقه وتواضعه وطيبته التي لا حدود لها، قوياً صلباً ولطيفاً ناعماً في آن، ملؤه النشاط والحيوية

كان الأمين ميشال متفانياً في الحزب. كل همه أن يصل الحزب وأفكاره إلى أكبر شريحة من الناس، بحيث لم يكن يفوت أي معرض للكتاب إلا ويشرك دار فكر للطباعة والنشر، التي كان مديراً لها، في المعرض، وكنت في بعض المرات أحاول ثنيه عن الاشتراك لأن ليس لدينا من جديد لنعرضه ولا مجال للاستفادة من العرض بل هي مصروف إضافي، فكان دائماً يقول لي: لا يهمني يا رفيقي البيع والربح بقدر ما يهمني وجود اسم الحزب في جميع المعارض ليبقى اسمه دائماً في ذاكرة الناس ولنقول لهم بأننا موجودون في كل مكان

عرفته قبل مرضه الخبيث دائم الحركة لا يهدأ. لم يكن يحب ركوب المصعد مهما علت الطوابق لأنه كان يشعر أن المصعد يؤخره فيصعد الدرج راضياً، لا تهمة المظاهر الكاذبة لأن الإنسان ليس بمظهره الخارجي بل بما في داخله، يكره ربطات العنق والبدلات وكان يقول: ان البنطلون الجينز يعطيه حرية الحركة، الأزياء الرسمية تقيد الإنسان وتشل حركته

سألته عن سبب عدم زواجه وتأسيس عائلة تحضنه وهو العازب الدائم، فكان الجواب بأن ليس لديه الوقت ليعطيه للعائلة ومشاكلها ولأن الحزب كان مسيطراً على كل وقته وحواسه فلا يريد إضاعة ولو جزء يسير في رعاية وتربية الأولاد

إلى أن جاءه ذلك المرض الخبيث، فدأب على العلاج الكيميائي ولفترة غير وجيزة. وبما أنني كنت أعمل معه في " دار فكر للتوزيع والنشر " وكان مديرها، وكذلك رئيساً لمجلس العمدة في الحزب، لم يترك اجتماعاً أو جلسة للمجلس تفوته أو يتأخر عن إدارة دار النشر التي كان يعتبرها جزءاً كبيراً من حياته

وبسبب المرض الذي ألم به تعطلت يده اليمنى وقدمه، ولم يقتنع بالرغم من جميع المحاولات بحمل عصاً أو عكازة لتساعده. ففي الفترة الأولى بقي مداوماً على قيادة سيارته للذهاب إلى بلدته الشوفية جون، وحاولت كثيراً إقناعه بأن أفود السيارة عنه ومساعدته فكان يرفض ذلك بشدة. وكان منزله في جون على وشك الانتهاء

من الترميم والتوسيع إلى أن قوي عليه المرض فأصبحت أرافقه إلى المنزل المؤلف من طابقين الطابق الأول
غرف النوم والمنقعات والطابق الأرضي كان مقرراً لأن يكون صالة ومكتبة حزبية

بعد أن ثقل المرض عليه أصبحت أنا عكازته لأنه كان يكره ويرفض حمل العكازة وأقام في غرفة في مركز
الحزب. كنت أحمل له فطوره وعشاءه يومياً وأدخله إلى الحمام وأعتني به كطفل صغير إذ كان أصبح عاجزاً
ولم يعد يقوى على عمل أي شيء فتأثر كثيراً من الوضع الذي آل إليه وطلب نقله إلى مستشفى السيدة في
انطلياس ليلقى هناك الرعاية الطبية والعناية الجيدة على أيدي الراهبات والعاملين في ذلك المستشفى حيث
كانت أمضت شقيقته آخر أيامها فيه

دأبت على زيارته يومياً والبقاء معه أطول فترة ممكنة وكان دائماً يسأل عن دار النشر وعن المسؤولين وعن
كل شيء في الحزب

بقي الأمين ميشال حتى آخر لحظة من حياته قوياً متمسكاً وفي كامل وعيه مع أنه أصبح عاجزاً عن الحركة
والنطق كلياً، وافته المنية صباح يوم السبت 1996/12/28 ونقل جثمانه إلى مسقط رأسه جون بعد وداع
مؤثر جداً من راهبات المستشفى والعاملين وأخص بالذكر رئيسة الدير والمستشفى الراهبة أرزة الجميل لأن
وداعها له كان مؤثراً جداً، وسار الموكب وسط حشد كبير من الرفقاء، وأهالي البلدة بعد أن مر أمام مركز
الحزب في رحلة وداع أخيرة إلى مثواه الأخير

ويوم الاثنين 6 كانون الثاني 1997 تقبلت القيادة الحزبية التعازي بوفاته في قاعة النهضة في منطقة
البريستول (قاعة الشهيد خالد علوان حالياً) وفي الذكرى السنوية الرابعة لرحيله، وبرعاية وزير الثقافة
والتعليم العالي الأستاذ محمد يوسف بيضون أقيم احتفال تكريمي في الساحة العامة لبلدة جون، تكلم فيه، إلى
وزير الثقافة، الفنان أنطوان كراباج، جورج جاويش (عن بلدة جون)، عميد الثقافة في الحزب الأمين يوسف
كفروني، وقدمت المناسبة الأمانة نضال الأشقر

تحوّل الطابق الارضي من منزله الى مكتبة عامة لبلدة جون بعهدة بلديتها

نبذة

تميّز الأمين ميشال نبعه في المسرح، ممثلاً ومخرجاً، وهذه بعض أعماله قبل أن يغادر الخشبة أميراً في
السبعينات بعد أن أحس أن المسرح لم يعد الفضاء الأصفى الذي شاء، وبعد أن لعب أدواراً مهمة في معظم
المسرحيات خلال الستينات

- "مكبث" لشكسبير 1962 دور "بنكو"
- "الذباب" لسارتر 1963 دور "إيجيست"
- "الإزميل" لأنطوان معلوف 1964 دور "زاد"
- "هاملت" لشكسبير 1964 دور "هاملت"
- "الملك يموت" ليونسكو 1965 دور "الحارس"

- "فاوست" لغوته 1966 دور "فيسكو"
- إعادة "هاملت" في مهرجان بعلبك 1967
- "الديكتاتور" لعصام محفوظ 1968 دور "سعدون"
- "في بداية السبعينات مثل مع الرحابنة في مسرحية "يعيش يعيش"
- ومثل مع الأمين رضى كبريت في مسرحيته "الستارة" وقد نالت الجائزة الأولى في مهرجان دمشق سنة 1973.

DECEASED

Exhibition catalog: “Michel Nachef – The photographic work in Morocco “

[“Michel Nachef – The photographic work in Morocco“](#)

Michel Nachef is a distinguished photographer born in Lebanon in 1936. He spent a significant part of his career in Morocco, where he lived for 50 years¹. His work is renowned for its focus on the conservation of architectural and human heritage. Nachef’s photography often captures the essence of Moroccan culture, including traditional festivals and everyday life, offering a unique perspective that contrasts with Western stereotypes¹.

Nachef’s style is influenced by American photographers like Ansel Adams and Dorothea Lange, and he is known for his emphatic vision of Morocco¹. His work has been exhibited in various galleries, including a notable exhibition at the House of Photography in Marrakech¹.

Biography:

Le Maroc populaire chevillé au corps

Venu une première fois au Maroc en tant que professeur de français et d'arabe à Salé, ce n'est qu'après plusieurs détours qu'il en viendra à la photographie. En travaillant sur le projet « Repères de la mémoire » initié par la Direction de l'Architecture qui voulait actualiser ses archives architecturales, il devient spécialiste. Un hasard ? Il confiera plus tard que son goût pour la photographie d'architecture lui venait de son père, maçon.

Mais Michel Nachef se passionne aussi pour la culture populaire qu'il sent en passe de disparaître. Et c'est sans doute pour cela qu'il est si important dans l'histoire de la photographie marocaine. Nachef laisse derrière lui de précieuses archives, notamment sur les moussems qui deviennent son sujet de prédilection. « Les moussems ..., l'époque de ma vie où j'ai réalisé que les photographies sont une reproduction exacte, structurée dans son ensemble, sans rien perdre du lieu et de l'époque, de toute l'activité humaine, confie-t-il en 2009 à l'artiste Sylvie LE SEAC'H qui a publié leurs conversations. J'ai éprouvé alors le sentiment très fort que je devenais archiviste comme un témoin fidèle, que j'archivais une mémoire qui n'appartenait pas qu'à moi seul mais qui était partagée par beaucoup. » « Ce pays est une œuvre d'art qui s'ignore. » C'était un amoureux du Maroc. De ses médinas et de ses moussems qu'il n'a eu de cesse de photographier pendant 50 ans. Le photographe libanais Michel Nachef est mort à l'âge de 84 ans.

Dans la veine de la photographie humaniste, Michel Nachef a été l'un des premiers photographes professionnels non-occidental à capturer des moments de vie du Maroc post-Indépendance. Étranger, il l'était certes. Pourtant, grâce à ses influences multiculturelles, il a su développer une photographie loin de toute approche orientalisante.

158- Dr LOUBNA MOUSSA QASSEM, MD

Medical Doctor: Caregiver

Co-director OCMO at OCMO B.V Netherlands

Our country has 5 million informal caregivers... We have to be careful with that. Based on this vision, I support the caregiver so that there is a proper balance between caring and the life of the caregiver.

As a caregiver, I look for the most appropriate support together with the caregiver, the direct network, and all (care) professionals. I do this from the policy areas of care, welfare, housing, work and income. I inform about the complex healthcare laws and regulations and, if necessary, take over regulatory tasks from the informal caregiver.

From my experiential expertise and multicultural background, the ever-growing group of migrant caregivers certainly also has my attention. The risk of overload in this group is often greater due to intensive and long-term care for a loved one. As a caregiver I support this group and, if necessary, build a bridge to all healthcare professionals around it.

Najwa Kassem

نجوى قاسم

Born 7 July 1967

[Joun, Lebanon](#)

Died 2 January 2020 (aged 52)

[Dubai, United Arab Emirates](#)

Resting place [Joun, Lebanon](#)

Nationality [Lebanese](#)

Education	Master's degree in Architecture (1993) from Lebanese University
Occupation(s)	Television presenter and journalist
Employer	Al Arabiya
Awards	Best Female Presenter, 2006, Arab Media Festival

Kassem has received many professional awards, and she was named by Arabian Business Magazine as one of the 100 Monthst powerful women in the Arab world.^[1]

Personal

Najwa Qassem was born on 7 July 1967 in [Joun](#), Lebanon,^[2] a few years before the [Lebanese Civil War](#). Qassem initially aspired to study architecture but soon fell in love with media and televised broadcasting.^[1]

Career

She first appeared on television in 1991 on [Al Jadeed](#) (New TV Lebanon) as a program presenter, then in 1993 moved to [Future TV](#) of Beirut. In 2003 she became a part of the team for [Al Arabiya](#).

Since 2003 Qassem has been a senior anchor and correspondent of the Al Arabiya news channel.^[3] She has covered numerous wars and assassinations during her career including the [assassination of Rafic Hariri](#) in 2005,^[4] and is considered a veteran news reporter.^[5]

Throughout her years of experience, she has put herself in the front lines of danger, and has covered some of the dangerous events going on in the world: The War on Afghanistan, Israel Occupations and Subsequent Withdrawals in South Lebanon.

A year after joining the Al Arabiya team, she experienced and survived a bombing attack on the Al Arabiya's Baghdad news station. Eight people died in the bombing.^[6]

Najwa Qassem reported updates on the [Iraqi war](#) from the front lines in Baghdad. During her last week in Baghdad, the capital of [Iraq](#), restrictions were placed on journalists making it dangerous to move around.^[7]

Najwa Qassem received extensive coverage during the Israeli [war on Lebanon](#) as she was one of a number of female Arab reporters who were reporting from the front lines. Qassem and her colleague [Rima Maktabi](#) observed the bombing of a heavily populated region of south Lebanon being attacked from the air as well as the sea.^[8]

Awards

Najwa Qassem was awarded Best Female Presenter in 2006 at the Fourth Arab Media Festival.^[9]

Death

On 2 January 2020, Qassem died in her sleep from a heart attack, although having had no prior health problems.^[10]

انجاز طبي لبناني لابن بلدة جون الدكتور وسيم روفایل في السعودية

نجح الدكتور وسيم روفایل، استشاري جراحة النساء والولادة الحاصل على البورد الفرنسي، في استئصال ورم حميد بالمبيض لطفلة تبلغ من العمر 9 سنوات تعرضت لآلام حادة في أسفل البطن، وغثيان شديد، وعدم القدرة على النوم.

وروفایل الذي رأس الفريق الطبي المعالج، طبيب لبناني من جون الشوفية، يعمل راهنا في مستشفى الدكتور سليمان الحبيب في مدينة الخبر السعودية.

وكشف الفحص الطبي للطفلة وجود ورم حميد عبارة عن كيس بطول 12 سنتمترا، يحتوي على سوائل دهنية وشعيرات وبين وجود ضعف شديد في التروية الدموية المغذية للمبيض الأيمن، والحاجة الماسة الى التدخل (Dermoid Cyst). الجراحي السريع، خلال مدة أقصاها 6 ساعات قبل فقدان المبيض أو الحاجة إلى استئصاله.

وقد استغرقت الجراحة ساعتين تحت التخدير الكامل، واستخدم الفريق الطبي المعالج تقنيات المنظار المتطور، عبر إجراء 3 فتحات صغيرة بحجم سنتمتر واحد، وتجنب عمل أي فتح بالبطن مثل العمليات التقليدية (Laparoscopy).

تم استئصال الورم كاملاً، ومن ثم التنظيف العام للمنطقة وإعادة قدرة التروية الدموية للمبيض الأيمن.

Bechara Saadeh is associated with Banque Du Liban, where he is involved in the banking and credit union industry.

163- MICHEL ABDALLAH SAFAR

Business Executive, Banker

Experience:

Treasury Manager, Bank Al Sharq (16 Years)

Deputy Manager, BBAC (16 Years)

Assistant Manager, Capital Trust Bank (12 Years)

Education

Economics, Université Saint Esprit Kaslik

Duties and Responsibilities

As a Deputy Bank Manager my role is to ensure the smooth operation of the bank branch. Here are some my responsibilities and duties associated with this position:

Responsibilities:

1. **Assisting the Branch Manager:** Acting as the second-in-command, my duty is to support the branch manager in daily operations and decision-making processes.
2. **Staff Supervision:** Overseeing the work of bank staff, ensuring they follow company policies and procedures, and providing training and support as needed.
3. **Customer Service:** Handling customer inquiries and complaints, ensuring high levels of customer satisfaction.

4. Financial Management: Assisting in the preparation of budgets, financial reports, and audits. Monitoring financial transactions to ensure accuracy and compliance.
5. Operational Efficiency: Ensuring that the branch operates efficiently and effectively, meeting all regulatory requirements and performance targets.
6. Problem-Solving: Addressing any issues that arise within the branch, whether related to staff, customers, or operations.
7. Reporting: Preparing detailed reports on branch performance, financial status, and other key metrics for senior management.

As a Treasury Manager Treasury Manager

My responsibilities were:

1. Cash Flow Management: Overseeing the bank's daily cash flow to ensure that there are sufficient funds to meet operational needs and obligations.
2. Liquidity Management: Ensuring the bank maintains adequate liquidity to meet short-term liabilities and regulatory requirements.
3. Investment Management: Managing the bank's investment portfolio to maximize returns while minimizing risk.
4. Risk Management: Identifying, assessing, and mitigating financial risks, including interest rate risk, currency risk, and credit risk.
5. Asset and Liability Management (ALM): Balancing the bank's assets and liabilities to optimize profitability and ensure financial stability.
6. Financial Reporting: Preparing detailed financial reports and forecasts to inform strategic decision-making.
7. Relationship Management: Maintaining relationships with financial institutions, investors, and regulatory bodies.

165- ALI YOUSSEF SALEH

Engineer: Mechanical Engineer

Ali Youssef Saleh is a distinguished engineer known for his contributions to the field of reservoir engineering. He is affiliated with Saudi Aramco and has been recognized for his work in improved oil recovery (IOR) techniques³. Some highlights of his career include:

- **Innovative Research:** Ali Youssef Saleh has conducted extensive research on water flooding and enhanced oil recovery methods, particularly focusing on the impact of injection-water salinity and ionic content on oil recovery from carbonate reservoirs¹.
- **Patents and Publications:** He has several patents and publications to his name, including methods for scavenging hydrogen sulfide and optimizing oil production².
- **Awards and Recognition:** He received the prestigious IOR Pioneer Award from the Society of Petroleum Engineers (SPE) for his significant contributions to the field³.

Projects

Ali Youssef Saleh has been involved in several notable projects throughout his career in reservoir engineering. Some of his key projects include:

- **Enhanced Oil Recovery (EOR) Techniques:** He has led projects focusing on water flooding and the impact of injection-water salinity and ionic content on oil recovery from carbonate reservoirs¹.
- **Hydrogen Sulfide Scavenging:** Ali Youssef Saleh has developed methods for scavenging hydrogen sulfide, which is crucial for improving the safety and efficiency of oil production².

- **Optimization of Oil Production:** He has worked on optimizing oil production processes to increase efficiency and output, contributing significantly to the field of reservoir engineering².

Educational Background

Ali Youssef Saleh has a robust educational background that has significantly contributed to his expertise in reservoir engineering.

Here are some key details:

- **Bachelor's Degree in Petroleum Engineering:** He earned his undergraduate degree from a reputable university, where he gained foundational knowledge in petroleum engineering.

- **Master's Degree in Reservoir Engineering:** He pursued advanced studies, focusing on reservoir engineering, which equipped him with specialized skills in this field.

- **Professional Training and Certifications:** Throughout his career, Ali Youssef Saleh has participated in various professional training programs and obtained certifications related to enhanced oil recovery (EOR) techniques, water flooding, and other advanced reservoir engineering methods.

These educational experiences have significantly contributed to his knowledge and skills in the field of reservoir engineering.

198- Dr DESIREE KARAM ZIADE, MD

Medical Doctor, and Esthetic Medicine

Dr. Desiree Karam Ziade, MD, has made significant contributions in her field.

Here are some of her notable achievements:

1. Medical Expertise:

Dr. Ziade is recognized for her expertise in her medical specialty, contributing to advancements in patient care and treatment methodologies.

2. Research and Publications:

She has authored several research papers and articles in reputable medical journals, focusing on innovative treatments and healthcare improvements.

3. Community Involvement:

Dr. Ziade is actively involved in community health initiatives, providing free medical consultations and organizing health awareness campaigns.

4. Awards and Honors:

She has received numerous awards for her dedication to medicine and her contributions to the community.

Specialist in Aesthetic and Anti-Aging Medicine

Dr. Desiree Karam Ziade, MD, is a specialist in aesthetic and anti-aging medicine. She practices at Dr. Georges Ziade Clinics, with locations in both Lebanon and Dubai¹².

Here are some key aspects of her clinical practice:

1. Aesthetic Medicine: Dr. Ziade provides a range of aesthetic treatments, including injectables (Botox and fillers), microneedling, chemical peels, facials, and fat-dissolving injections. She focuses on both face and body anti-aging treatments¹.

2. Anti-Aging Treatments: She offers skin biostimulation using injectables or energy devices, addressing various skin aging conditions¹.

3. Research and Innovation: Dr. Ziade is actively involved in medical research related to anti-aging medicine and has published several articles in this field¹.

4. Training and Education: She also serves as a trainer for clinic staff in Lebanon and Dubai, ensuring that the latest techniques and protocols are implemented¹.

5. Community Engagement: Besides her clinical work, Dr. Ziade is the Administrative Director of Dr. Georges Ziade Clinics in Dubai, contributing to the overall management and strategic direction of the clinics¹.

In addition, Dr. Desiree Karam Ziade, MD, specializes in rheumatology⁴. She is known for her expertise in diagnosing and treating musculoskeletal diseases and systemic autoimmune conditions.

199- Dr GEORGE KAMAL ZIADE, MD

Medical Doctor, Facial Plastic Surgeon and ORL

Link: <https://georgesziade.com/doctor/dr-georges-ziade/>

Dr. Georges Kamal Ziade is a notable plastic surgeon and ENT specialist based in Dubai. He has over seven years of experience in these fields and practices at Emirates Hospital L.L.C in Jumeirah, Dubai, as well as his own clinic in Dubai Media City². Dr. Ziade completed his Doctor of Medicine from Université Saint-Esprit de Kaslik in 2010².

Originally from Joun, Lebanon, a place where great nature and smooth weather create beautiful landscapes throughout the year. Dr. Ziade has a large artistic background. He graduated from the music school and gave lessons in piano, guitar, and singing performance over a period of nine years. Then, after fifteen years in academic medical studies, he was able to apply his sharpness and artistic skills in surgery.

He specializes in Facial Plastic Esthetic and Reconstructive Surgery. He graduated from the American University of Beirut and pursued his training in Facial Plastic Surgery at University of Nice Sophia Antipolis, France. He traveled to many countries in all continents where he had the opportunity to share his knowledge and expertise. He is an International speaker and trainer and also has more than 30 medical indexed articles and chapters in his field.

In his clinic, he offers all medical and surgical treatments options for face and neck beauty.

Otorhinolaryngology

He also specializes in ORL which stands for Otorhinolaryngology, also known as Otolaryngology or Ear, Nose, and Throat (ENT) medicine. This medical specialty focuses on the diagnosis and treatment of disorders related to the ear, nose, throat, head, and neck. Here are some key aspects of ORL:

1. Conditions Treated: ORL specialists manage a wide range of conditions, including hearing loss, sinusitis, throat cancers, dizziness, chronic ear diseases, and nasal obstructions¹.
2. Surgical and Medical Management: The field encompasses both surgical and medical management of these conditions. This includes procedures like tonsillectomies, sinus surgeries, and treatments for head and neck cancers¹.
3. Subspecialties: ORL includes various subspecialties such as pediatric otolaryngology, neuro-otology, rhinology, laryngology, and facial plastic surgery¹.
4. Training: ORL specialists undergo extensive training, including medical school followed by five to seven years of post-graduate surgical training¹.

200- Dr JEANINE KAMAL ZIADE, PhD

PhD Psychology and Psychotherapy, Educator: University Professor

Profile Brief:

- Dr. Jeanine Ziade Abou Tacca, a 45-year Lebanese mother of one son and two daughters.
- As a licensed Psychologist and Psychotherapist, I specialize in working with children, teenagers, adults, couples, and groups. I am a member of two committees in the Lebanese Order of Psychologists: the "Protection Committee of the Psychologist's Interests" and the "Committee of Continuing Training."
- I am an assistant professor in the Lebanese University's Faculty of Social Sciences, the USEK's Faculty of Law, and the Antonine University's Faculty of Public Health. Additionally, I am the founder and owner of the "Multi Knowledge Center" in Zahle.
- I hold a master's degree in civil law and canon law and am a psychologist in civil and canon courts. I also work with various NGOs.
- My areas of expertise include working with children, teenagers, adults, and the elderly who are affected by difficulties and various types of disorders such as depression, phobias, stress, anxiety, emotional and relationship problems, physical or psychosomatic disorders, and behavioral problems.

Profile:

Dr. Jeanine Kamal Ziade holds a PhD in Psychology from the Lebanese University. She is a licensed psychologist and psychotherapist, specializing in treating children, adolescents, and adults. Here are some highlights of her career:

1.Educational Background:

- Bachelor's degree in Psychology from the Lebanese University. And a BA in Canon Law
- Diploma in Psychology from the Faculty of Arts and Human Sciences, Lebanese University.
- PhD in Psychology from the Lebanese University¹.

2.Professional Experience:

- Works as a psychotherapist, providing therapy for individuals, couples, and groups.
- Specializes in various therapeutic approaches, including Cognitive Behavioral Therapy (CBT), Art Therapy, and Play Therapy³.
- Has served as an international certified trainer in human development and mental health¹.

3.Community Involvement:

- Member of the Syndicate of Analysts and Psychotherapists in Lebanon.
- Worked as an arbitration member for American magazines and as a media officer for the American International Training Leaders Center¹.

4.Awards and Honors:

Dr. Ziade has received recognition for her dedication to psychology and her contributions to the community, although specific awards were not detailed in the available sources¹.

Notable Achievements

Dr. Jeanine Kamal Ziade has made significant contributions in the field of psychology. Here are some of her notable achievements:

Research and Publications: She has contributed to various research projects and publications in the field of psychology, focusing on innovative therapeutic techniques and mental health awareness¹.

Dr. Jeanine Kamal Ziade has explored several areas within psychology, focusing on both clinical practice and research. Here are some key areas she has delved into:

1. **Child and Adolescent Psychology:** Dr. Ziade specializes in treating children and adolescents, using therapeutic approaches like Play Therapy and Art Therapy to address emotional and behavioral issues¹.

2. **Cognitive Behavioral Therapy (CBT):** She employs CBT techniques to help individuals manage and overcome various mental health challenges, including anxiety and depression¹.

3. **Human Development and Mental Health:** As an international certified trainer, Dr. Ziade has contributed to human development and mental health training programs, enhancing the skills of other professionals in the field¹.

4. **Community Mental Health:** Dr. Ziade is actively involved in community mental health initiatives, working to raise awareness and provide support for mental health issues within the community¹.

5. **Research and Publications:** She has participated in research projects and published articles on innovative therapeutic techniques and mental health awareness¹.

Archbishop Boulos Nassif Borkhoche S.M.S.P. (born 7 Oct 1932, died 4 Feb 2021) Archbishop Emeritus of Bosra e Haūrān

نبذة عن حياة المثّلت الرحمة المطران بولس البرخّش

(1932-2021)

ميتروبوليت بصرى وهوران وجبل العرب سابقًا

ولد المطران بولس برخّش في جون بلبنان سنة 1932. دخل الإكليريكية البولسيّة بحريصا - لبنان سنة 1944 حيث حصلّ دروسه الابتدائيّة والثانويّة ثمّ الجامعيّة في الفلسفة واللاهوت في الإكليريكية الكبرى في حريصا. وسيم كاهنًا في 14 أيلول 1960.

من خلال خدمته الكهنوتيّة عمل في مختلف رسالات الجمعيّة البولسيّة ولكن بشكل خاصّ في حوران. عاد بعدها إلى الدير الرئيسيّ حيث وقعت عليه مسؤوليّة معلّم الابتداء وتنشئة الكهنة المرسلين للجمعيّة وأصبح من ثمّ بعد مدبّرًا في مجلسها العام.

سيم مطرانًا على أبرشيّة بصرى وهوران وجبل العرب في 3 تمّوز 1983 في كنيسة القديس بولس - حريصا بوضع يد غبطة البطريرك مكسيموس الخامس ولفيف من المطارنة.

عمل المطران بولس في أبرشيّته عمل الأب الحاضن لأبنائه والحاضر معهم دائمًا في أفراحهم وأتراحهم حتّى عرف جميع أبناء أبرشيّته بالاسم، مؤمنًا لهم الرعاية على رغم شحّ الموارد والإمكانيّات، واضعًا. اتّكّاله على الله الذي يدبّر كلّ شيء حبًّا للبشر.

أحبّ المطران بولس الأرض وتعلّق بها وتميّز بتكريس قسم يوميّ من وقته يقضيه في استصلاح الأرض. بعد أن يكون قد أنهى واجباته الرعويّة وأتمّ فرض الصلاة، عائشًا الحياة التي كان معظم أبنائه يعيشونها.

قام المطران بولس خلال فترة أسقفّيته ببناء عدّة كنائس: القديسة ريتا في خيب، سيّدة البشارة في شقرا، القديس نيقولاوس في إزرع، القديس جاورجيوس في الدويرة، الصليب المقدّس في تعارة، يوحنا المعمدان في المجدل وقزما ودميانوس في الرضيمة الشرقيّة. كما قام بالإضافة إلى هذا بترميم أربع عشرة كنيسة في الأبرشيّة. وقد بنى إلى جوار معظم هذه الكنائس سكناً للكهنة تسهيلًا لخدمتهم لكي يوفّر حياة كريمة لهم. وحرصًا منه على تأمين كاهنٍ لكلّ رعيّة.

اهتمّ المطران بولس اهتمامًا كبيرًا في تأمين التعليم المسيحيّ لأبناء الأبرشيّة فبنى ثمانية عشر مركزًا للتعليم في مختلف قرى الأبرشيّة. كما بنى اثنتين وعشرين صالة بجانب الكنائس مخصّصة لخدمة الرعايا. لم يكل

المطران بولس قبل أن بنى ديرًا لراهبات البنزنسون في خيب وآخر لراهبات سيده المعونة الدائمة في السويداء.

لم يهمل المطران بولس المشاريع التنموية في الأبرشية فعمل على شراء العقارات واستصلاح الأراضي وتطويرها وتشجير مساحات واسعة بالكرمة والزيتون. وبعد إنجاز أكثر من مئة وخمسين مشروعًا في الأبرشية، تركها المطران بولس عام 2013 وكان قد بلغ السن القانونية وتوجه إلى دير القديس بولس في حريصا حيث قضى الفترة الأخيرة من حياته يعيش يومه بالصلاة والتأمل ملتزمًا قواعد الحياة التي للجمعية البولسية إلى أن رقد على رجاء القيامة في عشية الرابع من شباط 2021

أحبّ المتلث الرحمة الكنيسة وأبناءها محبة الخادم الأمين. وعرف بتجرده واستقامته ونزاهته والتزامه الكهنوتيّ وحبّه للفقير وبساطة عيشه وحبّه للصلاة وطاعته. فتدعونا الكنيسة لنرفع الصلاة لأجل راحة نفسه في النعيم السماويّ الذي للآب حيث لا تزول لذة المشاهدين بهاء الملكوت ولا ينقطع ترنيم المعيّدين لربّ المجد.

فليكن ذكره مؤيداً

الاب حنانيا برخش -

وُلد في جون، أبرز نذوره الرهبانية في ٢٧ تشرين الثاني ١٨٢٨ وسيم كاهنًا سنة ١٨٤٩، ذهب إلى فرنسا دون إذن السلطة وهناك نال حظوة لدى الإمبراطور نابوليون الثالث ولدى الإمبراطورة أوجيني زوجته التي رثت له معاشًا شهريًا وهو ٦٠ فرنكًا فرنسيًا كما أعطته ساعة مع سلسلة ذهبية. وبعد الحرب السبعينية أعادت له الحكومة الفرنسية المعاش المرتب له إكرامًا لخاطر الملكة أوجيني. كان الأب حنانيا مشهورًا بصوته الجميل الرنان ووقد بالرّب في دير المخلص سنة ١٨٩٣ وهو يرثم: "إني اشاهد خدرك مزينًا يا مخلصي...".

Fr. Hananiya dedication to the Salvatorian Order at Deir Al Moukhalles is truly remarkable. By donating all the presents and gifts he received, as well as his monthly income from France, he demonstrated a profound commitment to his faith and community. His journey, which included significant interactions with rulers of France and the Ottoman Sultan at the time, where he performed Azan at the request of the Sultan who was impressed by his superior vocal power, highlights the diverse and impactful nature of his mission.

Deir Al Moukhalles

Deir Al Moukhalles, located in Joun, Lebanon, is a Greek Catholic monastery founded in 1711. It is known for its beautiful church and collection of religious artifacts². The Salvatorian Order, which Fr. Hananiya supported, continues to carry out its mission across various ministries worldwide³.

This article was most recently revised and updated by Encyclopedia Britannica.

Napoleon III

Napoleon III, born Charles-Louis Napoléon Bonaparte, was the first President of France from 1848 to 1852 and the Emperor of the French from 1852 to 1870. He was the nephew of Napoleon I and played a significant role in modernizing the French economy and infrastructure¹.

Empress Eugénie, born María Eugenia Ignacia Augustina de Palafox y Kirkpatrick, was a Spanish noblewoman who married Napoleon III in 1853. She was known for her beauty, intelligence, and strong influence on her husband's policies. Eugénie was actively involved in political affairs and served as regent on several occasions²³.

Their reign saw significant developments in France, including the expansion of the French colonial empire and the modernization of Paris under the direction of Baron Haussmann. However, their rule ended with the Franco-Prussian War in 1870, leading to their exile in England².

Napoleon III implemented several significant economic reforms that modernized France and boosted its prosperity:

1. **Infrastructure Development:** He expanded the railway network, extended canals, improved ports, and enlarged the merchant fleet³. This facilitated better transportation and trade within France and with other countries.

2. **Urban Development:** Under his reign, Paris underwent a major transformation led by Baron Haussmann. This included the construction of wide boulevards, parks, and modern sewage systems².

3. **Banking and Credit Institutions:** Napoleon III established new banks and credit institutions to support industrial and agricultural development⁴.

4. **Agricultural Reforms:** He promoted modern agricultural techniques, which helped end famines and made France an agricultural exporter².

5. **Free Trade Agreements:** He negotiated the 1860 Cobden–Chevalier Free Trade Agreement with Britain and similar agreements with other European countries, promoting free trade and economic growth².

6. **Social Reforms:** He introduced social reforms such as giving workers the right to strike and organize, and allowing women to be admitted to universities².

These reforms collectively contributed to the modernization and economic growth of France during his reign.

Empress Eugenie

Eugénie (born May 5, 1826, Granada, Spain—died July 11, 1920, Madrid) was the wife of Napoleon III and empress of France (1853–70), who came to have an important influence on her husband’s foreign policy.

The daughter of a Spanish noble who fought on the French side during Napoleon I’s Peninsular War in Spain, Eugénie went to Paris when Louis-Napoléon became president of the Second Republic in December 1848. They were married in January 1853 after he had become the emperor Napoleon III.

Empress Eugénie

- Also known as: Eugénia María de Montijo de Guzmán, Eugénie, comtesse de Tebaln full: Eugénie, comtesse (countess) de Teba
- Original name: Eugénia María de Montijo de Guzmán
- Born: May 5, 1826, Granada, Spain
- Died: July 11, 1920, Madrid (aged 94)
- Political Affiliation: Bonapartist
- Notable Family Members: spouse Napoleon III son Louis Bonaparte

On March 16, 1856, Eugénie gave birth to an imperial heir, Napoléon-Eugène-Louis Bonaparte. Concerned about the future of her family line, she began to take an active role in political affairs. On at least three occasions she served as regent (1859, 1865, 1870) in her husband’s absence and was certainly more than just a figurehead. A devoted Roman Catholic, she supported Ultramontane causes (favouring a strong papacy) and opposed her husband’s Italian policies that resulted in a loss of temporal power for the pope. She is often credited with having a preponderant voice in the decision to create a French-sponsored kingdom of Mexico (1861).

Eugénie, especially sensitive because of her origins, supported French opposition to a Prussian candidate for the vacant Spanish throne, in the controversy that precipitated the Franco-German War of 1870. After the Battle of Sedan (Sept. 1, 1870) she joined her family in exile in England and, after the death of her husband (1873), continued to play a dominant role in Bonapartist political activities. When her son died (1879), she assumed the role of the grande dame in exile.

Here are some photos of Emperor Napoleon III and Empress Eugénie:

Emperor Napoleon III and Empress Eugénie with their attendants

Eugénie, detail of a portrait by Franz Xaver Winterhalter; in the Collection de Mouchy, Paris

Abdülmeçid I

25 April 1823 – 25 June 1861

Abdülmejid I was the 31st sultan of the Ottoman Empire. He succeeded his father Mahmud II on 2 July 1839. [4] His reign was notable for the rise of nationalist movements within the empire's territories.

Portrait by Konstantin Cretius

Abdülmejid's greatest achievement was the announcement of the Tanzimat Edict upon his accession, prepared by his then Foreign Minister Mustafa Reshid Pasha, which effectively began the reorganization of the Ottoman Empire in 1839. Abdülmejid was a mild-mannered monarch, giving the Sublime Porte the autonomy needed for its reform projects.

One of the main goals of the Tanzimat was to encourage Ottomanism among the millets to stop rising nationalist movements within the empire, but despite new laws and reforms to integrate non-Muslims and non-Turks more thoroughly into Ottoman society, in the long term, the movement failed.

207- ARCHIMANDRITE NICHOLAS BORKHOCHÉ BSO

Religious Personalities

Basilian Salvatorian Order, BSO

Basilian Order of the Most Holy Saviour

Latin: Ordo Basilianus Sanctissimi Salvatoris Melkitarum

BIOGRAPHY

Archimandrite Nicholas Borkhoche was born on February 2, 1890, in Joun, whose geographical closeness to Saint Savior's was the basis of solid historical bonds between the village and the monastery, for it was on the village land that there took place the miracle which led to the foundation of Saint Savior's.

This explains why the destiny of Father Borkhoche was so closely linked to the story of the monastery. He lost his mother when he was only two years old. His early life was harsh and

austere, without affection, so he grew up with a stern and far from docile nature.

At the age of thirteen, on February 16, 1903, he joined other youngsters from his village at the seminary, as his relative Khalil Assaad Coriatv had before him. One when was destined to become archbishop of Sidon and Deir Al-Kamar in obedience to the call of God and to his vocation as monk and priest.

There were many others from Joun who obeyed the call to the religious life and the priesthood. We may mention Father Hananiya Borkhoche, famous for his sonorous voice and for the example he gave of religious vocation that proved infectious. The future Father Nicholas likewise sought instruction in knowledge and guidance in virtue from priests who were renowned, Monthst of all perhaps the Father General Gibraïl Nabaâ.

As a seminarian, the young Nicholas took his first vows on May 27, 1906, after which he completed his studies with distinction. This success led his superiors to choose him for higher studies and specialization in the Athanasium College in Rome,

where his religious studies were crowned by a doctorate in philosophy and a licentiate in theology at the Propaganda College. On November 2, 1910, while still in Rome, Nicholas Borkhoche took solemn vows and on December 26, 1916, he was raised to the priesthood after a long preparation in religious science and virtue undergone with a view both to practical needs and to the demands of the monastic life.

When war broke out in 1914, Brother Nicholas and some of his companions were expelled to Switzerland, being counted by the Italian authorities as Turks, and there all stayed in the Benedictine monastery of Enislidin. Both during his exile and after his return to Rome, the young monk applied himself assiduously to his studies in religion and in the humanities, pursuing them at the Gregorian University of the Jesuit Fathers and at the Massimo College, as well as at other institutes for higher studies. At the same time, he helped in relief work for orphans, for the homeless and for the destitute who were victims of the war.

Father Nicholas stayed in Rome until 1918, when the Superior General, Father Basil Shehadeh, recalled him to help make good the losses to the Order resulting from the world conflict, and to close the ranks after the dispersion from the Mother House imposed on the Father General and so many of his personnel. From the year 1919 to the year 1934 Father Nicholas remained in the seminary of Saint Savior's, teaching various branches of theology as well as philosophy as expounded by the great luminary of the Schools, Saint Thomas Aquinas, and Greek, the language of the early Church Fathers and of the liturgy. He taught Holy Scripture and the humanities, and formed the rising generation according to the moral character of the Order, always striving to reach not only the minds of his pupils but above all their souls.

Throughout this period, he was ever the devoted priest, the perspicacious guide, the deeply learned instructor, the zealous apostle and the soldier of God, having put on his spiritual armor and ready to serve. He cared for the sick in the houses of the Order, in the villages and in the outlying farms, healing both bodies and souls by his service and by his infectious enthusiasm. In 1930 his reputation led Archbishop Athanasius Coriaty of Sidon and Deir Al-Kamar to invite him to become his vicar general and to find a solution to the difference that had arisen between himself and his former Order.

Father Nicholas set relations between them on a better footing and carried out his mission to the full. But he stayed only two years with the diocese before returning in 1932 to teaching and service in the seminary.

Because of the disagreement opposing Archbishop Coriaty to the Order, in which the archbishop was supported by Patriarch Dimitrios Qadi and Archbishop Maximos Sayegh of Tyre, in 1924 the Holy See ordered an apostolic visitation of the Melkite Catholic monastic orders, headed by Archbishop Sayegh. The superior general of the

Salvatorians at that time was Basil Shehadeh. This intervention in the affairs of the Order met with some opposition from its members arising from a feeling of resentment.

The result of the visitation was a decision to unite all three Melkite orders, to impose a common rule of life and to suspend for a time the novitiate. The visiting delegation itself launched an agricultural project at the dependent house of Ain Al-Jowzeh in the Beqaa valley and appointed a canonical committee to represent it. It was in these conditions that the next three superior generals held office, Youssef Youakim elected in 1925, Father Agapios Naoum in 1927, 1928, and 1930, and Father Nicholas Borkhoche on May 29, 1934.

This term of office of Father Nicholas Borkhoche was one of high emotion, with various reforms and new foundations, and because of the Second World War it lasted until 1943, and was followed by a second term from 1949 to 1956. In between came Daoud Khoury, 1943 to 1947, and Father Clement Bardawil, 1948 to 1949. Here we shall find place to mention only the main achievements of Father Nicholas Borkhoche as Superior General.

1. He began to apply the monastic rule agreed on by the three Melkite orders in 1934, followed by more reforms and the proclamation of a new rule in 1956. This latter was accompanied by a change in the nature and the formal aims of the Order, when it changed from contemplative order to missionary order.

2. In 1936 repairs were made to the procures of the Order in Haifa and in Beirut, making of them appreciable sources of revenue. A large new wing was added to Saint Savior's, comprising twenty-eight rooms. In 1952 the construction began of boarding premises for lay pupils next to the seminary proper after repairs to certain elements of the structure and demolition of part of the old wing. Rooms and workshops were built adjacent to the olive-press after an increase in the work-force engaged as a result of the general renewal. In 1941 a complete new convent was built for the Salvatorian Missionary Sisters above the basement of the old convent, together with a church. This was followed by a fully equipped school with its annexes, and repairs to the Convent of the Annunciation in the same property.

3. In 1941 a new branch of the Salvatorian order of nuns was established with a view to the apostolate, and new centers of activity were opened for the Sisters. Dispositions were made for the Sisters concerning their spiritual and material welfare.

4. In 1952 a foundation was made at Methuen, near Boston, Mass., in the United States, for eastern-rite Catholic seminarians. This foundation was later to develop into a canonical religious house, a Salvatorian senior seminary, a Salvatorian novitiate, a retreat-house and finally an Eastern Catholic and ecumenical center with an influence radiating all over North America.

5. In 1954 a mission was set up at Zarqa, restoring to the Order the brilliance of its first missions, which were the earliest achievements of the Melkite Rite.

6. Additions were made to the old printing-works, and a brand-new press was bought, which meant a giant step forward and the opening of new vistas.

7. With the enlargement of the press came the appearance of a number of new periodicals, including *Basiliana* and in the Arabic Language the *Salvatorian Letter*, *The Bee*, *The Apostle* and *The Call of the Bells*. They served as admirable means of conveying the Salvatorian message and were widely diffused, enabling religious and secular education to reach places they would otherwise never have touched.

It is impossible to detail fully all that the Order owes to Father Borkhoche's enterprise during his first and second periods in office as Superior General. Even after the chapter of 1943 Father Borkhoche retained his function of assistant-general to the Salvatorian Sisters. At the chapter of 1956, he was elected first assistant, vicar general, and superior of the seminary. But not long after, on April 13, 1957, he was appointed pastor at Our Lady of the Annunciation in Boston, Mass., where he stayed a bare three years, during which he was elected superior of the American province, with renewal at the election of 1962.

He was repeatedly chosen master of novices at the novitiate of Saint Basil at Methuen. Finally, the time came for the valiant soldier of Christ to reduce the load of work on his shoulders, so Father Borkhoche took up residence at the Methuen monastery, where he worked and watched and gave instruction and guidance so far as his health permitted. During this time, he wrote a number of books, notably *The Story of the Basilian Salvatorian Center in Methuen in Arabic*, *The Salvatorian Complex of Methuen in English*, *The History of the Salvatorian Order* still in manuscript, and other shorter works also as yet unpublished.

We have said all that can be said in appreciation of the life of Father Nicholas Borkhoche in our book in Arabic the *Salvatorian Apostles in the Diaspora*: "The word founder gives the best evaluation one can make of this priest. He displayed courage in the face of adversity, never giving way however long the difficulties lasted. He was steadfast in carrying out his projects, slow and sure lest he stumble, looking out for the signs of the times and always praying that God's will might be known.

He showed flexibility when it was called for, he loved justice and he calculated the future course of events with wisdom and without haste. He was patient in the face of opposition and took pleasure in the company of his spiritual sons and of his friends who gathered around him. **His piety was deep, his faith was boundless and his trust was placed in God Almighty."**

Father Borkhoche loved his Order and all its institutions, and was totally devoted to it. During his last years at Methuen, he felt anew his tender affection for Lebanon and for the monastery of Saint Savior's, where he returned repeatedly despite his age and his ailments and the difficulties of the journey, leaving his cell and his retreat at Methuen to inspect the cuttings that he had once planted.

In this way he spent some twenty-five years. Finally, he took up residence in Saint Savior's and in the Mother House of the Sisters, living the life of a true monk among his spiritual sons and daughters, profoundly engaged in prayer, surrendering himself to the will of God, bearing patiently with illness and old age and laboring like the Salvatorian Fathers of old so that no time should be wasted, writing, guiding and praying.

Providence spared Father Nicholas Borkhoche the sight of Saint Savior's, its dependencies, Our Lady of the Annunciation and Our Lady of Sorrows passing through the torment of that unhappy day of April 28, 1985, the sixth such occurrence on the Way of the Cross walked by his Order. He was not a witness to the flight of his spiritual sons and daughters or the ruin of their religious houses and institutions or the looting of their stores.

He did not see the dark cloud of tragedy obscure the radiant history which Salvatorian monks and nuns wrote with their blood and with the sweat of their labors. The Lord took Father Borkhoche to himself a few days before that black and murderous night; at the very beginning of the trouble, on April 11, 1985, his soul rose to the heavenly mansions, joining the Fathers of the Order who rest in peace, whom he had loved and lived with and served throughout his life, and from whom he wished never to be separated in death.

Now he can truly be counted as one of the most active and enterprising members who have brought honor to Saint Savior's.

May their memory be eternal!

HISTORY OF ST BASIL'S SEMINARY, METHUEN, MASSACHUSETTS

The earliest immigrants to America from the Middle East, especially from Lebanon and Syria, arrived here around the end of the 19th century, and, like all other immigrants who were poor financially and ignorant of the language and customs, they suffered a great deal of hardship and disillusionment. But after struggling and persevering faithfully, they finally managed to make a place for themselves in their adopted land.

Their first problem was that of self-organization: Churches must be built; in which they could worship their God as they were wont to in the Old World. The beautiful hymns must not be forgotten, and they must find a way to bring their own priests from across the seas-no easy task, by any means.

However, circumstances were in their favor: they had a strong will and an earnest desire to perpetuate their ancient rituals, and the laws of the country presented no obstacle. Finally, the first Melkite parish was founded in Lawrence, Massachusetts, in 1902, by Rev. Joseph Batal, a Salvatorian Father. Many other Melkite centers followed the same pattern, until today, there are twenty-five Melkite Churches in the United States.

But life is progressive. The older generation was slowly passing on, and the young were in great danger of losing the language and traditions of their ancestors, almost of sacrificing the ethnocentric particulars to the great "Melting Pot" of modern society. The only solution to this problem was to form an American-Oriental Clergy, who would understand and look after the younger generation.

Petitions were addressed to the Sacred Congregation for the Oriental Church, which was already considering the problem, especially on the part of the Rev. Nicholas Borkhoche, Superior-General of the Basilian Salvatorian Order, during his first term in office. His Beatitude the Patriarch Maximus IV also worked for this same goal. Finally,

after long studies and enquiries, **Rome granted permission to Rev. Nicholas Borkhoche, during his second term (1945-1955) to come to America, and found the Melkite Center** which, in time, would have the facilities to open its doors to all Oriental Catholics of the Middle East. In 1953, the Superior-General called together the Salvatorian Fathers and announced to them the decision of the Holy See. They received the news enthusiastically, and decided to accept the offer.

His Excellency Richard J. Cushing, Archbishop of Boston, granted his indispensable approbation, and the project was launched. However, His Excellency did not simply grant permission: His paternal encouragement, his deep affection for the Oriental rites, his zealous interest and **his material aid played a tremendous part in any success ever to be achieved by the new Seminary.** The Oriental Catholics of the United States will forever owe his Excellency Archbishop Cushing a debt of gratitude, exceeded only by the deep love and reverence they bear toward him.

It was necessary to establish the Canonical existence of the project. Contacts were made between the Superior-General Borkhoche, Archbishop Cushing, and the Sacred Congregation for the Oriental Church. Rome's approbation and kindly attitude toward the Eastern Church was made clearly manifest through the paternal interest of His Eminence Cardinal Tisserant, Secretary of the Sacred Congregation.

The canonical formalities completed, a site must be chosen for the new center. The ways of the Lord are numerous, and as usual, He provided for His Own. The Tenney estate in Methuen, Mass. was put up for sale, and thanks largely to the efforts of Rt. Rev. Msgr. Eftimios Saba, and Rt. Rev. Msgr. Peter Abouzeid, who appealed to Archbishop Cushing, the estate was purchased on May 4, 1953.

THE DEDICATION DAY- MAY 30, 1954

Officiating at the soul-stirring, open air Mass were a brilliant assemblage of the most eminent Melkite clergymen. Rt. Rev. Nicholas Borkhoche, Superior-General of the Basilian Salvatorian Order, who flew from Lebanon to the United States especially to attend the dedication, presided at the Mass and spoke a word of thanks for the Divine Providence which permitted him to be present, and to the faithful who had helped found the new seminary.

The official guests were now beginning to arrive. Eminent Latin clergymen, civic officials, educators, nuns, and lay brothers were among the invited. Naturally, the guest was His Excellency the most Rev. Archbishop Richard J. Cushing D.D., LL. D., of Boston, whose arrival was most eagerly anticipated by every single individual present that day.

His Excellency arrived shortly after 3:00 P.M., and was met by the honor guard from the Knights of Columbus. Immediately, he embraced Superior-General Borkhoche, a gesture symbolic of the Archbishop's kind and loving nature.

Having donned his official robes, His Excellency joined the other clergymen, and again, a most dignified procession of boy scouts, both Latin and Eastern priests and monsignori made its way to the shrine, preceding Rt. Rev. Msgr. Nicholas Borkhoche, and His Excellency, the Archbishop.

Again, the throng assembled around the shrine of Christ, the King, this time to hear Rt. Rev. Msgr. Peter Abouzeid, as he addressed a welcome to the assembly, and introduced His Excellency the most Rev. Richard J. Cushing, Archbishop of Boston. Thousands of people listened in awe and reverence to the great, heartwarming words of love and encouragement spoken by the Archbishop. His Excellency asserted that the seminary would always receive the full and hearty approbation of the Archdiocese; he also substantiated his promise with a donation of ten thousand dollars to the new Saint Basil's Seminary.

The Seminary, as well as the Shrine, were officially dedicated, and the procession was resumed to the house, where a buffet was served for the clergy and the official guests.

At around 8:00 P.M., the people began to leave tired, true, but exhilarated with the success of the day, proud and happy that they had worshiped their God, and aided to establish His new home, in a new world, opening the doors to a new and brilliant future for His honor and glory-in order that His will be done, "on earth, as it is in heaven!"

- Rev. Lucien Malouf, BSO

Closing Remarks:

Saint Basil's Seminary in Methuen, Massachusetts, is a Melkite Catholic seminary that has been significantly influenced by the efforts of Monsignor Nicholas Borkhoche. This seminary is part of the Basilian Salvatorian Order, which was inspired by the vision of Archbishop Eftimios Saifi²³.

The seminary offers a range of spiritual activities, including daily Byzantine liturgies, catechism, retreats, and youth gatherings². It aims to provide a space for renewal, healing, and transformation through God's love and mercy².

Monsignor Borkhoche's contributions have helped establish and maintain this vibrant community, ensuring that it continues to serve as a beacon of faith and education for the Melkite Catholic community in the United States³.

212- BISHOP ATHANASIOS KHORIATY B.S.O.

Religious Personalities
Basilian Salvatorian Order

Bishop Athanasios (Athanasie) Khoriaty was a significant figure in the Melkite Greek Catholic Church. Here are some key details about his life and contributions:

- Birth and Early Life: Born on January 20, 1884, in Joun, Lebanon¹.
- Priesthood: Ordained as a priest on June 5, 1910¹.
- Episcopal Appointment: Appointed as the Bishop of Saïda (Sidon) on February 7, 1920¹.
- Consecration: Consecrated as a bishop on March 14, 1920¹. His principal consecrator was Patriarch Dimitrios I (Joseph) Cadi, with co-consecrators Archbishop Nicolas Cadi and Bishop Clément Malouf¹.
- Service: Served as the Bishop of Saïda until his death on January 24, 1931¹.

Bishop Khoriaty was known for his dedication to the Melkite community and his efforts in guiding the faithful during his tenure. His leadership and contributions were significant in the religious and cultural life of the region.

213- ARCHIMANDRITE GEORGE KHORIATY B.S.O.

Religious Personalities

Archimandrite at Basilian Salvatorian Order

Father George Khoriaty has been actively involved in pastoral and community work in Canada, particularly within the Melkite Greek Catholic community.

His contributions include:

1. Pastoral Care: Providing spiritual guidance and support to the Melkite community in Canada, including conducting Mass, sacraments, and other religious services.
2. Community Engagement: Organizing and participating in community events, fostering a sense of unity and belonging among the faithful.
3. Education and Outreach: Leading educational programs and outreach initiatives to promote the teachings of the Melkite Church and support the spiritual growth of parishioners.
4. Support for Immigrants: Assisting new immigrants in integrating into Canadian society, offering both spiritual and practical support.

Father Khoriaty's work has been instrumental in maintaining and strengthening the Melkite community in Canada, ensuring that cultural and religious traditions are preserved and passed on to future generations.

Father George Khoriaty is a member of the Basilian Salvatorian Order, an Eastern Catholic monastic order of Pontifical Right for men of the Greek-Melkite Catholic Church¹.

The order, also known as the Basilian Order of the Most Holy Savior, was founded in 1683 by Archbishop Euthymios Michael Saifi in Saida, Lebanon¹.

It focuses on pastoral and missionary activities, emphasizing well-educated clergy¹.

Father Khoriaty's work within the order involves various pastoral duties and community engagement, contributing to the spiritual and social well-being of the Melkite community.

The Basilian Salvatorian Order has a rich history of supporting the Melkite Church and has produced many bishops and patriarchs¹.

Saint Sauveur Cathedral in Montreal

The Greek Melkite Catholic Eparchy of Canada,[1] also known as the Melkite Eparchy of Canada or the Melkite Greek Catholic Eparchy of Saint-Sauveur of Montréal (Latin: Eparchia Sanctissimi Salvatoris Marianopolitansis Graecorum Melkitarum Catholicorum), is an eparchy of the Melkite Greek Catholic Church in Canada.[2] It is based at Saint Sauveur Cathedral in Montreal, Quebec.

Territory; The eparchy includes the faithful of the Melkite Greek Catholic Church in Canada. Its eparchial seat is the city of Montreal, where Saint Sauveur Cathedral is located. The name of the eparchy is derived from Saint-Sauveur (French for 'Holy Saviour').

As of 2020, the eparchy had around 40,000 baptized members, and it is divided into fourteen parishes.

History: On April 9, 1968, Pope Paul VI founded the Apostolic Exarchate in Canada by the apostolic constitution *Qui benignissimo*. On October 13, 1980, Pope John Paul II issued a bull *Qui benignissimo*, which established the Apostolic Exarchate of the Saint-Sauveur.[3] On September 1, 1984, Pope John Paul II issued a bull *Beati Petri*,[4] which transformed the Apostolic Exarchate of the Saint-Sauveur into an eparchy.

214- BISHOP PHILIPPE NABAA, B.S.O. BISHOP OF BEIRUT

Religious Personalities
SMSP (Peres Paulistes)

Bishop Philippe (Philip) Nabaa was a prominent figure in the Melkite Greek Catholic Church.

Born on April 18, 1907, in Joun, Lebanon, he was ordained as a priest on September 14, 1931¹.

He was appointed as the Archbishop of Beirut and Byblos on September 17, 1948, and consecrated as a bishop on October 3, 1948¹².

Bishop Nabaa played a significant role in the church, participating in all four sessions of the Second Vatican Council from 1962 to 1965¹.

He was also involved in the Pontifical Commission for the interpretation of the decrees of the Second Vatican Council¹. He passed away on August 17, 1967, in Beirut¹.

215- BISHOP GABRIEL (Nikolaos) NABAA, BISHOP OF SAIDA, B.S.O.

Religious Personalities
Basilian Salvatorian Order

Bishop Gabriel (Nicola) Nabaa was a significant figure in the Melkite Greek Catholic Church. Born on January 8, 1894, in Joun, Lebanon, he was ordained as a priest on April 15, 1917¹. He became the Bishop of Saida (Sidon) on November 22, 1931, and served in this role until his death on December 15, 1946¹.

Bishop Nabaa was known for his dedication to the Melkite community and played a crucial role in the religious and cultural life of the region. His consecration as a bishop was led by Patriarch Cyril IX Mogabgab, with co-consecrators Archbishop Nicolas Cadi and Bishop Antonio Farage¹.

Basilian Salvatorian Order

ABOUNA BECHARA ABOU MRAD YEARLY RELIGIOUS WALK AND PILGRIMAGE TO DEIR AL MOKHALLES

The Abouna Bechara Abou Mrad Yearly Spiritual Walking Event

This is a yearly pilgrimage route that transcends mere walking; it's a transformative event, a journey that pays homage to Abouna Bechara Abou Mrad, and a cross country gathering of thousands of pilgrims all in one. Abouna Bechara Abou Mrad has been recently Beatified by the Catholic Church and the Vatican.

The Abouna Bechara Abou Mrad Spiritual Pilgrimage to Deir Al Mkhalleh is an all year round Event

The Abouna Bechara Abou Mrad yearly spiritual walking event is a commemorative occasion that honors the life and legacy of Venerable Bechara Abou Mrad, a Melkite priest and monk who is venerated in the Catholic Church, particularly in the Melkite Greek Catholic Church¹. He was born on May 19, 1853, and passed away on February 22, 1930¹. The event likely involves a pilgrimage or procession that reflects the spiritual journey and monastic life that Abouna Bechara Abou Mrad led.

If you're looking to participate or learn more about this event, we would recommend contacting the Holy Saviour Monastery in Joun or Sidon, Lebanon, where Abouna Bechara is buried, or the local Melkite Greek Catholic community, as they would likely have the most accurate and up-to-date information.

A Special Note

A Note About Sheikh Abdel Basset Abdel Samad

عبد الباسط عبد الصمد ... هو إبراهيم نبعه

لبناني مسيحي ، أحب وهاجر وأسلم وصار شيخ
المقرئين

يناير، 2021

كتب جمال فيّاض

قد تكون الحكاية مدهشة، يصعب تصديقها، لكنها الحقيقة المستترة، والتي ثبت أنها حقيقة لا جدال فيها تبدأ الحكاية عندما يتحدث منشور مرسل ومتداول عبر التواصل الإجتماعي، يأتي فيه ما يفيد أن سرّاً لم يسمع به أحد، ويقول أن المقرئ المصري الشهير والأبرز في التاريخ العربي الحديث عبد الباسط عبد الصمد، أصله من بلدة "جون" اللبنانية، وهو مسيحي من الطائفة الكاثوليكية وإسمه إبراهيم إندراوس نبعه.

وحكاية الفتى إبراهيم المولود أواخر القرن التاسع عشر، والذي كان يدرس في مدرسة خاصة برعية الكاثوليك الجونيين، التابعة للرهبنة المخلصية، وابن رئيس البلدية وكانت في حينه تسمى "مجلس الكوميسيون" الذي يعينه المتصرف العثماني، بدأت حكايته بقصة حبّ مراهق مسيحي لفتاة مسلمة شيعية من بنات البلدة. وعندما أراد الزواج منها، قابله رفض الأب والعائلة وكل الأسرة. وهو الذي كان ينهي دراسة الكهنوت، والتي تهّء الدارس لدخول الأكليروس، حيث الرهبان والمطارنة المعروفين من أمثال المطران فيليب نبعه، الذي شاع صيته في لبنان والعالم العربي.

فيليب هو عمّ إبراهيم، وكان الأب يرغب أن يلتحق ابنه الشاب بعمّه، ليخلفه لاحقاً في مركزه الديني الرفيع. فكيف يسمح له بالزواج من مسلمة؟ ردّ فعل الأب كان أن سجن ابنه في غرفة لثمانية أشهر ومنعه عن لقاء حبيبته أو أي شخص قد يجعله يتواصل معها.

ظلّ الأب يتعامل بقسوة مع الإبن وغالباً يضربه ويعذّبه ليمنعه عن هواه. ووصلت الأمور مرة الى غيبوبة إبراهيم عن الوعي ووصل إلى حافة الموت. كل هذا لم يغيّر تفكيره بحبيبته. فاستجد الأب بشقيقه المطران،

الذي جاء من مصر ليساعد في حلّ هذه المشكلة، وكان الحلّ أن يأخذ إبراهيم معه الى مصر، ليتابع دراسته الكهنوتية فيها، علّ السفر ينسيه ما هو فيه. ووافق إبراهيم على السفر الى مصر مع عمّه، أملاً بأن يعود لاحقاً ليتواصل مع من يحبها حتى الموت. مضت أربع سنوات، وإبراهيم يتابع دراسته في مطرانية الأسكندرية دون أن ينسى من أحبها في لبنان. لكن حنينه كان يتضاعف كلما سمع ترتيلاً قرآنيّاً يصل الى مسامعه من الجامع القريب.

وكان الحنين يشتعل أكثر فأكثر. وهو وجد في سماعه ترتيل القرآن بعض ما يسعده وهو يتذكّر حبيبته المسلمة. وظلّ يتسلل الى الجامع ليستمع الى القرآن، وتشتعل في قلبه المشاعر والإحساس الكبير بالراحة النفسية. وكان أن اتخذ قراره الكبير، أن يحفظ القرآن، ويرتلّه بصوته الجميل والقويّ. ودخل الى مجتمع الصوفيين عبر أحد الشيوخ في المدينة المصرية الكبيرة. وبدأوا يكتشفون فيه موهبة الصوت الجميل، وكمقريء يجيد التجويد بأحسن شكل. سنوات قليلة وأعلن إبراهيم نبعه إسلامه، متخذاً لنفسه إسم عبد الباسط عبد الصمد.

وقرّر العودة الى لبنان مع عمّه المطران، دون أن يخبره بأمر إسلامه. وفي الطريق أخبره عمّه أن حبيبته ماتت بعد ذهابه الى مصر بثلاثة شهور. وأنها ماتت حزناً عليه. لم يصدّق إبراهيم الرواية، وأخبره أنه سينزوجها وأنه أعلن إسلامه ليتزوج منها. المفاجأة سقطت على العمّ سقوط الصاعقة، وأصيب المطران الكبير بشلل نصفي، وسقط مشلولاً من هول الخبر. لم ينزل الشيخ إبراهيم نبعه (عبد الباسط عبد الصمد) من الباخرة، بل عاد الى مصر وظلّ فيها. وهناك تزوّج وأنجب، وحقق شهرته ونجاحه الكبير. وعام 1973 أرسل أبناءه الثلاثة الى بلدة جون في الشوف، ورووا القصة للأقارب وما حصل مع والدهم. يقول الأستاذ مصطفى نصري شمس الدين، وهو ابن المطرب اللبناني الراحل نصري شمس الدين، أن القصة صحيحة تماماً، وأنه يعرف الحكاية جيداً، وأن والده الفنان الكبير سبق أن سأل عن صحتها في حينه، وأخبره رئيس دير المخلص المطران أندريه حداد، أن عبد الباسط عبد الصمد، هو فعلاً من بلدة جون، وأنه مسجّل في قيود نفوسها، ولكن بإسمه الأصلي إبراهيم نبعه. يضيف المحامي شمس الدين، أن منزل آل نبعه ما زال موجوداً في بلدة جون، وأن ابن عمته جوزيف كوكباني ما زال يعيش في جون، وهو يؤكّد صحة انتسابه لأسرته. وأن الخوري في دير المخلص جون نبعه، شقيق الشيخ عبد الباسط عبد الصمد (المعروف هنا بإسم إبراهيم نبعه) توفي منذ سنوات فقط. وهو أيضاً ما يؤكّده مختار جون السيد سمير عيسى.

في مصر، تفيد السجلات أنه عبد الباسط محمد عبد الصمد سليم. وأنه من مواليد العام 1927، وأنه مولود في قرية المراغة، بمركز أرمنت بمحافظة قنا (الأقصر حالياً). وأنه حفظ القرآن على يد الشيخ المتقن محمد سليم حماده. ودخل الإذاعة المصرية عام 1951، وعيّن قارئاً لمسجد الإمام الشافعي عام 1952، ثم لجامع الإمام الحسين عام 1958 خلفاً للشيخ محمود علي البنا. وأنه كان أول نقيب لقراء مصر عام 1984 ليتوفى عام 1988 ويُدفن في مصر.

البعض ينفي هذه الرواية جملة وتفصيلاً، وخصوصاً في مصر. والبعض الآخر يؤكد هذه الرواية بالتفاصيل وخصوصاً في لبنان وبلدة جون. لكن الحقيقة ما زالت بحاجة لمن يحسمها بالبيانات والتأكيد، لا بالعواطف والعصبيات.

وسواء كان هذا أو ذلك، يبقى عبد الباسط عبد الصمد، برأيي ورأي جمهور كبير، أفضل وأشهر مقريء عرفه العرب والعجم وتاريخ الترتيل القرآني، وليرحمه الله.

انتشر في كثير من المواقع الإلكترونية أن أصول الشيخ عبدالباسط عبدالصمد تركية أو أذربيجانية أو أمازيغية أو كردية .. وكل أمة تنسبه لنفسها

والأغرب من هذا كله ما أشاعه البعض من أن الشيخ عبدالباسط عبدالصمد في الأصل مسيحي الديانة، كاثوليكي الطائفة، من لبنان واسمه إبراهيم أندراوس نبعه ولد في قرية (جون)

وقد أكد اللواء طارق عبدالباسط عبدالصمد الصمد نجل الشيخ عبدالباسط في لقاء لتلفزيون الشارقة عبر برنامج مشاهير القراء أن كل هذه الشاعات غير صحيحة وأن أصول الشيخ رحمه الله مصرية خالصة من قرية المراغة مركز أرمنت بمحافظة قنا (محافظة الأقصر حالياً) جنوب مصر ولا يزال بيت الشيخ رحمه الله هناك

واسمه الكامل عبد الباسط محمد عبد الصمد سليم داود وكانت ولادته 1 يناير 1927 و وفاته في 30 نوفمبر 1988 وقد ناهز عمره 61 عاماً، تزوج من ابنة عمه وأنجب أربعة من الأناث وسبعة من الذكور

Career Summary

Antoine Burkush has had a distinguished career with several notable achievements:

1. **Extensive Experience:** With over 42 years of experience, Antoine has held various senior analyst roles and has a strong background in strategic planning and new ventures³.
2. **Leadership Role:** He currently serves as the Corporate Director of Strategy and New Ventures at MAJD Consultants in Saudi Arabia³. In this role, he has been instrumental in shaping the strategic direction of the organization.
3. **Educational Background:** Antoine holds a Doctorate in International Development with a focus on Public Management³. His academic background has provided a solid foundation for his work in strategy and policy.
4. **Contributions to Smart Government Initiatives:** Antoine has been actively involved in seeking positions in Smart Government entities and research universities in the Middle East, contributing to the development of innovative public management practices². Antoine Burkush has made significant contributions during his tenure at King Abdullah University of Science and Technology (KAUST). Here are some of his notable achievements:

Smart Government initiatives

Antoine Burkush has made significant contributions to Smart Government initiatives, particularly in the Middle East. His work focuses on integrating innovative public management practices and leveraging technology to enhance government operations.

Here are some key aspects of his contributions:

1. **Strategic Planning:** Antoine has been involved in developing strategic plans for Smart Government projects, ensuring that they align with broader goals of efficiency, transparency, and citizen engagement¹.
2. **Policy Development:** He has contributed to the formulation of policies that support the adoption of smart technologies in government operations. These policies aim to improve service delivery and foster a more responsive government¹.
3. **Collaboration and Participation:** Antoine has emphasized the importance of

collaboration between government agencies and external stakeholders, including citizens. His work has promoted the use of ICT to facilitate information sharing and increase public participation in governance².

4. Capacity Building: He has been involved in training and capacity-building initiatives to equip government officials with the skills needed to implement and manage smart government projects effectively¹.

5. Research and Advocacy: Antoine has actively participated in research and advocacy efforts to highlight the benefits of smart governance. His work has helped to raise awareness about the potential of smart technologies to transform public administration¹.

These contributions have played a crucial role in advancing Smart Government initiatives, particularly in the context of creating more efficient, transparent, and citizen-centric government services

Impactful Projects

Antoine Burkush has been involved in several impactful projects throughout his career. Here are a few notable ones:

1. Economic Empowerment Initiative in Saudi Arabia

Antoine played a key role in an economic empowerment initiative aimed at supporting small and medium-sized enterprises (SMEs) in Saudi Arabia. His contributions included:

- Strategic Planning: Developing strategies to enhance the growth and sustainability of SMEs.
- Policy Development: Formulating policies to provide financial support and resources to entrepreneurs.
- Capacity Building: Organizing training programs to equip business owners with essential skills and knowledge.

2. Knowledge-Based Economy Project in Saudi Arabia

Antoine was involved in a project focused on transitioning to a **knowledge-based economy**.

His work included:

- Research and Analysis: Conducting research to identify key sectors for development.
- Stakeholder Engagement: Collaborating with educational institutions and industry leaders to foster innovation.
- Implementation Oversight: Overseeing the implementation of initiatives aimed at promoting research and development.

3. Investing in Land During Economic Downturns

Antoine also shared his expertise on investing in land during economic downturns through a series of talks and publications. His insights included:

- Market Analysis: Analyzing market trends to identify investment opportunities.
- Risk Management: Providing strategies for mitigating risks associated with land investments.
- Economic Insights: Offering guidance on leveraging land investments to achieve long-term financial stability³.

These projects highlight Antoine Bulrush's diverse expertise and his significant contributions to various sectors, including economic empowerment, knowledge-based economies, public management, and investment strategies.

Work Highlights at KAUST:

- **Support of Economic Development Mission:** Antoine played a crucial role in understanding the impact of science and technology on economic growth within the region. He led strategic initiatives to help achieve KAUST's mission concerning economic development.
- **Building National Innovation Capacity:** He contributed to building a national innovation capacity, which is essential for fostering a knowledge-based economy.
- **Foundation of Economic Development Program:** During the formative year of the Economic Development Department at KAUST, Antoine assisted the Vice President for Economic Development and laid the foundation for an impressive program.
- **Intensive Work on Various Strategic Areas:** His work included innovation ecosystems, competitiveness, entrepreneurship, technology transfer, research parks, innovation clusters, venture capital, and the impact of research universities. He also focused on innovation policies and strategies, RFPs,

departmental reviews, establishment of new departments, strategic plans, management systems for major events, and extensive strategic research.

Economic Development Department:

The department provides the necessary inputs and expertise to transform lab-based inventions into commercial products or services. This involves evaluating, protecting, guiding, developing, financing, supporting, and marketing inventions at every stage. The department consists of six units:

1. KAUST Industry Collaboration Program
2. Research Park and Innovation Cluster
3. Technology Transfer and Innovation
4. New Ventures and Entrepreneurship
5. Technology Application and Advancement Group
6. Policy and Strategy

These achievements highlight Antoine Burkush's significant impact on KAUST's mission to contribute to the economic development of Saudi Arabia through science and technology¹²³.

Educational Development Achievements at TATWEER

- **Central Organization Design & Staffing:** Developed the organizational structure and staffing plans.
- **Processes, Procedures, and Practices:** Established supervisory, strategy, and implementation offices.
- **National Education Assessment and Gap Analysis:** Conducted comprehensive assessments and identified gaps in the national education system.
- **National Education Strategy and Design:** Designed a national education strategy.
- **Education Quality and Standards:** Implemented quality standards at all educational levels.
- **Implementation and Action Planning:** Developed and executed action plans.
- **Project and Program Specifications:** Established requirements and specifications for various projects and programs.

- **Coordination with Saudi Ministry of Higher Education:** Worked intensively with the Ministry for two years.
- **Recruitment:** Recruited for key project pillars and collaborated with renowned consultants.
- **Technical Proposal Development:** Created detailed technical proposals.
- **Negotiations:** Engaged in intensive negotiations with high-level executives at the Ministry of Education.

Achievements in Corporate Organizational Development at OKAZ

- **Corporate Diagnostics for Performance Improvement:** Developed metrics, reporting, and analysis for performance improvement.
- **Quality Management Systems and ISO 9001 Support:** Implemented quality management systems and supported ISO 9001 certification.
- **Corporate Citizenship and Equity Development:** Promoted corporate citizenship and equity.
- **Integrated Marketing Solutions:** Developed corporate and product marketing strategies.
- **Projects and Events Marketing and Management:** Managed marketing and events projects.
- **Research and Data Analysis:** Conducted extensive research and data analysis.
- **Strategic Business Planning:** Developed strategic business plans.

Work Highlights

- **International Team Collaboration:** Led and delivered large, complex client engagements with international teams.
- **Quality Management:** Oversaw the quality of deliverables and managed functional and technical teams.
- **Business Development:** Participated in the development and presentation of business proposals.
- **Consulting Services:** Delivered consulting services, including strategy development, contract evaluation, and process management.

Consultancy Achievements

Government Transformation

- **Strategic Projects for Local Government Transformation in Lebanon:** Worked on Vision 2030 Programs, Sustainable Development Goals, and a Strategic Framework for improving municipal governance in Lebanon.
- **Local Economic Development and Municipal Capacity Building:** Focused on enhancing local economic development and building municipal capacity.
- **Governance and United Nations Global Compact:** Contributed to governance initiatives and the UN Global Compact.

King Abdullah University of Science and Technology (KAUST)

- **Assistant to Vice President for Economic Development:** Supported the VP in economic development initiatives, contributing to the university's mission of fostering innovation and economic growth.

TATWEER

- **Project Manager for Public Education Development:** Managed projects aimed at developing public education, including strategy development and implementation.

OKAZ

- **Organizational Development:** Worked on corporate diagnostics, performance improvement, quality management systems, and ISO 9001 support. Developed strategies for corporate citizenship, equity development, and integrated marketing solutions.

Marketing and R&D Achievements at Al Khaleejiah SRMG

- **Integrated Marketing Communications:** Managed communications for 16 media projects.
- **Corporate Training:** Handled the corporate training budget, needs assessment, and selection of HRD and training companies. Developed and delivered in-house seminars.
- **Orientation Programs:** Created orientation programs for new recruits.
- **Training:** Provided training in management, marketing, supervision, sales management, research methodology, and media.
- **Organizational Development:** Developed corporate manuals and handbooks, restructured the SRMG Group, and implemented performance measurement systems.

- **Media Research and Monitoring:** Established media research and monitoring systems.
- **Learning and Development:** Conducted seminars and workshops for multinational companies. Developed handbooks for computerizing company departments.
- **Recruitment and Consultancy:** Provided marketing and management consultancy services.

Achievements at CCM Group

- **Training Planning, Design, and Development:** Planned, designed, and developed training programs.
- **Instructional Delivery:** Delivered training on advanced management, project planning and evaluation, and administrative inspection and control.
- **Consultancy and Research:** Provided consultancy and conducted research in various topics.

Volunteering and Professional Interests

Volunteering

Antoine Burkush has shown a strong commitment to volunteering, particularly in areas that align with his professional interests. His volunteer work focuses on:

- **Government Transformation and Vision 2030:** Developing and launching new initiatives and programs to build the innovation ecosystem in Middle Eastern countries.
- **Raising Competitiveness for a Knowledge Economy:** Working on strategies to enhance the competitiveness of countries in the knowledge economy.
- **Institutionalizing Monitoring and Evaluation Systems:** Establishing systems to monitor and evaluate various programs and initiatives.
- **Developing Entrepreneurship:** Focusing on technology transfer, research parks, innovation clusters, and venture capital to foster entrepreneurship.
- **Establishing Accountability in a Knowledge Society:** Promoting accountability within the framework of a knowledge-based society.
- **Conducting Research and Studies:** Engaging in research aimed at accelerating the growth of the innovation ecosystem in the Middle East.
- **Inducing Private Investment in R&D:** Encouraging higher levels of private investment in research and development.

- **Fostering Entrepreneurship:** Supporting entrepreneurial activities and initiatives in the Middle East.

Professional Interests

Antoine's professional interests are closely aligned with his volunteer work and include:

- **Knowledge Economy:** Developing strategies and initiatives to support the growth of the knowledge economy.
- **Economic Empowerment:** Working on projects that empower individuals and communities economically.
- **Government Transformation:** Contributing to the transformation of government structures and processes to better serve the public.
- **Vision 2030:** Supporting the Vision 2030 initiative to drive economic and social development in the Middle East.
- **Innovation Ecosystem:** Building and enhancing the innovation ecosystem through various programs and initiatives.
- **Competitiveness:** Raising the competitiveness of countries in the global economy.
- **Entrepreneurship:** Developing and supporting entrepreneurial ventures, particularly in technology and innovation sectors.
- **Accountability:** Promoting accountability and transparency in governance and business practices.
- **Research and Development:** Encouraging investment in R&D to drive innovation and economic growth.

These interests and volunteer activities highlight Antoine Burkush's dedication to fostering economic development, innovation, and entrepreneurship in the Middle East. If you need more details or have specific questions, feel free to ask!

Other Notable Works

- Transformation of Local Government in Lebanon: Municipal Capacity Building and Governance
 - Focuses on the transformation of local government, municipal capacity building, and governance in Lebanon.

These publications highlight Antoine Burkush's extensive contributions to the fields of marketing communications, administrative reforms, and local governance. If you need more details or have specific questions, feel free to ask!

Independent Consultancy Practice: Transformation of Local Government in Lebanon

Antoine Burkush has been associated with several key initiatives aimed at transforming local government in Lebanon. Here are some highlights of his work:

Key Areas of Focus

- Government Transformation

- Municipal Capacity Building in Lebanon
- Strategic Framework for the Improvement of Municipal Governance in Lebanon
- Local Economic Development
- Vision 2030 Programs
- Sustainable Development Goals
- United Nations Global Compact

Highlights of Achievements

1. Assessment of the Municipal Governance Situation in Lebanon
 - Conducted comprehensive assessments to understand the current state of municipal governance.
2. Strategic Framework for Improvement
 - Developed a comprehensive program of capacity-building activities, focusing on:
 - Sustainable Development Role of Municipalities
 - Building Municipal Capacity
 - Municipal Governance
 - Ethics, Transparency, and Accountability
 - Open Government
 - Local Economic Development
 - Monitoring and Evaluation
 - Municipal Performance Measurement
 - Public Finance
 - Citizen Participation
 - E-Government
 - Institutionalizing Strategic Planning
 - Municipal Surveys and Polls
3. Model Municipality and Municipal Services in Lebanon

- Created models for municipalities and municipal services to serve as benchmarks.
4. Strategies for Lebanese Municipalities
- Developed various strategic plans, including:
 - Municipal Strategic Plan
 - Municipal Marketing Plan
 - Municipal Brand Identity
 - Municipal Strategic Communications Plan
 - Municipal Comprehensive Urban Planning
 - Municipal Waste Disposal Plan
 - Municipal Economic Development Strategy
 - Municipal Growth Management Plan
5. Municipalities Handbooks
- Authored several handbooks to guide municipal administration, policies, and inter-municipal cooperation:
 - Municipal Administration Handbook
 - Municipal Policies and Procedures Handbook
 - Inter-municipal Cooperation Handbook
6. Website Model for Lebanon Municipalities
- Designed a website model to enhance the digital presence and accessibility of municipalities.

These efforts highlight Antoine Burkush's significant contributions to improving municipal governance and capacity building in Lebanon. If you need more details or have specific questions, feel free to ask!

Conferences and Symposia

Associated with AL-KHALEEJIAH Advertising & Public Relations Company

- **Attended Several Conferences and Symposia:** Focused on Public Sector Performance, Public Governance, Marketing Communications (MARCOM), Media Research, IT, and Management Information Systems.
- **Lectured and Presented Papers:** Shared insights and research findings at various events.

Economics, Finance, and Budgeting

Associated with State University of New York at Albany

- **Cost Management for Government and Nonprofit Organizations:**
 - Topics covered: Management-control systems, cost measurement for reporting, cost analysis for decision making, cost definitions, product costing, cost allocation, standard costing, activity-based management, economic value added, and the use of statistical and operations research models in financial management.
- **Public Budgeting:**
 - Detailed examination of budget processes and politics, analysis of public revenue sources, techniques of budget analysis, and current issues in public budgeting.
- **Economics of Government Programs:**
 - Focus on economic tools of government, rationales for public spending, and empirical research in public finance.
- **Capital Markets, Risk, and Governments:**
 - Analysis of capital markets and the associated risks for governments.
- **Cost-Benefit Analysis:**
 - Economic analysis used in the design and evaluation of government programs, including cost-benefit and cost-effectiveness analysis, efficiency considerations, and measurement of program effects.
- **Quantitative Analysis in Public Finance:**
 - Topics include regression analysis in property assessment, determinants of local government expenditures, fiscal impact of grants-in-aid, cost-benefit or cost-effectiveness analysis, and revenue estimate techniques.
- **Economics and Finance Relevant to Public Administration:**

- Financial management in the public sector, including cash and debt management and capital budgeting.

These highlights showcase Antoine Burkush's extensive involvement in conferences, symposia, and his expertise in economics, finance, and budgeting. If you need more details or have specific questions, feel free to ask!

International Development: Innovation Ecosystems and Knowledge-Based Economy

Associated with King Abdullah University of Science and Technology (KAUST)

Antoine Burkush has been involved in several impactful projects at KAUST, focusing on building a knowledge-based economy and fostering innovation ecosystems. Here are some examples:

- **Creating Impact: Building a More Engaged University:** Developed strategic directions for KAUST to enhance its engagement and impact.
- **KAUST and KSA: Outreach & Engagement:** Focused on outreach and engagement initiatives to strengthen the relationship between KAUST and the Kingdom of Saudi Arabia.
- **Local Innovation Economy Development:** Worked on projects aimed at developing the local innovation economy.
- **Impact on the Kingdom:** Contributed to projects that have a significant impact on the Kingdom's development.
- **The Linking Pin: Creation of the Department of Strategies, Research, & Policies (SRP):** Established a department to focus on strategies, research, and policies.
- **The Young Saudi Writers Awards Competition:** Part of initiatives to build a knowledge economy in Saudi Arabia, this competition aims to inspire and boost writing among young Saudi writers, addressing the challenge of knowledge production.

International Administration

Associated with State University of New York at Albany

Antoine has also contributed to various aspects of international administration, focusing on global governance and public administration:

- **Global Governance:** Studied the organization of world politics in the context of globalization, including international organizations like the United Nations and the European Union, and the legal frameworks governing international cooperation.
- **Comparative and International Public Administration:** Explored topics and problems in comparative and international administration.
- **Planning for Jobs, Housing, and Community Services in Third World Cities:** Focused on community development and improving conditions in poor urban neighborhoods, including shanty-town upgrading, job-creation programs, and micro-enterprise promotion.
- **Comparative and International Public Management:** Examined public administration in different cultural, historical, and political contexts.
- **Information Technology, Globalization, and Global Governance:** Investigated the role of information technology in globalization, democratization, diplomacy, security, and international development.

These projects and areas of focus highlight Antoine Burkush's extensive contributions to international development, innovation ecosystems, and the knowledge-based economy. If you need more details or have specific questions, feel free to ask!

MIT SPURS | Special Program for Urban and Regional Studies

The **Special Program for Urban and Regional Studies (SPURS)**, part of the Department of Urban Studies and Planning (DUSP) at MIT, has been hosting international practitioners and mid-career professionals since 1967. It was the first mid-career planning program of its kind in the United States. SPURS has hosted 676 Fellows from 117 nations, including 195 Humphrey Fellows. [The SPURS/Humphrey Alumni network includes professionals in key leadership positions globally](#)¹.

Key Features of SPURS

- **Cutting-Edge Learning Environment:** Anchored within DUSP, which is internationally recognized as the top urban planning department.
- **Diverse Faculty:** Approximately 40 leading-edge faculty members covering areas from international development to urban design and transportation planning.
- **Research Centers:** Hosts award-winning research centers like the Media Lab, Sensible City Lab, and the Center for Real Estate.

- **Professional Connections:** Linked to major planning institutions in the U.S. and worldwide.
- **International Development Group (IDG):** A subgroup within DUSP focusing on technology and development, cities in conflict, regional and urban planning, transportation, and the urban environment in the global South¹.

National and Regional Initiatives at Al-Khaleejiah

National Initiatives

- **Market Research Companies:** Active member in launching companies specializing in broadcast and print media research at the GCC level, including the creation of the first TV meters' company, "MERGE" (Middle East Research Group).
- **Media Research:** Involved in changing media research in the region by combining consumption and readership measurements.
- **Coop System in Saudi Arabia:** Introduced the first system to provide university students with pre-graduation work opportunities.
- **Career Orientation Systems:** Conducted special studies to introduce these systems at universities.
- **Summer Internships Program:** Launched the first program in Saudi Arabia to provide students with internship opportunities in business, advertising, and marketing.
- **Job Fairs:** Promoted job fairs for major universities in Saudi Arabia, such as KFUPM Jobs Fairs.

Regional Initiatives

- **Advertising Education Projects:** Involved in establishing the Regional Institute for Advertising and Marketing (RIAM) in Bahrain.
- **Innovation in Media Research:** Changed media research in the region by combining consumption and readership measurements.
- **Outdoor Advertisements:** Introduced innovative concepts in outdoor advertising.
- **Special Studies:** Conducted studies for Jeddah Downtown revitalization and strategies for Jeddah city tourism development.

These initiatives highlight Antoine Burkush's extensive involvement in both national and regional projects, showcasing his contributions to media research, education, and urban development.

¹: Special Program for Urban and Regional Studies | DUSP

KAUST Projects

Associated with King Abdullah University of Science and Technology (KAUST)

Antoine Burkush has been involved in several significant projects at KAUST, focusing on economic development, strategic planning, and innovation. Here are some key highlights:

- **KAUST Economic Development: Strategy, Functions, and Operations:** Proposed a 15-step approach to economic development.
- **Developing RFPs and SOIs:** Created requests for proposals, scopes of work, evaluation grids, and more for major projects.
- **Strategic Plans and Job Descriptions:** Developed strategic plans and job descriptions for key positions.
- **Establishment of New Departments:** Played a role in setting up new departments.
- **Standards of Internal Controls:** Developed standards for internal controls.
- **Division's Strategic Model of Operation:** Created a strategic model for division operations.
- **Extensive Strategic Research:** Conducted research in areas such as innovation ecosystems, competitiveness, entrepreneurship, technology transfer, research parks, innovation clusters, venture capital, and the impact of research universities.
- **Think Tank Participation:** Participated in major think tank meetings.
- **Management and Tracking System for Events:** Developed systems for managing and tracking major events, including research on topics and international speaker searches.
- **Breakthrough Proposals:** Contributed to various innovative proposals.

Programs Evaluation and Public Sector Performance

Associated with State University of New York at Albany

Antoine has also contributed to the evaluation of public sector programs and managing public sector performance:

- **Managing Public Sector Performance:** Focused on performance management at both organizational and individual levels, including measurement methods and challenges.
- **Evaluation of Public Sector Programs:** Covered quantitative and qualitative evaluation methods, data collection, and utilization of evaluation results.
- **Performance Measurement and Contracting in Government:** Addressed performance measurement for accountability, managerial, and evaluation purposes.
- **Welfare Policy and Management:** Analyzed welfare programs, including objectives, policy designs, management systems, and effects on low-income families.
- **Practices in Program Evaluation:** Included performance measurement, stakeholder input, outcome assessment methods, and data collection issues.
- **Plan Implementation and Development Management:** Focused on the implementation and management of development plans.

KAUST and KSA: Impact on the Kingdom

Antoine has also worked on projects to ensure KAUST's impact on Saudi Arabia and beyond:

- **Review of KSA's National Development Plans:** Analyzed national development plans and strategies.
- **Linkages with KAUST's Strategy:** Defined how KAUST fits into the broader national strategy.
- **Impact Definition and Agreement:** Clarified the type, scope, and timing of the impact KAUST is expected to produce.
- **Impact Paradigm and Process:** Established a model for KAUST as a research university to generate impact.

- **Economic Development Strategy:** Developed a strategy to create and track impact, including an innovation observatory.
- **Impact Assessment:** Evaluated the effectiveness and efficiency of the impact generated by KAUST.
- **Impact Securing Entity:** Assessed the feasibility of creating an entity to secure and monitor impact.

These projects highlight Antoine Burkush's extensive contributions to economic development, strategic planning, and public sector performance.

Career Guidance and Counseling

Experience

Modern University for Business and Science (MUBS)

Professor of Education
June 2024 - Present (3 months)
Beirut Governorate, Lebanon

Director of the Counseling and guidance center

Notre Dame University

Professor at NDU
August 2023 - Present (1 year 1 month)

JRBusiness Consultancy

Senior Educational Consultant
2007 - Present (17 years)
The University of Wollongong in Dubai

Assignments and Projects included:

- Corporate Responsibility training for DP World - a major publicly traded company of 37,000 employees
- Capabilities Building and Quality Improvement for a major Dubai private school company. Assumed role of acting Chief Academic Officer.
- Leadership training for senior UAE gov't employees through Etisalat training academy, in Dubai and facilities in England.
- Team building for senior managers of various public and private enterprises through Olive Group.
- Capabilities Building for a private school in Al Ain, UAE, including teacher training, curriculum restructuring, purchasing materials and recruiting new staff and teachers.

-Assessment & evaluation of Human Resources, including skills, aptitudes and knowledge of 2500 participants in UAE municipalities.

-Designing, applying and training teachers to administer a music program for a private autism school.

-A three year long, weekly talk show with Al Arabiya 99 (radio station), "Mirna Bala routine" addressing parenting and education of children and adult professional development as well as marriage counselling. -Teacher training, soft skills training, HR assessment PXT, designing curricula for ESL, guiding students in career counseling, gs4ci

United Arab Emirates University

2 years

Assistant Professor

August 2004 - August 2006 (2 years 1 month)

Teaching and training teachers

Assistant Professor

2004 - 2006 (2 years)

Al Ain, UAE

Instructed courses such as Language Methods of English, Early Childhood, Developmental Psychology, Student Practicum in Curriculum and Instruction. Applying Multiple Intelligences and Career Guidance techniques.

Zayed University**Educational Consultant - Center of Business Excellence**

2006 - 2006 (less than a year)

Dubai, UAE

Educational consultant, career counselling, evaluating Human Resources.

UAE University**Assistant Professor**

2004 - 2006 (2 years)

University of Cincinnati**Adjunct Professor**

2003 - 2004 (1 year)

Cincinnati, Ohio, USA

Adjunct professor of Arabic in the Romance Languages Department

University of Cincinnati**Graduate Assistant**

2001 - 2002 (1 year)

Cincinnati, Ohio, USA

Graduate Assistant in the Department of TESL in Teachers' College Research.

Thomas More College**Adjunct Professor**

1999 - 2001 (2 years)

Crestview Hills, Kentucky, USA

Duties included teaching Human Growth and Development, Teaching Methods, Music for Teachers. Managing the Learning Plus Computer

Program, teaching French as a foreign language, designing and implementing a multicultural course.

St. Catharines Preschool

School Principal

1997 - 1998 (1 year)

North Vancouver, BC

Responsible for Recruitment, curriculum restructuring, special needs coordination, reporting to the board.

Ecole Sacre Coeur

Teacher

1995 - 1997 (2 years)

Welland, Ontario

Teaching Music to Grades 1-8

Niagara South Public French Schools

Teacher

1994 - 1994 (less than a year)

Supply teaching Grades 1-13

Lincoln County Separate School Board

Teacher

1994 - 1994 (less than a year)

St. Catharines, Ontario

Duties included teaching Arabic as Continuing Education Course

Lebanese Prep School

Assistant Director

1992 - 1993 (1 year)

Beirut, Lebanon

Duties included coordinating elementary school program, training teachers, counselling parents and students, Admission Psychometric Testing for K1 and K2, teaching English in Grades 7 & 8, teaching music in all elementary classes.

Hariri Scholarship Foundation, American University of Beirut

Career Counselor

1991 - 1992 (1 year)

Beirut, Lebanon

Duties involved individual counselling using techniques such as testing and group guidance at affiliated high schools throughout the country, also preparing the monthly newsletter.

The Alpine Centre

Teacher

1988 - 1991 (3 years)

Athens, Greece

Duties included teaching French as a foreign language

The Sultan's School

Head Teacher

1983 - 1987 (4 years)

Seeb, Oman

Duties included coordinating the program in K1 and K2, admissions testing, teaching and teacher training.

International College

Teacher

1978 - 1983 (5 years)

Beirut, Lebanon

Duties included teaching English and Music in K1, Admission testing

Psychology · (1975 - 1981)

NASRI CHAMSEDDINE

Nasri Shamseddine (1927 – 1983)

The Lebanese singer Nasri Shamseddine was born on June 27, 1927 in Joun, a small village in Mount Lebanon. He inherited his vocal talents from his mother and started singing at the age of six. He took part in choirs and plays at school, and he taught himself how to play the oud. Nasri finished high school, and then started to teach. However, because he associated everything with music, it was without surprise that he was fired for singing to his students in class.

Throughout the years, Nasri continued to try new jobs, but lost them due to his love of music. In 1950, when he was twenty-three, Nasri traveled to Egypt, which at the time was the musical center of the Arab world. There, he worked on his vocals and also became more familiar with playing the oud. Upon his return to Lebanon, Nasri applied for a chorus position at a radio station. This was where he met Fairouz and the Rahbani brothers, and started working with the famous singer. The duo sang together on radio stations before heading to the theater.

They performed together in 1957 in Baalbak as well as in the Cedars of Lebanon. In 1967, Nasri and Fairouz started their annual musicals at the Picadilly Theater in Beirut. He also performed in Beyt Eddine with Sabah, Wadih Al Safi, Majdala and many others. Still though, Nasri remained unsatisfied, so he took on a solo career as well as major roles in three movies. Additionally, in order to be recognized internationally, he traveled to Africa, Asia, Australia, Europe, and North and South America.

He declared that his favorite country was Brazil. Nasri adhered to the Lebanese dialect in his songs, which was very attractive to the common Lebanese public who were mostly from the countryside and mountainous regions. However, Nasri's singing career was an uphill battle. Even though he grew up in a small town and his surroundings were not very supportive of his career choice, his determination helped him find the success he desired. His career as a singer,

performer and actor continued for thirty years. Today, , his songs, movies, and plays are still broadcasted all over the world. Nasri Shamseddine had always dreamt of dying on stage and his dream became a sad reality when he suffered an aneurism on stage in Damascus, Syria on March 18, 1983. Nasri Shamseddine is a legend, with a unique voice that has no equivalence. He is considered to be one of the greatest Arab singers of all times, and he will never be forgotten.

Nasri Shamseddine

NASRI SHAMSEDDINE

FROM WIKIPEDIA, THE FREE ENCYCLOPEDIA

NASRI SHAMSEDDINE (ARABIC: نصري شمس الدين, ALSO SPELLED NASRI CHAMSEDDINE; 27 JUNE 1927 – 18 MARCH 1983) WAS A LEBANESE SINGER^[1] AND ACTOR.^[2] SHAMSEDDINE'S ŒUVRE CONSISTS OF MORE THAN 500 SONGS. HE HELD CONCERTS IN A LARGE NUMBER OF COUNTRIES AND WON AWARDS IN BRAZIL, FRANCE, JORDAN, LEBANON, EGYPT, KUWAIT, AND SYRIA.

REFERENCES

1. "مهرجان صبور الموسيقي الدولي... تحية إلى نصري شمس الدين". ANNAHAR.COM (IN ARABIC). 2020-09-11. RETRIEVED 2020-12-09.
2. "نصري شمس الدين عشق المسرح حتى الموت... وبقي فخر الدين الأسطورة"[^]. ELFANN NEWS (IN ARABIC). RETRIEVED 2022-05-20

Nasri Shamseddine, a renowned Lebanese singer and actor, has a rich legacy of music that spans over 500 songs. His oeuvre includes a variety of Arabic folk and Lebanese music. Here are some of his notable songs:

Kalou Al Kaouale

Ya Zarif Attoul

3Asfourtein

Ma Dam Saha Mniha

Arreb Ya Moustachar

Dabkett Addoura

Khallik Sport Ya Qalbi

A'ala Dal'ouna

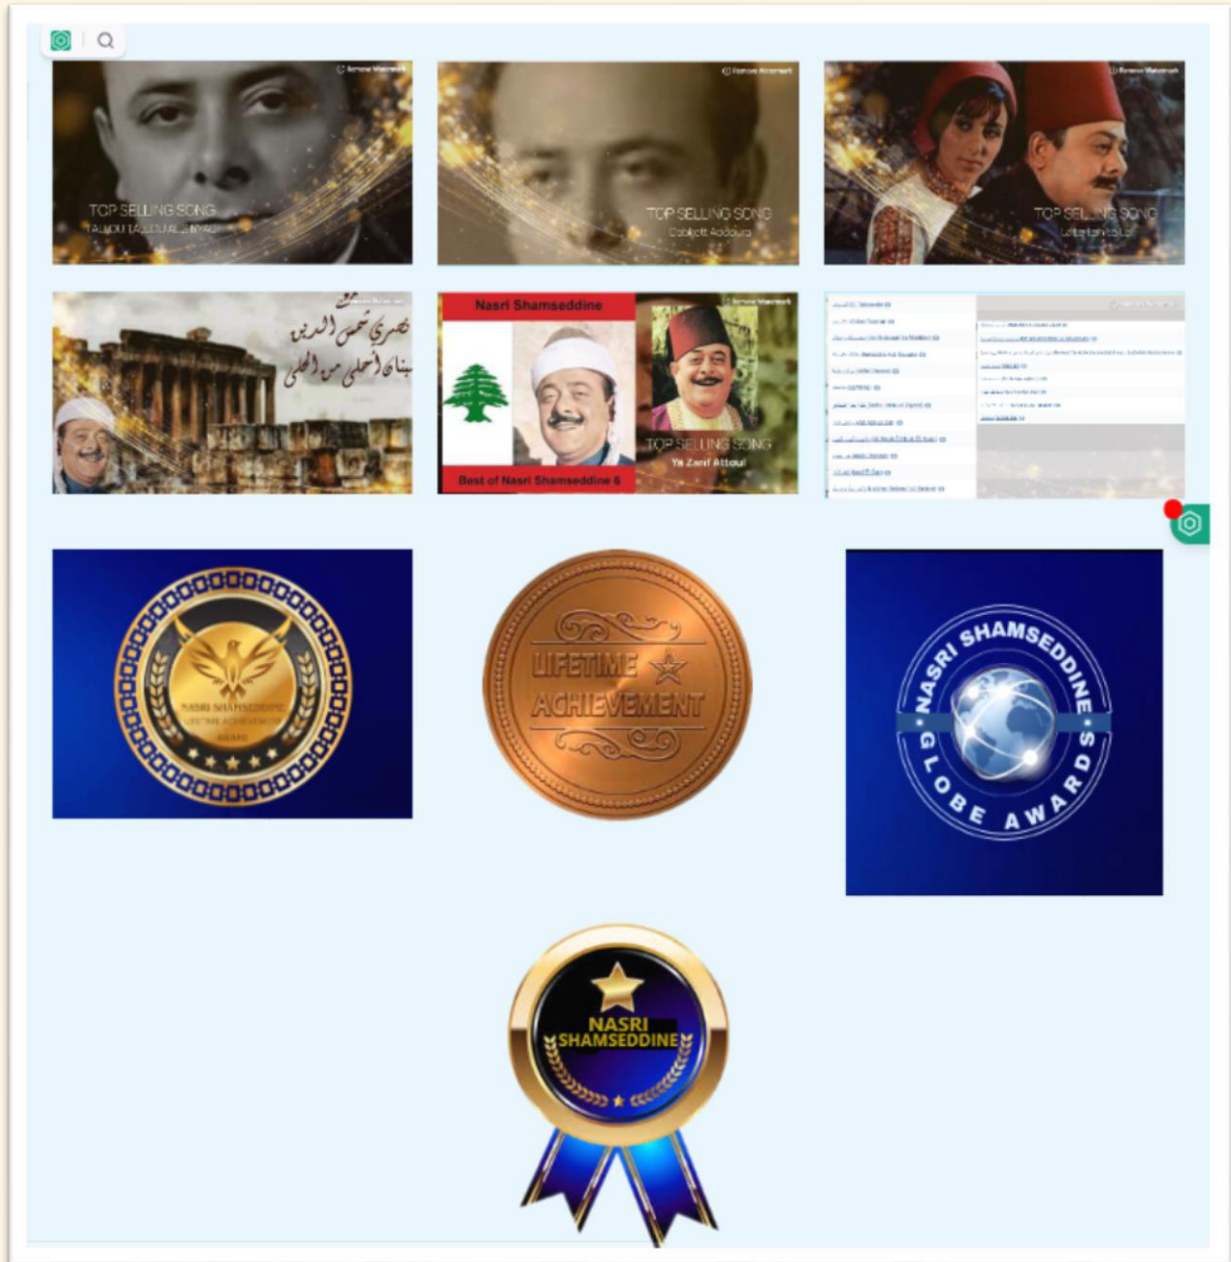

La La Lah La La

Yamel Assawer

These songs reflect the diverse range of his musical talent and his contributions to the Arabic music scene. He was not only a specialist in singing Lebanese folklore but also in performing songs in different Arabic dialects. His collaborations with other prominent

artists like Fairuz, the Rahbani brothers, and Wadih Al Safi further cemented his status as a cultural icon¹²³⁴.

For a more comprehensive list of his songs, you might want to explore music platforms where his albums are available, such as Wynk Music or Spotify²⁵.

Alexandre Daher

Campus & Senior Engineering Manager
Greater Montreal Metropolitan Area

Summary

Leading the charge at Rockwell Automation, my focus is on the Center for Excellence, where safety-critical industrial controls are redefined through robust technology management. With over six years of dedicated service, I orchestrate site, demand, and delivery management, ensuring that our roadmaps and project executions align with continuous integration and delivery goals.

Our team has successfully modernized our business approach, resulting in strategic product roadmap development and significant recovery in engineering deliveries. By fostering strong partnerships with stakeholders, customers, and suppliers, we've cultivated a customer-centric environment that prioritizes product development, field operations, and sustainable innovation.

Experience

Rockwell Automation

8 years 1 month

Campus & Senior Engineering Manager

July 2024 - Present (2 months)

Brossard, Quebec, Canada

Campus & Engineering Manager

November 2017 - July 2024 (6 years 9 months)

Brossard, Quebec, Canada

Lead the Center for Excellence for safety critical industrial controls in process and machine. Responsible for the Site, demand, and delivery management. Deliver roadmaps and project execution to meet continuous integration / continuous delivery objectives. Lead and manage teams of Project Managers, Team leaders and Engineers. Manage product development and field. Manage internal and external relations with stakeholders, customers, and suppliers. Manage innovation and technology introductions.

- Modernized the business canvas, developed product roadmaps, and tailored their implementations.
- Provided technical leadership and engineering management.
- Recovered engineering deliveries, product quality and customer satisfaction.
- Reorganized the customer engineering support with alignment to Rockwell support organization.
- Lead the transfer from Europe to North America of an industrial critical controls business line for Oil & Gas.
- Expanded the campus facilities with new test and integration for control systems and automation solution alike.
- Re-organized engineering operations with Agile teams, updated roles & responsibilities, mechanized internal deliverables, and quality controls.
- Built new facilities for safety critical controls systems and lead the hiring and onboarding of staff and activated development operations under regulatory compliance without interruptions to product developments.
- Added an engineering development satellite contributing to the flagship product of the company.
- Managed innovation, patents and SR&ED projects.
- Implemented the engineering coop & intern program.
- Requalified the campus for ISO-9000.
- Responsible for E&HS.

Software Engineering Manager

August 2016 - November 2017 (1 year 4 months)

Brossard, Quebec, Canada

Lead software development on Integrated Development Environment products for Industrial automation design on safety critical applications. Managed a team of 22 Software Engineers.

École Polytechnique de Montréal

Consultant

April 2015 - November 2017 (2 years 8 months)

Montreal, Canada Area

Take a pause and chart the waters!

Master Degree in Innovation & Technology Management.

Honeywell

Site Leader / Engineering Leader

December 2010 - April 2015 (4 years 5 months)

Lead the Center for Excellence for Line Volt environmental controls and energy efficiency products with accountability for site and NPI performance

Page 2 of 8

goals and budgets, managed a team of 30 in a high volume low cost electronics with regulatory compliance.

- Completed the product portfolio optimization and roadmap and participated in product strategy.
- Completed 7 NPI projects for the connected home with Line Volt Thermostat featuring wireless smartphone controls, SaaS, User Experience Interface.
- Delivered 18 disclosures and 6 patents by implementing an innovation incubator.
- Delivered a modular architecture doubling the NPI output with extensive reduction in sustaining costs.
- Completed 10 engineering process projects: PMO, NPI management, design for six-sigma, Agile and iterative development, patenting & disclosures, technical de-risking, cost avoidance and reduction, product re-compliance, CSA test bed certification and employee recognition.
- Delivered a re-usable product documentation package allowing fast start of new NPI projects while maintaining repeatability and reproducibility in the design and manufacturing spaces.
- Participated in producing winning business cases for NPIs and monitored performance metrics.
- Ensured suppliers and third parties deliver to specifications, SOWs and contracts and established partnerships and alliances.
- Oversaw team support to internal stakeholder groups manufacturing, marketing, sales manufacturing, quality purchasing, customer service and support.
- Completed 4 site training projects: PMP certification, Six Sigma, NPI and User Experience processes.
- Implemented employee reward program for initiative and innovation.
- Promoted company requirements at CSA Technical Committee level.

Safran Electronics Canada Inc.

7 years 2 months

Technology Director

April 2005 - June 2010 (5 years 3 months)

Accountable for all aspects of Research & Technology, Engineering, Manufacturing and Supply Chain for embedded controls for business aircraft systems, as well as directed all engineering and manufacturing operations, projects and improvement initiatives. Oversaw bids, design and certification, supplier management, procurement and manufacturing facilities, equipment and regulatory compliance. Managed a team of 145.

- Completed 7 major NPI programs for embedded controls on 3 engines, 3 landing gear and steering, 1 for engine data unit and 3 avionics modules.
- Oversaw Product gate compliance reviews.
- Delivered 7 engineering process cost and cycle time reduction projects for: documentation automation, change management automation, software testing automation, in-house EMI testing, RAMS automation, HALT and MTBF testing, and associated Engineering Operating Procedure, and 3 automated functional test beds for Landing and Steering control.
- Oversaw cycle reduction and cost avoidance on 28 sustaining programs for Dassault Aviation, Bombardier, Messier Bugatti Dowty, Boeing, Lockheed Martin, Alenia, P&WC, Eclipse, Woodward, Shinmaywa, Gulf Stream and Hawker.
- Completed 5 engineering process overhaul projects for software DO178B, hardware DO254, qualification DO160E, configuration management, software release and PMO Class III maturity.
- Completed 4 supply chain projects for costs stabilization, supplier optimization, MRP gold database and SAP.
- Negotiated and outsourced cyclic Software testing activities improving throughput by 85%.
- Delivered a new bid process and completed 6 requests for tenders capturing 3 contracts.
- Implemented and lead the Research and Technology incubator de-risking design activities and roadmaps.
- Implemented research programs with RIADI of Ryerson University and access pool for recruitment.
- Maintained a quarterly communication plan and participate with HR in employee feedback reviews.
- Completed 2 major hiring campaigns.

Operations Manager

July 2004 - March 2005 (9 months)

Accountable for Manufacturing, Sustaining Engineering & Test Equipment Development, as well as directed all manufacturing operations, projects and improvement initiatives. Supervised a team of 55. Oversaw all activities for manufacturing, facilities, equipment and regulatory compliance.

Delivered adherence to costs, quality, efficiency and 90% FP yields, repeatable TAT, flexibility and quick turn, and drastically reduced cycle time by implementing the following:

- Spearheaded a major overhaul completing 9 transformation projects: factory layout, new HVLM SMT line with automated inspections, ICT, functional and environmental test equipment, and workstation redesign.
- Lead free assemblies and new HSE requirements.
- Added external capacity in order to maintain flow for high mix low volume manufacturing in order to support high volume NPI and improved Cash flow conversion cycles using JIT practices.
- Lead the design and delivery of an automated ATP tester for a delivery rate of a 100 FADEC per week.
- Overhauled manufacturing processes and product assembly flow to incorporate SPC, process controls.
- Lead the adoption of value stream mapping, lean, Kaizen, Quality Circles, 5S, DMAIC and FMEA.

Product Engineering Manager

January 2004 - June 2004 (6 months)

Accountable for Sustaining, Test Equipment. Lead and supervised a team of 12.

- Liaised with customers for approvals, and ensure support to program management.
- De-risked and gain approval for delivery of 2 sustaining programs critical to revenue.
- Provided technical management of 24 sustaining programs. DITUs, SCUs, LGCUs, DCUs.
- Initiated ATE for 4 NPI programs.
- Implemented preventive maintenance for Test Equipment and optimized calibration activities.

Technical Lead

May 2003 - December 2003 (8 months)

Accountable for Technical Project Management and NPI, supervised a team of 5.

- Completed 2 NPI programs: Engine Data Collection Unit; Motor Monitoring on ETRAS.
- Completed 2 obsolescence programs: Steering Control Unit; Pitch Feel Control Unit.

- Managed 3 sustaining De-icing Timing Unit programs.
- Implemented rigorous project management methods, processes and practices..

Dynamic & Proto Circuits

Project & Process Engineering Manager

April 2000 - May 2003 (3 years 2 months)

Accountable for Projects and Process Engineering.

- Completed 3 EPC projects for facility expansion managing suppliers and contractors.
- Lead CAPEX projects for new equipment.
- Managed plant maintenance and continuous improvement projects.
- Managed manufacturing process improvement projects and resolution of non-conformity.
- Completed HSE implementation and programmed training.
- Completed SR&ED program implementation and maintenance.
- Ensured compliance to IPC industry standards.

Coretec Inc (now TTM Technologies)

Sr Process Engineer

1999 - 2000 (1 year)

Accountable for manufacturing processes of a Business Unit, lead continuous improvement projects and commissioned new equipment technologies and Documented associated processes and procedures.

- Managed continuous improvement for a Business Unit achieving consistent 97% first pass yield.
- Designed and delivered a repair process resulting in resolution of major contractual obligation while recovering 80% of SCRAP product.
- Completed 3 new equipment commissioning projects and 2 materials change projects.
- Designed & completed 1 Automation & Controls project.
- Conducted analysis and implemented Six-Sigma tools for a Business Unit FMEA, DOE and SPC.
- Ensured compliance to IPC industry standards.

Firan Technology Group Corporation (FTG)

3 years 2 months

Engineering Manager

April 1997 - April 1999 (2 years 1 month)

Accountable for Process Engineering, Methods and Tooling design, supervised a team of 10.

- Delivered the factory modernization plan and completed 2 new equipment commissioning projects.
- Completed the MRP system fully integration end-to-end manufacturing operations.
- Completed the integrated single seat method and tools engineering project resulting in 30% cycle time reduction.
- Completed various continuous improvement project linking CAR to SPC to engineering.
- Ensured compliance to IPC industry standards

Quality Engineer

March 1996 - April 1997 (1 year 2 months)

Accountable for Quality Engineering.

- Completed ISO 9000 implementation project resulting in a first pass KPMG Audit and Certification.
- Completed implementation IT project for Documentation Configuration Control Management.
- Completed implementation IT project for Corrective Action Request Management.
- Lead and coordinated a factory wide training programs resulting in reduction in quality costs.
- Lead SCAR resolution reducing the backlog, achieving on-time delivery and recovery of the order book.
- Completed SPC implementation project resulting in performance KPIs for manufacturing Process Management and Quality Control.

Consortech

Project Engineer

1995 - 1996 (1 year)

Accountable for customer installation projects directly reporting to Marketing Manager.

- Completed 8 CAD/CAE installation projects and PLM tools

Hydro Québec

Project Engineer

1991 - 1995 (4 years)

Accountable for planning, scheduling and Cost Control.

- Re-planned the Water Intake Project at Laforge-1 resulting in a delivery with 1 mo ahead of schedule exceeding customer expectations.
- Completed Laforge-1 375 kV power station project.
- Completed Laforge-2 375 kV power station project.
- Completed Tilly 735 kV power station expansion project.
- Completed Radisson power station expansion project.
- Monitored issue management, change and Cost+ works,
- Participated in claims analysis, negotiations and settlement.

Micro Logic Applications**Systems Engineer**

1990 - 1991 (1 year)

Designed and implemented Data Network projects and solutions for the public sector such as public works, engineering consultants and manufacturing.

- Lead feasibility studies and supported bids.
- Completed technology selection and qualification projects for HW and SW.
- Provided technical support.
- Performed technical presentation in support of Marketing and Sales.

Education

Université de Montréal - Ecole polytechnique de Montréal

Master's Degree, Engineering - Innovation & Technology

Management · (2014 - 2016)

Université du Québec à Montréal

Associate's Degree, Communication - German Studies · (2014 - 2016)

Université de Montréal - Ecole polytechnique de Montréal

Bachelor's Degree, Electrical, Electronics and Communications

Engineering · (1985 - 1989)

Frères Maristes

DR SALAM KOUSSA, MD

SAMIR SAMMOUN Engineer / Painter

FULL PROFILE

New York State First Lady Michelle Paige Paterson with Samir Sammoun at the Governor's Mansion

Full Profile

Samir Sammoun (born August 10, 1952) is a Canadian–Lebanese artist and telecommunications engineer.

Early life

Samir Sammoun was raised in Joun, Lebanon on his family's 1,000-year-old olive plantation. His father, Fares Sammoun, was a broker at the Port of Beirut, and an olive grove farmer. His father Fares and mother Marie Bouchrouh, were married for 65 years until their deaths in 2008 and 2010.

Born into one of Joun's notable families, Samir is the third child in a family of six children; five boys and one girl. In 1976, his brother Elias, (age 20), was killed in the Lebanese civil war.

Samir Sammoun began painting in oils at the age of 13,^[1] while continuing his formal education. After completing studies at the Ecole des Arts et Metiers in Beirut in 1969, he emigrated to Montreal, Quebec, Canada in 1973 at the age of 21.^[2]

There he obtained a Baccalauriat en Ingenierie (Engineering degree) in Electronics in 1977, followed by a master's degree in telecommunications from the Ecole Polytechnique de Montreal in 1978. After becoming a citizen of Canada in 1976, it was there he met and married Yvette Charron in 1980.

Work and careers

While pursuing a career as a telecommunications engineer, and obtaining several patents^[3] for Cable TV transmission systems,^[4] Sammoun resumed painting oils on canvas, and simultaneously launched a second career as a professional artist.

Sunny Isles Beach, Florida by Samir Sammoun 24x30 Original Oil on Canvas

In 1988–92 Samir Sammoun obtained **three patents for engineering inventions** that would enable Cable providers to broadcast and receive high speed data over Cable Networks. From 1990–95 Sammoun served as Vice President of Videotron in Montreal, after which he founded his own company SHS Technology.^[5] SHS was a leading analyst in the technology that operates the Broadband over power line, which transmits internet signals to and from subscribers of electricity companies.

While at Videotron he and his colleagues, as described in their 1990 patent, invented a "cable communication system comprising a bidirectional transmission network connected to the head end for transmitting signals downstream from the head end to a plurality of subscriber stations, and for transmitting data signals upstream to the Cable provider". Along with others, this system forms the basic technology for addressing data traveling over the internet.

Wheat Field by Samir Sammoun Original Oil on Canvas 40x60

In 2003–2004 he was the featured artist in a televised segment on Mountain Lake PBS Television, Plattsburgh, New York. His work is cataloged in the National Library of Canada.

In 2003 Samir Sammoun was the invited guest of Emile J. Lahoud, President of Lebanon. His visit was featured in a segment on LBC-TV; and his painting Olive Grove was installed in the Baabda Palace, Presidential Palace in Beirut.^[6]

Olive Grove in Joun, Lebanon by Samir Sammoun

A solo exhibition of his paintings was held at the Gallery d 'Art at the Musee des Beaux-arts de Montreal from October–December 2005, attended by Quebec Premier Jean Charest and his wife Michelle Dionne. Prior to that, Samir Sammoun was given a retrospective at the Musee de Marc-Aurele Fortin in the old city of Montreal, Quebec, Canada.

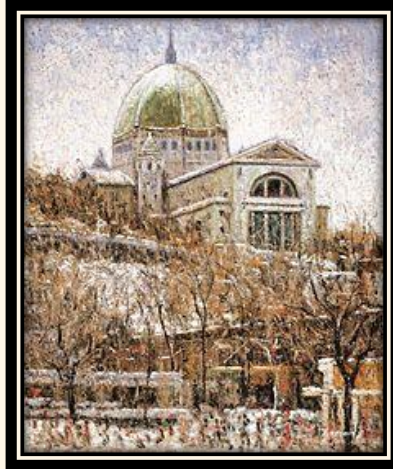

In 2009 he exhibited at the Plattsburgh State University Art Museum, Plattsburgh, New York to create a series of 18 oil paintings commemorating the 400th Anniversary of the European discovery of Lake Champlain.^{[7][8]}

The paintings were exhibited there from May – July 2009, and featured in a live broadcast there on Fox TV; after which two were exhibited for a year at the Governor's mansion in Albany, upon the request of the First Lady of New York, Michelle Paige Paterson.^[9] Paintings from this group were also entered into the Plattsburgh State University Art Museum, and the Samuel de Champlain Museum's permanent collections.

Three of his paintings were acquired in 2011 by the Arab Fund for Economic and Social Development (AFESD) Museum of Kuwait, for their permanent collection.

Other Museum credits include a Group Exhibition at the McCord Museum in Montreal Feb–March 2002, a Guest Artist Exhibition at the Latino Art Museum in Pomona,^[10] California 2008 and a commission he painted in 1997 for the St. Joseph's Oratory, a National Historic Landmark in Montreal that receives 2.5 million visitors every year.^[6]

Another painting was commissioned by Corporate Affairs International and donated to the government of Quebec. It is now included in the permanent collection of the Quebec government offices in Quebec City.

Saint Joseph Oratory by Samir Sammoun

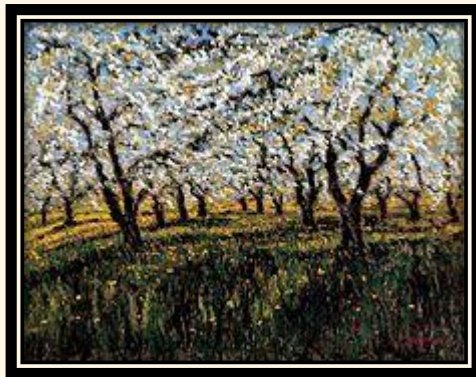

Works

Sammoun works in a series of images from one palette. He works with oils on jute and linen canvas, applying a heavy impasto, created in fast emotional bursts of energy.

The result is a spontaneous rendering of the subject, as if a flickering effect of light is coming through, reflected by the colors he places side by side and on top of one another on his canvas.

Critics like Noel Meyer of *MAGAZIN' ART*^[2] have said, "Sammoun attempts to make his audience feel the wind blow through the trees, the heat in the air and the colors of the sky ..." Victor Forbes Editor of Fine Art Magazine, has said that "Sammoun's emotional investment in each work is evident in every canvas."^[1]

Paintings by Sammoun were in a 2012 group exhibition "Viewpoint and Vistas".^[12]

Apple Blossom by Samir Sammoun 24x30 Original on Canvas

Personal life

With his siblings in Lebanon, he is today the owner of an olive grove near his birthplace in Joun that produces extra virgin olive oils.

Samir Sammoun Self Portrait with his young son

Samir Sammoun is active in several charitable organizations, including Sainte Justine Hospital of Montreal and the Medical Mission for Children in Boston. In 2012 Sammoun met with Cardinal Bechara Boutros Al Rahi, Patriarch of the Maronite Catholic Church, during his visit to Montreal; and presented him with an oil painting to be placed in the Bkerke, at the historic coastal city of Jounieh, Lebanon.
